DEATH has again taken from Springton one of its pioneers in the person of Euphemia McDonald, widow of the late Murdoch McLeod which occurred on the 10th inst. Mrs. McLeod and her husband were among the first settlers of that place and spent their life in the settlement of the house which they bought up in the family. Deceased was 95 years of age and was up to the time of her death in full possession of her faculties. She was an invalid for seven years during which time she was tenderly nursed by her son Donald, his wife and family, to whom daily visits were made though living 30 miles distant.

## WONDERS OF THE HEART.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a second, 4200 times an hour, 100,800 times a day, throwing out 2 1/2 ounces of blood a second, 630 lbs. an hour, 7 1/2 tons a day. It is only when supplied with pure, rich blood that the heart, an organ 6 inches long by 4 wide can accomplish this enormous amount of work and rebuild its own wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new red corpuscles in the blood and gives to it sustaining quality which is necessary to the health of every organ.
