Have you met the Robinson's?

Probably not, for they just moved to the city last week. But the really important question is: Do the Robinsons know you—your store—your place of business?

There is a simple, quick and economical way to make them acquainted: Advertise in the newspapers.

New families are moving to the city every week. Your advertisement in the newspaper enables you to reach them long before they will be listed in the directory or can become known to you in any other way.

When you advertise in the daily newspaper, you cover your entire market—new customers and old. No other form of advertising reaches so many people at such small cost.
