ROOSEVELT SWEEPS TO POWER IN LANDSLIDE

KING EDWARD OPENS HIS FIRST PARLIAMENT

Britain's Peace Efforts Described In Throne Speech

Problems Of Defense And Economics Awaiting Imperial Conference Discussion In May.

LONDON, Nov. 3—(CP Cable)—**Traditional pomp and ceremony were observed today as King Edward VIII opened the first parliament of his reign and read the Speech from the Throne, which described the efforts of the government at the "appeasement of Europe."**

Prime Minister Baldwin subsequently reviewed the political situation. Announcing an Imperial Conference for next May, he said "We have problems of defence and economics, grave alike to us and them (the dominions) to which we must give the best attention."

He urged controversial treatment of the situation in Palestine be avoided.

Referring to a bill designed to halt public disturbances such as those last month in London's East End, Mr. Baldwin said it was a matter of great importance. "We do not tolerate for one minute intimidation of any parties," he declared.

Miss Florence Horsbrugh, Conservative member for Dundee, moved the address in reply to the speech from the Throne. It was the first time a woman had ever carried out this task.

Peers, peeresses and other notables gathered in the House of Lords to hear His Majesty read the speech in clear, distinct tones. Although a heavy downpour of rain forced cancellation of the drive in a state coach from Buckingham Palace, crowds lined the streets for a glimpse of the King as he drove by in a closed car.

The speech said "the Government will continue to do all in their power to further the appeasement of Europe." It hoped that eventually all naval powers would become parties to the London Naval Agreement signed last March.

It expressed regret at the disorders in Palestine and looked forward to ratification this year of the Anglo-Egyptian treaty.

"I hope to revisit the Indian dominions and there to make known to the princes and people of India my succession to the imperial crown," said the speech. It said an Imperial conference would be held next May in London, at the time of the coronation.

The speech bore out predictions of a busy legislative term for parliament. It said the Government would continue to foster industrial activity at home and to promote freer international exchange of goods.

It said the law would be amended to make more effective that section dealing with persons and organizations disturbing the public peace. The law regulating conditions of work in factories also

INSURGENTS LAY SIEGE TO SUBURBS

Fascists Drive towards Getafe Only Eight Miles From Madrid.

MADRID, Nov. 3—(AP)— Madrid's terrified inhabitants watched from their housetops the fight for possession of their city's suburbs today.

The familiar warning sirens sounded about every half-hour as the enemy planes flew over the capital. There was no attempt to continue the aerial bombings which have taken a toll of 216 lives since last Friday. Insurgent aviators today contented themselves with showering down leaflets calling upon the populace to surrender.

On the rooftops of Madrid's buildings, the city's residents clustered silently to watch the battles their fighting forces were waging to halt the enemy advance almost within the city's suburbs.

Flames licked skyward through the evening dusk as Insurgent planes loosed incendiary bombs near Getafe, a suburb which house one of Madrid's two principal airports.

Fascist infantry columns advanced under aerial protection almost to Madrid's environs today. One column was reported only three miles from Getafe, and about 11 miles from Madrid proper.

At Leganes, a scant five miles south of the capital, the Government hastily mobilized tanks and artillery, presumably for a counter-attack.

"Madrid is in danger! Save Spain!" was the universal cry as in the first dawn visit of enemy planes machine gun bullets rattled off houses in Getafe.

Mayor D. L. MacLaren And Civic League Victorious.

SAINT JOHN, N.B., Nov. 3—(CP)—A full ticket, the Civic Improvement League headed by Mayor D. L. MacLaren, was victorious in civic elections here today. By an overwhelming majority an entire ticket was elected for the first time in Saint John's history.

Every member of the present common council except the Mayor who took office last spring by acclamation, was defeated. Commissioner Edward D. Walsh, MacLaren's only opponent for the mayoralty, met a four-to-one defeat in the landslide. He polled only 946 votes against 4,218 for the Mayor.

The six successful candidates who will take office under Mayor MacLaren a month from today in Saint John's first council under the new form of civic government are O. E. Barbour, R. L. Grannan, A. B. Gilbert, H. C. Schofield, E. R. W. Ingraham and J. A. Whitebone. A change from the commission form of government was voted in a plebiscite.

VIOLENCE IN STRIKE FLARES

Question of Furnishing "Safety Crews" Argued.

