THE GUARDIAN.

The main points of a Carriage can hardly be treated in an issue or two. Our idea is to impress upon you the necessity of examining several parts which go toward the "Making" or "Unmaking of the work."

The Nova Scotia Carriage Co. Ltd. KENTVILLE N. S. For sale by Wm. Grant & Co., Ch' Town, P. E. I.

A DRAFT HORSE'S DEBUT.

How the Auctioneer Introduced Him to the City Buyers. How Chieftain, a heavy draft horse, made his debut in New York city is told by Sewell Ford in "Horses Nine" as follows: He had been the boast of Keokuk county for a whole year.

All Marked Down. "Oh, yes, he's saved a good many lives." "Then I suppose he has saved a good deal of money too?" "No; he's poor."

A Question. "What do you think of the new boarder?" asked Mrs. Starvorn. "Oh, I don't know," replied Starboard.

STRICKEN WITH PNEUMONIA.

Almost Ready to die—Alonzo W. Douglas, of Woodbridge Was Saved by

Ferrozone

"For the benefit of others," writes Mr. Douglas, "I desire to state the results I derived from the use of Ferrozone. Two years ago I was stricken with Pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of."

"I guess," said the naturally weary young man, "I was meant to be a millionaire, but started on a line where they don't give transfers."

Backache, sideache, swelling of feet and ankles, puffing under eyes, frequent urination, sprains, bruises, cuts, etc. A clean preparation, will not stain clothing.

Some men's respect for themselves seems to be based largely on a lack of unbiased information.

TO MAKE MONEY it is necessary to have a clear, bright brain, a cool head, free from pain; and strong, vigorous nerves.

Smith—I hear Short, the coal man, has come into a large fortune. Jones—Well, he's entitled to it.

Smith—Oh, he is, eh? Jones—Yes; he's been lying in wait for it a good many years.

Smith—I reckon so but—we've all got to die. If you take a Laxa-Liver Pill to-night before retiring, it will work while you sleep without a gripe or pain.

Jim—Would you call a man who steals another man's funny stories or his plots and uses them a literary thief? Jams—No, I would call him a second story man.

No one looks well in his best clothes who shows by his manner that he remembers that he has them on.—Atchison Globe.

PASSED 15 WORMS. I gave Dr. Lee's Worm Syrup to my little girl two and half years old; the result was that she passed 15 round worms in five days.

That's rather a sizable boss you're drivin', said the man from Tennessee. "Yes, he is right smart of a critter," replied the man from Georgia.

A RED HOT SEASON. During the hot summer season the blood gets over heated, the drain on the system is severe and the appetite is often lost.

WHY I ASSURED MY LIFE!

Because it is the only way by which I can make certain of leaving a competence for my family in case I should die in the next few years, a duty I owe my family.

Where I Assured My Life

I assured my life in the Sun Life Assurance Co. of Canada. Because—Its profits to policy holders are very large and equitably divided. Because—It is prosperous and progressive with large and well invested Assets, yielding a high rate of interest.

The Somali.

A military correspondent gives a good description of the Somali, who as a fighting man is not first class, though he is fond of drill and proud of his uniform. But he is by nature decidedly effeminate; his toilet is a constant source of anxiety to himself, and the pains he will take to curl his crisp black hair by the application of various substances to his head is incredible.

Violin Varnish.

The violin dealer was talking about the mystery of the old violin varnishes. "The wonderful tone of the old violins," he said, "depended on the varnish a great deal. The secret has been lost. We don't know today how the old varnishes were made."

Bear Worshipers of Japan.

The queerest and perhaps the oldest people of the earth are the Ainos, the bear idolaters, who are found in the Japanese islands of Koryu, Sakhalin, and chiefly in Yezo or Honnald. They number more than 18,000 souls in all, and they are fast disappearing.

How to See Under Water.

A lens for seeing under water is described as producing an effect which is both astonishing and delightful. It gives distinct vision to objects from twenty to thirty feet below the surface which are usually out of ordinary eye range.
