Eye Comfort
 for eye workers is a matter of vital importance.
 From early morn to late at night we "crowd" our eyes relentlessly, from one job to another.
 How long will they stand it? Are you now enjoying that efficiency and comfort which ought to be yours?
 Consult us if you are not; You have much to gain, and nothing to lose.
 In any case the knowledge gained from an examination, makes it well worth while.

RANKINE WINS ROAD RACE AT TORONTO

Johnny Miles, Former Maritimer Places Sixth.

TORONTO, April 14.—Retaining foremost position by subduing every challenge offered Robert Rankine, the little pacer from Preston, Ont., today won the annual Bloor Street road race over a field of more than half a hundred.

His time for the 15-mile course over the pavement in uptown Toronto was one hour, 11 minutes, 4 2/5 seconds. Billy Reynolds, Galt, Ont., three-time winner of the race, crossed the line second followed by Hans Oldag, of Buffalo Athletic Club.

Time after time Reynolds and Oldag, a member of the United States Olympic team, tried to force their way to the front but Rankine was more than equal to every spur. His time was not comparable to last year's mark because the course was routed differently and was short of the 15 miles.

Veteran of numerous marathons, Harold Webster of Hamilton, finished fourth, several hundred yards behind the pace-setter, followed by S. B. Stewart, Toronto; Johnny Miles, Hamilton, former Maritime marathoner; Bert Pearson, Toronto; Jim Cummings, Toronto; Johnny Cuthbert, Guelph and Fred Roberts, Toronto, in that order.

The five-mile event was won by Wilf McClusky, Toronto, who covered the course in 22 minutes, 24 4/5 seconds.

Former Suspects Are Released From Jail

AMHERST, N. S., April 14.—(C.P.)—After serving more than two months of a four months sentence for vagrancy, Cyril Spracklin of Halifax was released for jail here today. A companion, Harry Capner of Bristol, England, with whom he had been questioned following the murder of Mrs. Elmer Smith in February, was freed earlier in the week. A few days after the vagrancy sentences were imposed Alvan Henwood and Trueman Smith, now waiting trial of charges of murder in connection with the Smith case, were arrested and efforts were started to have the Capner-Spracklin sentences reduced.

DISTINGUISHED PRELATE IS WELCOMED

NEW YORK, April 14.—(C.P.)—Canada's newly created Cardinal, His Eminence Jean Marie Rodrigue Villeneuve, Archbishop of Quebec, was homeward bound tonight eager to set foot on Canadian soil for the first time since his elevation to the Cardinalate at Vatican City March 15.

The distinguished prelate, accompanied by Monsignor P. G. Marchand, O. M. I., rector of the University of Ottawa, Monsignor Gagneau, Vicar-General of the Diocese and Dean of the Chapter, Rev. Canon Laberge, Chancellor of the Archdiocese of Quebec and a number of others, entrained at 9.45 tonight for Montreal.

On arrival at the Canadian Metropolitan Cardinal Villeneuve and his entourage will board a special train for the final stage of the journey to Quebec City.

Reflecting splendid health in his ruddy cheeks and expressing eagerness to resume his diocesan duties, Cardinal Villeneuve disembarked from the liner Bremen this morning along with brother Liguori, of the brothers of the Christian schools. Brother Liguori was formerly Odulpe Villeneuve, the Cardinal's brother.

The Cardinal and his party was greeted by a large delegation of high dignitaries of the church from United States and Canadian cities. His Eminence expressed great pleasure when informed Prime Minister R. B. Bennett would represent the Canadian Government at the reception to honor and welcome him home Saturday.

"I am delighted indeed and highly honored that our Prime Minister will be present," he said. "I am also grateful for the demonstrations of esteem and affection I have received from all classes and creeds from all over the Dominion since I departed last February. I wish to express by devotion to all."

IN MEMORIAM

LOYD McDONALD

Word has been received by Mr. Wilnot McDonald, Crapaud, of the death after a few days illness in Seattle, Wash., of his brother Lloyd. The deceased, who was a son of the late Peter and Isabella McDonald of Crapaud was forty two years of age, and had resided in the United States for the greater part of his life, having left his home in Crapaud where he was admired by everybody, twenty three years ago, and has since resided in Seattle, where he followed the manufacture of auto trimmings. He leaves to mourn a widow and one daughter and his brothers Joseph and Walter all of Seattle, Wash., Wilnot at home, and one sister, Phebe, of Marlboro, Mass. The sympathy of the community goes out to the family in this their second bereavement within a year, another sister, Maymie, (Mrs. P. H. Cross) having passed away in May. She had resided in Crapaud until a few years ago where she conducted a millinery business and was favorably known by all. Interment took place in Seattle, Wash., and Marlboro, Mass.

Jean, predicted that 30 days after it is enacted "we will witness a declaration of war against the United States by Japan."

"To this, Bloom, Democratic from New York, replied "Tommyrot," adding that the State Department did not have in mind Japan or any other nation.

In the latter part of 1932 world unemployment was calculated to be in round numbers 30 million, with an annual expense to the world of 21 billion dollars in wages alone.