SAN FRANCISCO, Nov. 3—(AP)—Violence, forecasts of more trouble and additional sympathy walkouts marked the United States Maritime strike today while opposing sides here inched along toward a showdown on the question of furnishing "safety crews" for affected west coast ships.

Five Maritime workers were held at Los Angeles harbor on suspection of assaulting, robbing and kidnapping two oil workers who later went to jail voluntarily for safety. The victims said their assailants wore strikers' "flying squadron sleeve bands.

Police patrolled that harbor as well as the Houston, Tex. waterfront. In the latter city strikers claimed headway in a walkout which local Union leaders voted to outlaw. Strikers claimed six ships were tied up there. Police ordered five strike leaders to leave the city.

Triumph Scored For New Deal In Democratic Win

Reports Streaming In From All Parts Of United States Steadily Add To Democratic Majority.

By SAM ROBERTSON
Canadian Press Staff Writer

A New Deal landslide was strongly indicated as tabulation of votes in Tuesday's United States election reached the stage where a nation-wide picture was taking form.

President Roosevelt surged to the fore on early returns from such key states as New York, Illinois, Ohio and even the old Republican stronghold of Pennsylvania. Tabulation was far from complete, and returns were mainly from industrial centres, but the trend seemed conclusive.

At 12 P.M. AST New Dealers led in states encompassing 418 votes in the Presidential Electoral College. Governor Alf Landon, the Republican nominee, was in front in states with a total electoral vote of 61. Only scattering votes were in from states commanding the other elector ballots going toward the college total of 531.

In the 1932 election, Roosevelt won 472 votes against Herbert Hoover's 59.

Concede Defeat

Viewing the steadily mounting returns, such pro-Landon papers as the New York American and Kansas City Star conceded the Republican bid had been defeated. The Star foresaw a landslide for the President.

Starting off with a powerful nucleus in the solid South, which alone commands 146 electoral votes Roosevelt won a steadily increasing lead in territory generally conceded to the Republicans.

The preacher of "the more abundant life" even humiliated the Republican nominee by taking a slim lead in his own State of Kansas and surprised by repeating that performance in traditionally Republican Massachusetts.

Such Southern Democratic fortresses as Alabama, Georgia, the Carolinas, Virginia and Tennessee set the New Deal ball rolling with returns favoring the President by mountainous majorities.

Favors New Deal

New York and its big bloc of 47 electoral votes swung into his column from the start. With half the states precincts reported, the President had 1,560,763 votes and Landon 911,090.

In Ohio, where 26 electoral ballots were at stake, the New Deal had a lead of almost 2 to 1 while Texas' 23 electoral votes was salted away when a quarter of the state's counties accorded Roosevelt an almost 10 to 1.

The Pennsylvania trend was the big surprise. No Democrat has received its 36 electoral votes in 80 years, yet 2,054 of the state's 8,010 precincts showed Roosevelt leading 607,737 votes to Landon's 447,900.

Returns from the West trickled in slowly but barring Montana and Idaho, the swing appeared to be toward the President. A Democratic surge got underway early in such states as North Dakota, Nebraska and even Minnesota, where Democratic aspirants for the house

Edmonton Cuts Interest On Government-held Bonds

By J. F. SANDERSON
Canadian Press Staff Writer

EDMONTON, Nov. 3 — (CP) — Terming the action retaliation for the Alberta Government's step in cutting bond interest rates, the City of Edmonton today reduced interest payments 50 per cent on Edmonton bonds held by the Alberta Government.

Bankers for the city were instructed today to reduce by 50 per cent all interest payments to the province on city bonds. This followed instructions from the council.

Alberta holds $1,900,000 in Edmonton bonds and it has been estimated the 50 per cent reduction in interest payments will represent $47,500.

On the other hand, Edmonton has $800,000 in Alberta bonds on which interest rates were reduced last June and confirmed by legislation proclaimed last week.

The net position will be that Edmonton saves $47,500 and loses $23,000 so it expects to make money on the deal.

CALGARY, Nov. 3—(CP) — Civic authorities refused comment today on the action of Edmonton in reducing the interest rates on its bonds held by the Alberta Government.

The sinking fund of the city of Calgary holds about $740,000 in Alberta bonds. The province holds $1,200,000 worth of Calgary debentures.
