ANOTHER 50,000 DOLLARS

At the earnest solicitation of a large number of the influential business men of the Province who have faith in the Fox industry and especially in the Dalton Ranch and who express the opinion that a larger amount of the stock of this company should be allotted to P. E. Island Investors, we have decided to withdraw from the amount originally intended for Foreign Allotment the sum of \$50,000 and add it to the \$200,000 which has been fully subscribed for and allotted to P. E. Island investors. The subscription books for this \$50,000 will positively close on Saturday, Jan. 25th, and we reserve the right to withdraw the whole or any part of this allotment at any time, should we find it necessary to do so.

The Greatest Good To The Greatest Number

Although the Silver Black Fox industry has been paying large dividends to breeders for at least ten years, this is the first time in its history that the man with a limited amount of capital has had a chance to share in the enormous profits being realized.

The Provisional Directors of this company having faith in the future of this great industry, and believing that in order for it to benefit the Island as a whole, as many as possible should have an active interest in it, placed the shares at \$100 par value, thus making it possible for many who had been debarred from reaping any direct benefit, to invest their small savings in this industry, which is destined to revolutionize the earning power of money in this Province.

The time has arrived when the people of this Province will have a voice in its most profitable industry.

This company was organized for the people, and will be managed by the people, and instead of the already rich man pocketing the enormous profits which the Fox industry produces they will be divided among hundreds of investors whose holdings range all the way from a \$100 share to fifty shares, amounting to \$5,000.

Now then: What are you doing with your savings? Have you been satisfied with 3 per cent? Are you satisfied now with 3 per cent, when you know that you can make 40 to 60 per cent? Get into the stream of success, but be sure you get into the right boat. Don't let anybody persuade you that another is "just as good." There is only one BEST Fox Ranch in the world and that is Dalton's.

The Call of Reason

THERE ARE MANY THINGS that turn the attention of thoughtful people to the Dalton Ranch in these days when the Silver Black Fox industry is attracting the attention of capitalists and investors all over the civilized world. The principal and most important factor to draw this attention is the quality of the stock which has been developed by Mr Dalton.

In this Ranch are to be found today the progeny of the foxes whose pelts produced the world's price records on the London market in 1910, and recent letters received from the London fur dealers to the Provisional Directors of this company state that furs of the luxurious quality produced by this Ranch will always command the highest prices.

ANOTHER IMPORTANT FEATURE for the investor to consider is the fact that Mr Dalton guarantees an increase of not less than fifty young foxes to be raised to July 1913. For every young one under this number he agrees to pay in cash to the company \$5,000.

Therefore: If the ranch did not produce one young fox the shareholders are sure to receive \$250,000 or 40 per cent on the capital invested.

THERE IS THEREFORE NO SANE REASON why the investors of P. E. Island should allow foreign capitalists to control this important industry.

FORTY PER CENT just think of it. \$100 invested in this company practically guaranteed to pay you more interest than \$1,000 in a savings bank.

If you have not yet applied for shares in this company, listen to the CALL OF REASON and do so at once.
