**CONFINED TO BED**—The many friends of Mr. Hugh McInnis, well known newspaper man, and one time connected with the Examiner, will regret to learn that he is at present confined to his bed. It is sincerely hoped that the esteemed gentleman will make a speedy recovery and a return to good health.

**LOST A WHEEL**—About 12:30 yesterday afternoon a Chevrolet car going by on Great George St., lost a left hand wheel, but the presence of mind of the driver in stopping the car when he did averted what might have been a more serious accident.

**MAIL FOR OVERSEAS**—Mails will be despatched to the United Kingdom during next week as follows:—By Steamer Montroyal sailing from Quebec on Monday, the 10th. This Steamer will carry direct mail for the Continent, including direct parcel post for France and Belgium. By Steamer Montclair sailing from Montreal on Wednesday, the 12th. By Steamer Calgaric sailing from Montreal on Thursday, the 13th. A direct mail for Scotland and Ireland will be forwarded by the Steamer Antonia on Wednesday, the 12th, and a direct mail, including parcel post for France, will be forwarded by the Ausonia also sailing from Montreal on Wednesday, the 12th.

**NEW INSTITUTE ORGANIZED**—A new Institute organized at Peter's Road on September 27th, 1928. The Assistant Supervisor, Miss Saunders conducted the meeting and the following officers were elected:—President, Mrs. Art MacSwain; Vice-Pres., Mrs. J. A. MacSwain; Secy.-Treas., Mrs. Harry Butler; Directors, Mrs. Sam Davidson, Mrs. Geo. Munn, Mrs. Otis Jackson; Auditors, Mrs. Wm. Jenkins, Miss Laura McLeod. The regular day of meeting is the fourth Tuesday of every month. The first regular meeting is to be held at the home of Mrs. Harry Butler when Roll Call is to be answered with "Suggestions for our Institute Name."

BY CLAUDE CALLAN

"Ma hopes our Junior gets Miss Elkins for English. They've been friends for years an' Ma thinks she'll give Junior good grades for old times' sake."

## Do You Seek Diversification In Your Investments?

To diversify is to modify—to modify the risk of financial loss by spreading your investments over a broad list of securities.

Our publication "Canadian Corporation Investments" gives essential information on a wide variety of Public Utility and Industrial Bonds, Debentures and Preferred Stocks. The products or services of the companies whose securities it describes cover an extensive range, such as—

- Hydro-Electric Power
- Steam and Electric Railways
- Salt Manufacturing
- Grain Storage and Shipment
- Bread
- Chocolate and Confectionery
- Gypsum Products
- Farmers' Co-operative
- Textiles
- Lumber
- Newsprint and Fine Papers
- Motion Picture Theatres
- Hotels, Business and Residential Buildings
- Telephone Service
- Sugar Refining

This book will help you to solve the problem of diversifying your investment holdings in order to ensure maximum safety. A copy will be sent you free on request.

### New Annan and Vicinity

Misses Margaret and Evelyn Pillman, teachers of Margate and Indian River Schools, respectively, are spending their holidays with their mother, Mrs. Pillman, Travelers Rest.

Mr. George Semple, Kensington was a recent visitor to New Annan.

Mrs. Henry Moase was a visitor to Summerside Saturday evening.

Mr. and Mrs. Edgar Sobey were recent visitors to Central Bedque.

Mr. Wm. Montgomery, Lower Bedque, is a frequent visitor to Wilnot Valley.

Miss Carrie Burrows, Wilnot Valley, was in Bedque Sunday evening.

Mr. Daniel McMillan was a recent visitor to Summerside. Mr. McMillan makes a specialty of wild goose raising and this year he has some very fine specimens, realising \$3.65 each for the beauties.

Miss Viola Hegarty was among the many visitors to the city Saturday evening, 29th inst.

We are glad to welcome Mrs. Albert Moase and her baby son, who returned recently from the Prince County Hospital.

Many friends in this community are looking forward with interest to the return of Mr. Harold Moase and his bride.

Mr. and Mrs. Edgar Sobey, Wilnot Valley, were visiting friends in the east Sunday.

We are sorry to report the continued illness of Mr. Ralph Hogg, a popular young man of Wilnot Valley. His many friends wish him a speedy recovery.

Mr. Arthur Enman and daughter Miss Arlene were recent visitors to Summerside.

Mr. George Frizzell, Summerside, is a frequent visitor to Wilnot Valley.

Messrs. Ralph Moase and Louis Moase were visitors to Wilnot Valley Wednesday morning on business.

Mr. Hoggood Rayner, Clermont, was a visitor to New Annan Wednesday.

### In Memoriam

MRS. ELLA DUNCAN

The many friends of Mrs. Ella Duncan of Calgary, Alta. and formerly of Summerside P. E. I. will be shocked to learn of her death, which occurred on Wednesday, Sept. 19th, under very tragic circumstances.