Property Damage by Autos in Pennsylvania

The estimated property damage caused by motor vehicles in Pennsylvania in 1932 was \$4,848,000, as compared with \$5,750,000 the preceding year. Fatalities in the State during the past year numbered 1928 as compared with 2038 in 1931.

Fighting Locust Plagues By Air

In a fresh war which science is waging against locusts, the insect pests which cause such widespread destruction, the speed of air transport is now playing a valuable part.

Experts at the War Office Chemical Department on Salisbury Plain are studying methods by which locust swarms may be exterminated while on the wing, and it was in connection with these experiments, just lately, that it was desired to obtain as quickly as possible a considerable number of live locusts.

To meet this demand the Government of Kenya shipped several crates of insects to London by Imperial Airways.

Only seven days after having been put on board an air-liner at Nairobi, the locusts were unloaded at the London air-port, and were sent immediately to the research laboratories on Salisbury Plain. Here it was found that, though a certain number had died on the journey, there were sufficient left alive to provide material for a number of important tests, during some of which the insects were placed in wind-tunnels and subjected to a spraying treatment with cresote, and also with sodium arsenite dust.

The idea of the present experiment is to discover improved methods for dealing with the locust plague in Africa, and more particularly to evolve methods whereby aeroplanes can attack locusts when they are on the wing and destroy them by releasing clouds of chemicals which are found to be most deadly in their effect.

African administrations are collaborating actively in this new campaign, which is a matter of considerable importance to them, seeing that during the past few years it is reckoned the damage caused by locusts has amounted to over £8,000,000.

Fish do not suffer pain when caught on a hook, since there are few nerves around their mouths.

PRIZE WINNERS—The drawing for the lucky ticket on the Harrington W. I. spread (No. 2) took place in Winslow Hall on April 3rd. Mr. Elijah Saunders drew the ticket No. 28, which was held by Miss Clark, Falconwood Hospital. The first spread was drawn for at their annual meeting. The lucky ticket (No. 100) was held by Master Sterling McPherson.

RECOVERY OF REPARATION MONEY SOUGHT

Dominion Government Has Entered A Suit For Recovery Of Money Paid For Alleged Loss Of Vessel.

(Canadian Press)
 TORONTO, April 15.—Echo of the recent inquiry into the sinking of the schooner Gypsum Queen off the coast of Ireland late in the fall of 1918, suit has been entered by the Dominion Government for recovery of \$71,000 from Senator Hance Logan, of Amherst, N. S., the amount paid as a reparations settlement for the loss of the vessel.

Confirmation of the action was given tonight by Peter White, K. C., who has been retained to act for the Government. He declared a writ had been issued and information filed with the Exchequer Court of Canada, but hearing of the case awaits the return from Europe of W. N. Tilley, K. C., who is acting for the defendant.

Mr. White served as counsel for the Royal Commission headed by Chief Justice Harvey, of Alberta, which investigated the sinking of the Gypsum Queen.

Claim for reparations to the amount of \$40,000, with interest for 11 years, was awarded the owner of the schooner, Captain J. Hatfield back in 1928 and the money paid over to Senator Logan, who acted as his counsel.

The investigation was instituted after the Government had received information discounting claims that the Gypsum Queen had been torpedoed by a German submarine. Evidence given before the Commission showed the schooner had been battered during a violent storm and had foundered through an ordinary marine hazard. Chief Justice Harvey's report was to the effect that the claim had been fraudulent.

Senator Logan testified that the money had been turned over to Captain Hatfield who disappeared shortly after receiving the settlement and has not been located since.

First Settler Arrives

(Special to The Guardian)
 MONCTON, N. B. April 15.—The first settler to arrive in Canada for the season of 1933, passed through Halifax recently and has been placed on a farm near Oxford, Nova Scotia, A. W. MacKenzie, Superintendent of Colonization and Agriculture and Agriculture for the Maritimes, Canadian National Railways, was on hand at Halifax to meet the family on their arrival.

Mr. MacKenzie stated that another family for settlement in the Maritimes is expected to arrive at Halifax on Saturday. The family which have been settled on a farm near Oxford came from South Africa, the father being a former Canadian who has made his home in South Africa for the past eleven years.

Acting President Announces Appointment

(Special to The Guardian)
 MONTREAL, Que., April 15.—Announcement of the appointment of John Roberts as chief of motive power and car equipment, Canadian National Railways, with office at Montreal, was made in a circular issued today by S. J. Hungerford, Acting President of the National system. The circular reads: "It is with deepest regret that I announce the death of Mr. O. E. Brooks, chief of motive power and car equipment, now comprised in the Canadian National system with great ability and zeal and his passing at such an early age is a serious loss to our service." "Effective April 17th, Mr. John Roberts is appointed chief of motive power and car equipment with office at Montreal, succeeding the late Mr. Brooks."

