CANADA'S NAVY IN COMMISSION ON NOVEMBER 1

OTTAWA, Oct. 1—Canada's navy, consisting of the cruiser Aurora, and the destroyers Patriot and Patrician, will be commissioned on November 1, and will leave England for Canada shortly after that date. It was explained at the department of the naval service, that the commissioning of the vessels means that they are placed in the class of active warships.

Captain H. C. H. Adams, who will command the Aurora, will go aboard his vessel, his flag will be hoisted, and the crew will take up quarters on the ship.

The two destroyers are under C. T. Beard and G. C. Jones. Some fifty men and boys have been sent over from Canada to form part of the personnel of the vessels.

AGAIN IN BLOSSOM.

A snow ball tree on the lawn of Mr. John McNevin, Brighton, which was profuse with blossoms during the summer is again coming into bloom with a number of beautiful flowers.

"CELL" O SOLOISTS.

Five drunks arrested Saturday furnished a programme of melody during the afternoon in their cells in the lock-up which could be heard a block away. Another was gathered in yesterday making a sextette which will be invited to appear in public this morning before His Honor when a "fine" performance will no doubt take place.

POTATO DIGGING DEMONSTRATION.

The announcement that the Asplenway potato digging machine was to give a demonstration in potato digging at the Experimental Farm on Saturday morning created considerable interest among some of the local growers and others. The machine certainly marks an advance in devices of this character. It was drawn by two horses from the Experimental Farm and made a job that was highly satisfactory, the machine plowing cleanly beneath the growing potatoes, which were carried with the loose soil over a revolving frame work separating them from the soil and depositing them neat and clean to the rear of the machine where pickers who follow gather them up. Not a potato was cut or damaged by the process and the potatoes are so well separated from the loose soil that pickers have no trouble to find them. Supt. Clarke of the Experimental Farm when asked his opinion of the machine stated it performed a satisfactory job and being of light draught was handled as easily with one team as some other machines with four horses. During the demonstration Mr. W. C. Cook secured a good photograph of the machine in action. Among those present were Mr. Jacques, Canadian manager of the Asplenway Canadian Company, Quebec, Ont., Mr. D. B. McDonald, General Agent for P. E. Island, Mr. W. G. White, manager of the Gloucester Lumber Co., Bathurst, N. B., Mr. J. A. Simpson, Amherst, N. S., Mr. Rogers of Bathurst, Mr. Walter Matheson and Mr. Gregor, City, Prof. Clarke, Mr. B. W. Sherwood, Ottawa, Mr. S. Kennedy and Mr. C. W. Seal of Kennedy & Co., local distributors and others.

MUR—SPURR WEDDING.

The marriage of Miss Edith M. Spurr, M. A., and J. Thompson Muir, son of Allen Muir, of the firms of Muir, McAlister and Company, Dundee, Scotland, took place at the home of the bride's parents, Rev. and Mrs. J. C. Spurr, Hantsport, on Wednesday, September 22. The bride who for the past few years has been teacher of Latin and French in the Duke of Connaught High School, New Westminster, B. C. wore an ivory duchess satin gown trimmed with Georgette and beads, veil and fringed blossoms. She carried a shouwer bouquet of white roses. Miss Whitman who acted as bridesmaid wore a gown of pink silk trimmed with chiffon and beads and carried a bouquet of pink roses. The bride entered the beautifully decorated drawing room to the strains of Mendelssohn's wedding march, on the arm of her brother E. W. Spurr manager of the Canadian Bank of Commerce, Devon, N. B. C. Silver, principal of the Hantsport schools supported the groom. The ceremony was performed by the bride's father assisted by Rev. L. H. Crandall, pastor of the Hantsport Baptist church, after which a dainty luncheon was served. The groom's gift to the bride was a set of ermine furs to the bridesmaid a cameo ring—groomsman a pearl stick pin. The parlist, Miss Clara MacDonald of Hantsport, received a cameo bar pin. The bride's going-away suit was of French blue velvet worn with feathers and hat to match. Mr. and Mrs. Muir left on a short Nova Scotian motor tour after which they will spend some time in Fredericton, Montreal and Winnipeg where they will reside.

ISLAND PROBLEMS AT BOARD

At the Maritime Board of Trade meeting in Amherst Thursday, the P. E. I. delegation attacked the express companies for unsatisfactory service and filed objections to the proposed increase in rates. The opinion of the board as expressed in a resolution which carried unanimously, was that an effort should be made to have in the Maritime Provinces a session of the Railway Commission. The early closing of the stations on the C. N. R. in Prince Edward Island was also sharply attacked. After the disposal of the Island problems the attention of the Board was shifted to the Sydneys.