It appears that Mrs. Duncan, while crossing the road in front of the Hillhurst United Church, where she was going to attend the weekly prayer meeting, was struck and almost instantly killed by an automobile. She had been driven to the curb opposite the church, by her daughter-in-law Mrs. Wm Duncan, and had started to walk across the street. Seeing the car coming towards her at a high rate of speed she started to run in order to avoid it, and had almost reached the sidewalk when the driver who did not see her before noticed her almost in front of his car. Swinging his wheel in an effort to avoid her he

**CHILD INJURED**—On Saturday afternoon about 2 p. m. a motor car driven by a young man which was approaching Euston Street from Longworth Avenue ran over a little girl named Edna Carmichael, who resides at 271 Euston Street. The child was crossing Longworth Avenue, and had almost reached the curb when she was struck by the car. The driver at once pulled up and did what he could to assist the injured child, who was taken to her home and thence to the hospital, where she was found to be suffering from cuts and bruises about the head and face, and internal injuries. Her condition is considered serious. Although the other fellow to have his lights properly adjusted, but the victim can help himself to ease the problem. Much of the trouble is due to dirty windshields. The car owner who takes the trouble to clean the glass every evening before starting home will find it decidedly effective in abating the glare of the other driver's lights.

**BAD COLLISION**—At about 10 p. m. on Sat. when Mr. Neil Darrach of Eat Royalty accompanied by his wife was returning home on the St. Peter's Road in a light wagon a motor car driven by Mr. Arthur MacKay, the operator of the bus, smashing into his wagon and throwing himself and his wife to the ground, bruising her and injuring her arm. The car, after hitting the wagon, ran into another car coming from the west, wrecking both cars. Mr. MacKay had to be taken to the P. E. Island Hospital, where she was found to be suffering from cuts and bruises, though her injuries are not dangerous. The Guardian, ascertaining the seriousness of Mrs. MacKay's injuries, is pleased to report that she has returned to her home, and although badly shaken up is entirely out of danger.

**MINARD'S LINIMENT FOR EVERY PAIN.**  
cabriolet striking her head, causing a compound fracture of the skull, and lacerations to the brain, which brought death almost immediately.  
The deceased lady was 73 yrs. of age, and was born at Murray River, P. E. I. She had been a resident of Calgary for three years, residing with her son, Dr. Wilfred M. Duncan, 42—13th, St. N. W. She was widely known and highly respected throughout the city, while her love and devotion to her children was as seldom equalled.  
The funeral service was held on Friday from the Hillhurst United Church, of which the deceased was an active member. The beautiful service was conducted by the Rev. W. M. Grant, pastor of the church, assisted by Rev. Dr. Shearer, Rev. Geo. Dickson and Rev. H. D. Marr. The favorite hymns of the deceased were sung and the passage of scripture read was one of her recent requests. Mr. Grant spoke fittingly of how she would be missed in her family circle and her friends in the community and paid a glowing tribute to her sterling character and devoted christian life, while the large number of friends present, and the numerous floral tributes received, testified to the high esteem in which she was held by all who knew her.  
She leaves to feel her loss most keenly, six children, five of whom live in Calgary. Dr. Wilfred M. Duncan, Dr. Harvey D. Duncan, Mrs. Wm. McLeod, Mrs. John Scotland, Mrs. James Morris and Mrs. Philip W. Jean of Edmonton. One son, Sterling, predeceased her several years ago. Besides the above, she leaves two sisters, Mrs. John Whiteaway and Mrs. E. G. Giddings of Murray River, and six brothers, Mr. Calvin McLeod, Murray River, Rev. G. E. McLeod, Toronto; Dr. J. H. McLeod, Santa Rosa, Col.; D. L. McLeod, Portland, Ore.; W. D. McLeod, Bellingham, Wash.; and O. C. McLeod of San Antonio, Texas; to mourn their loss.

### That Car Of Yours

BY WILLIAM ULLMAN

Heart-to-Heart Talks With Automobile Owners and Drivers on How to Get the Most Out of Their Cars at the Least Expense.

#### IT'S NOT ALL GLARE

Days are getting shorter, necessitating greater use of the headlights. That means the glare nuisance on a greater scale. It may not be possible for the motorist who is annoyed by this trouble to force the other fellow to have his lights properly adjusted, but the victim can help himself to ease the problem. Much of the trouble is due to dirty windshields. The car owner who takes the trouble to clean the glass every evening before starting home will find it decidedly effective in abating the glare of the other driver's lights.

#### DRIVING FAULTS MIRRORED

It is not merely the total of the repair bill that counts although it must be admitted that the total is a most important item. The motorist who glances over the various items of the work sheet, however, frequently can get a valuable side-light or two on his driving practices which may be of use in getting the car. The repairs listed are those which should be linked up with the causes.

#### TIMIDITY SLOWS START

Much of the fumbling around that is to be noted in the case of many motorists in starting the car is due to timidity. The decisive step on the starter is the right one.

#### SHIFTS FOR EVERY REACH

Motorists who lament that the gear shift lever on their cars is too short are to be classed with those who are more to be censured than pitied. Accessory makers have seen to it that everyone can have a gear lever that reaches right up to the wheel. They have provided an auxiliary attachment for every type of car that thoroughly modernizes it in this important respect.

