MOVING PAVEMENT FROM PARIS TRAFFIC

PARIS, March 8.—A project for constructing an underground rolling roadway for the whole length of the boulevards from the Madeleine to the Place de la Republique is being seriously discussed by the Paris municipal council.

Since that date the automobile has completely altered the problem of street traffic, and boulevards which were built for a city with 1,000,000 population and horse carts for vehicular traffic, have become a death-trap in a city with nearly 3,000,000 people and an immense motor traffic.

The question was raised yesterday on the motion of Emile Desvaux, one of the most progressive councillors, and was sent after debate, to the traffic and engineering authorities of the city for consideration.

At present the boulevards are served only by motor buses, which have added enormously to the congestion, and one of M. Desvaux's arguments was that, even if the highest speed on the rolling way was only ten kilometres an hour, it would be faster than the present traffic, with its constant halts.

Madam! Surely Diamond Dye It
"DIAMOND DYES" NEVER STREAK, SPOT, FADE OR GIVE THAT "DYE-LOOK"
Charlotte town women can dye anything with a package of Diamond Dyes. An old, worn coat, skirt, waist, sweater, kimono, dress, or faded stockings, gloves, draperies, portieres, chair covers, anything, whether wool, silk, linen, cotton or mixed goods, can be diamond-dyed to look like new.

Chatham has been trying for some time to get Sussex the champions of the Eastern Amateur League to play a series of home and home games with Chatham, the Champions of the N. B. Hockey League, but so far without success.

"Well," queried the visitor, "it's a bit late to talk business, but will you accompany me?" "Company you!" retorted the visitor. "No, this I called to tell you I'd see you hanged first."

It is unwise to judge a man's intellect by the size of his mouth.

Conditions Improved—Port conditions at Havana, Cuba, which for months past have caused considerable loss to Canadian importers and exporters, as well as shipowners and insurance companies, are now much improved.

Why Sussex turns down the first proposal is hard to see. There would be two big gates and we hardly suppose Sussex is on easy street financially and scorns any filthy lucre to meet expenses.

"Look here," exclaimed he, "I read your 'Vegetation' this morning, and I was bound to come to you."

Too many dollars in a man's pocket have been known to crowd the sense from under his hat.

When a man guesses that he can knock another man down he usually makes a rough estimate.