John Roberts has been General Superintendent of motive power and car equipment for the Central Region, at Toronto since August 1st, 1932 prior to which date he was General Supervisor of shops methods for the system with office at Montreal. Born at Kilmarnock, Scotland, in 1881, Mr. Roberts entered the service of the company as machinist in the motive power shops at Stratford in 1903. He became charge hand there in 1907 and was made foreman of the machine shop in 1917 and was made general foreman in 1920. In 1921 Mr. Roberts became acting superintendent and later in the same year was confirmed in his appointment as Superintendent of the Stratford shops, where he continued until his appointment as General Supervisor of

Canadian Minister In Attendance

WASHINGTON, April 15.—Word that Prime Minister R. B. Bennett would be present at President Roosevelt's economic talks from April 25 to 28 inclusive was received here today from the Canadian capital. The Prime Minister Ramsay MacDonald and former Premier Ed. L. B. Hamilton will be in Washington at the same time as Mr. Bennett.

Mr. MacDonald sails from England tomorrow and will be here April 21 to 26 inclusive. Mr. Hamilton will reach here April 23.

United States tariff experts worked away today on the difficult task of preparing for President Roosevelt the Bill on which he will rely for power to make reciprocal tariff agreements with various nations. He desires it particularly in order to be able to work with a comparatively free hand at the World Economic Conference in London about June 15, which is dedicated in part to a reduction of barriers in trade.

France tonight commended President Roosevelt for assuming the leadership of a world wide movement for recovery of prosperity.

"The French Government feels very gratified at the excellent initiative taken by President Roosevelt," said a French memorandum delivered today through that nation's embassy here. "It considers these preliminary conversations between representatives of the principal interested Governments a practical method to insure an efficient preparation of the World Conference and a step towards its success."

EBENEZER SCHOOL

Honor roll for the month of March.
 Grade X-1 Foch Dolron, 2 Curtis Ford, 3 Fred MacLeod.

Volley Ball

The Catholic Young men's League Volley Ball tournament at Summerside is now well under way. The first section finished on Friday. The teams were well matched and the play very even through the whole section. Two teams tied for first place. Willard Arsenault's team 20 pts. Earl Campbell's team 20 pts. Lawrence Gallant's team 18 pts. Alban Arsenault's team 14 points. The play off games will be best two out of three and are scheduled to take place on Tuesday, play to begin at 8 o'clock.

There are two cups to be played for annually one donated by the late Rev. J. J. McDonald and the other by Rev. Urban Gillis of Wellington.

Much interest is being shown in the games and competition is keen as the finals draw near.

shops for the system in 1925 at which time he moved to Montreal.

FORCED TO TAKE TO SHIP OF THE DESERT

Young Australian Girl On Flight To Australia Forced Down. Cousin Of Lost Bert Hinkler Starts On Flight.

KARACHI, India, April 15.—(Canadian Press Cable)—A came and a motor-truck today were unscheduled facilities adopted by Jean Batten, youthful Australian girl, on her flight from England to Australia.

After her light aeroplane was forced down near here last night Miss Batten started for Karachi on the only transportation available—the ship of the desert. She jogged on the untidy animal for 27 miles before she was hailed by the driver of a motor truck who brought her the rest of the distance to this city.

Undaunted the Australian girl who abandoned her music studies in London for the pursuit of flying, announced she would return to the scene of her mishap with a new propeller and will continue her flight.

She explained that while on her flight from Jask, her last stopping place, she ran into a sandstorm in the moonlight and had to fly blind for some time. She finally landed in a field near the village of Bahuch, and as the machine grounded the nose tipped in the mud, burying the engine and splitting the propeller. She obtained the camel and rode it for six hours at an average rate of 4 1-2 miles an hour before she came across the motor truck.

PORT DARWIN, Australia, April 15.—(Canadian Press Cable)—Mrs. Harry Bonney, a cousin of the long lost Australian distance flyer Bert Hinkler, started this morning on a flight to England.

Mrs. Bonney, a light aeroplane enthusiast, did not say whether she had any designs on the records for the journey as she took off at 6.50 a. m. from this northern tip of the continent.

Hinkler, one of the world's foremost long-distance fliers was lost some months after starting from England in an attempt to break the record for the flight to Australia. He was sought unsuccessfully in the Alps for some time.

No horses were reported stolen in 1932 to the Union Society for the Detection of Horse Thieves which observed its 121st anniversary in Philadelphia, Pa., recently.

DON'T LET COMMON CONSTIPATION DULL THE JOY OF LIVING

Kellogg's ALL-BRAN Brings Relief

Constipation takes the sunshine out of your days. It may bring headaches, loss of appetite and energy, sleeplessness, sallow skins, pimples. If neglected, it can seriously impair health.

Fortunately, you can avoid this condition by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much better than dosing yourself with patent medicines. Two table-spoonsful of ALL-BRAN daily are usually sufficient. With each meal in chronic cases. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Acting President Announces Appointment

(Special to The Guardian)
 MONTREAL, Que., April 15.—Announcement of the appointment of John Roberts as chief of motive power and car equipment, Canadian National Railways, with office at Montreal, was made in a circular issued today by S.