#### DELAYED REPAIRS COSTLY

Deferring the necessary repairs usually multiplies the repair bill. This often is true in the case of putting off having the brakes relined. When this job is long past due, it frequently is found that new drums are needed as well as new linings. Or if the drums have not been so seriously worn as to call for replacement, they must at least be ground into "round," again.

#### MAKES STEERING HARD

Though lubrication and proper adjustments of the various units of the steering do not always guarantee easy steering. It happens that poor wheel alignment often make the car sluggish in this form of control. This malady usually is associated with the car owner with excessive tire wear. That is true, of course, but it also is a factor in difficult steering.

#### SAVES THE TIRE BEAD

The practice of one of the popular priced car makers of chromium-plating the rims of his sports models holds a tip for the average motorist. Chromium is rustless, tarnish-proof. A look at the rims not thus protected, if they have seen much service, probably will reveal rust. It should be removed and the spot treated to a light coat of aluminum paint to

### Modern Etiquette

By Roberta Lee

Q. Should a man's home address appear on his visiting card?  
A. It is optional.  
Q. How can one repay the courtesy of several pleasant auto rides?  
A. By inviting the members of the party to stop for tea.  
Q. In whose name is an invitation to dinner issued?  
A. In the names of both the host and the hostess.

#### HE EVER SINGS

He's singing now, outside my window in the sun, Nor is his task an easy one, For many times he came With bits of grass to make that nest.  
A home for his own little ones. And times again a gust of wind Caught his wee bit of straw And whisked it down to earth. Did he complain?  
No, he just dropped again to earth And found the treasure lost. And set to work with added zeal, Singing loud on with sturdy will To do his best.

Birds have no time to quarrel, Complain, or idle time away! They have their homes to build, And songs to sing while it is day. Forget this not, dear child of men, You'll happier be to sing, And not complain.  
—G. A. Lechlitter.

Hub—The idea of you women wearin' furs in summer!  
Wife—What's wrong with it? The original owners wore them all the year round, didn't they?—Smith Weekly.  
Snippy—"Are these eggs fresh?"  
Greasy Boy—"The man just brought them from the country."  
Snippy—"What country?"  
For making round holes in plaster a saw tooth cutter has been invented that includes a receptacle for the dust it creates.

### Lake of the Woods Milling Co. LIMITED

#### and Subsidiary Companies Combined Balance Sheet as at August 31, 1928.

The Balance Sheet of the Company shows satisfactory improvement over that of last year. For the year ended August 31, 1928, operating profits amounted to \$689,588.39 as against \$634,378.00 in the previous year, an increase of \$55,210.39. After providing for the usual dividends, etc. Surplus Account stands at \$793,321.92.

Following Dividends were paid:	
Dividend Preferred Stock for year	\$105,000.00
Dividend Common Stock for year	400,267.20
Interest on payments on new stock	4,996.32
Written off property:	
Lake of the Woods Milling Company Limited	60,000.00
Subsidiary Companies	15,000.00
Provision for Employees Retiring Allowance	25,000.00
In addition to the Surplus Account there is a reserve of \$2,000,000. Important changes have taken place during the year. The par value Common Stock has been divided into three for one and changed into no par value stock. This increased the number of shareholders and of those interested in the success of the Company.	

In addition, after the division, 35,000 more no par value shares were subscribed for by the shareholders, and 8,000 shares were subscribed for by employees who are thereby now financially interested in the Company.

The Inter City Baking Company Limited who organized and is controlled by the Lake of the Woods Milling Company Limited. It has been in successful operation in Montreal, Toronto and Ottawa since February 1, 1928, and the results have fully come up to expectations. Besides furnishing a steady outlet for the products of the mills, it will be a valuable source of revenue to Lake of the Woods Milling Company Limited, many shareholders of which are also shareholders in Inter City Baking Company Limited.

In spite of the usual keen competition in the domestic market, the Company has fully maintained its position. Competition has been reported at the quarterly meeting and in the face of heavy price cutting it has been difficult to realize a paying price.

The Company's plant has been maintained in an efficient state and additions have been made as required to keep it up to date.

### CANCER RESPONDS TO NEW RADIUM TREATMENT

LONDON, Eng., Oct. 6.—A new technique for the application of radium for the treatment of cancer was reported at the Quarterly court of the governors of the London Hospital recently. The committee wished to emphasize that in reporting that to the governors they were not announcing a cure for the dread disease. The radium for this particular method of treatment is mounted in the form of needles. The needles in appearance are similar to gramophone needles. They are of platinum and hollow and contain from two to six milligrams of radium each. The new technique which has been in use on the continent, at Brussels in particular, for some time past, consists in inserting a number of needles containing radium all round the cancerous growth. The needles remain there for varying times, generally five days, and in favorable cases the growth is not only destroyed, but is prevented from spreading to the surrounding tissues. A large number of needles are required, in fact as many as 20 are used in treating a case of cancer of the breast. The committee said it could be stated that in some cases radium can be used where the knife can do nothing, and often a less severe operation can be performed than would otherwise be necessary.