DICKY DIPPY'S DIARY

MONDAY: WENT TO WORK IN A BIG STORE. THEY PUT ME IN THE SHOE DEPARTMENT. THE FLOOR-WALKER SAID: "WHEN A CUSTOMER DOESN'T SEEM TO KNOW WHAT SHE WANTS, HELP HER OUT BY ASKING A DISCREET QUESTION."

"SO WHEN A WOMAN BROUGHT A SMALL BOY IN, SAT HIM DOWN, AND STARED AT ME,

I POINTED TO THE BOY, AND SAID TO HER WITH A SMILE: "FRENCH KID?" AND SHE REPLIED:

"NO HE'S NOT! BESIDES IT'S NONE OF YOUR BUSINESS WHAT HE IS! I WANT TO GET HIM A PAIR OF SHOES!"

NOVA SCOTIA APPLES.

During the month of September, Nova Scotia exported more than 120,000 barrels of apples to the United Kingdom, and it is predicted that before the shipping season concludes the total exportation of apples to English markets will be half a million barrels. How about P. E. Island's many apples?

Dublin Has Big Sensation

(Special to The Guardian.) DUBLIN, Oct. 2.—Sensational charges that the Government itself is responsible for the reprisals in Ireland and that a certain number of the Sinn Fein leaders were marked for assassination were made today by Arthur Griffith, founder of the Sinn Fein organization, who said he was first on the list of intended victims. Griffith, to support his statements, exhibited a group of British, United States and Continental newspaper men, to whom he made a long statement, preferring charges of alleged official documents secured by Sinn Fein agents. Among these papers was an official permit, alleged to have been signed by General Sir Nevil MacCreedy, Military Commander of Ireland. It was made out to a man named Hardy, who has had a life-long career of forgery and imprisonment, and who is alleged to have been released prematurely on a prison ticket of leave, signed by Ian MacPherson, Chief Secretary of Ireland, "permitting him to move about freely in Ireland and unhampered by police surveillance in the role as Griffith asserted, of a Government spy. Although accustomed to almost daily sensations, Dublin is greatly excited at the revelations of Griffith, which published in one of the afternoon newspapers. It is pointed out that if the documents are authentic, Griffith is liable to arrest under the Defense of the Realm Act and under the new restoration order act, having them in his possession and particularly to the military order relating to the movement of troops not yet to be carried out. Similarly, it is said, every newspaper correspondent transmitting such an order or substance of it and editors of British newspapers reproducing, are likewise subject to arrest.

More Troops For South of Ireland

(Special to The Guardian.) BELFAST, Oct. 2.—According to a Glasgow correspondent, The Irish News, the Nationalist organ the Government is considering the advisability of withdrawing all garrisons and troops from the inner areas of Southern Ireland to the seacoast towns, and establishing a boycott in the South, if reprisals and existing method on a more extensive scale prove abortive.

FITTING PISTON RINGS.

The Engine's "Pep" Depends Upon This.

The following suggestions are for motorists who choose to perform this operation themselves. Be sure that the rings secured are of the right size. If the piston grooves are worn irregularly or have shoulders in them they should be trueed up. This can be done in a late or by means of a special hand tool, but this widens the groove and rings oversize as regards width are then required. In fitting the rings for width of the grooves, it is not necessary to spring the ring on the piston as the outside ring surface can be tried in the groove just as well. The fit should be close but free enough so that the ring can turn freely in the groove. In case Always bears the Signature of

WILL SAVE MONEY BY BURNING OIL.

(Portland, Me., Argus.) The change of the Eastern Steamship Lines boats from coal to oil burners will enable the company to dispense with the services of over 200 firemen, will also cut down the time on the Boston-New York trip by one hour, and effect considerable saving in other directions. One result of the strike in the soft coal region will be the general substitution wherever possible, of oil in place of coal for fuel in hundreds of coastwise steamers, a number of the large trans-Atlantic lines being scheduled to shortly make the same change. A great saving in the running expenses of the steamers is claimed as well as a considerable increase in cargo capacity. Several of the large apartment houses in New York are now being heated by fuel oil, and many others will doubtless follow suit if difficulty is experienced in getting coal this winter as now seems probable.
