BIG ESTATE IN NOVA SCOTIA

HALIFAX, Jan. 25--James Cosman, a merchant of Meteghan River, Digby, died some time ago and left an estate, it is said, of about \$400,000.

The will provided that the Arch-bishop of Halifax should appoint three trustees of the estate.

Cosman was a widower, but had no children. Assuming that the Cosman estate, after the payment of the small legacies provided for, amounts to \$400,000, and that the trustees allow the whole income to accumulate and that the funds be invested at 3 per cent. compound interest, the estate will, at the end of the century, amount to \$8,500,000.

INQUEST ON WM. RAMSAY

SUMMERSIDE, Jan. 28--The inquest into the death of Wm Ramsay, Hamilton, who was killed at Kensington Railway crossing, reopened at that place yesterday at ten a. m. before Dr. Jardine, coroner, of this town.

The following witnesses were examined: Ronald B. McDonald, Mrs. Lina Basley, Wm. C. Orr, Bert McDonald, Ian Darrach, Andrew Kennedy, John Yeo, John McIsaac and Bannerman C. Cox.

John Yeo, driver of the train, testified as follows: I live in Charlottetown and have been engine driver for 30 years on the P. E. I. R. Was driver on No 1 train on Thursday leaving Charlottetown at 2 p. m.

Through village to the station my rate was between 5 and 6 miles per hour. Frosty day would not accelerate speed. There is a heavy down grade with a curve. Everything was as usual, that is blowing whistles, ringing bells and rate of speed were observed on the 25th.

When approaching Kensington Main St crossing I saw a horse and sleigh passing in front of the engine going very fast. It was past the engine before I saw it. I saw the sleigh struck, afterwards examined flanger on engine and found sleigh had been struck. I saw no man in the sleigh.

The horse carried sleigh short distance and broke loose. It was not till after train had stopped at the station that I knew a man was injured. My seat is on the right hand side of the engine and I could not see horse and sleigh coming up street. The building to the south of track approaching this crossing makes it almost impossible for train hands to see teams coming to crossing of teamsters to see approaching trains from Charlottetown.

Regulation rate of speed approaching village is not to exceed ten miles. We don't have to whistle for street crossing. No regulation regarding watching of a street crossing by driver or firemen. The brakes on that day were in good order. I was in the habit of applying brakes to stop train at station when I saw horse and sleigh. The train that day was four cars, mail, baggage and 1st and 2nd class coaches. Examined engine for marks of blood or clothing and found none. Would judge horse was running away. McIsaac, the fireman, corroborated the above.

Ian Darrach said he was driving on same road at that time and saw deceased driving along at a regular gait. He did not observe whether he was sitting or standing in the sleigh.

SHOT IN FIGHT WITH BURGLARS

SEBAGO, Me., Jan. 25--Alexander Roseborough, a teamster, was shot in the right lung, in a battle between burglars and a posse of citizens in the woods near Sebago Lake yesterday afternoon.

The shooting occurred when five men who were suspected of having been concerned in the safe blowing at the West Buxton post office Tuesday morning, were chased from the cottage of R. L. Soule, on the shore of the lake, by Postmaster Lemuel Rich, Alexander Douglas, a clerk in the story, Walter Libby, a rural free delivery carrier, and Harry Payne.

The gang had taken to the woods, and the citizens were following through the deep snow when Roseborough came along on his sled and, seizing a lumberman's cant-dog, started to head the fleeing man off.

When he came upon them Dixon is alleged to have pulled a revolver and fired twice, and the steamers fell. The other citizens came up and took the five men into custody.

When searched a quantity of postage stamps and a postoffice money bag were found upon them. They do not deny making the break at West Buxton. Two of them were armed.

SAY DYNAMITE WAS 'FRAMRUPE'

LAWRENCE, Jan. 25--A squad of State police officers, under command of Captain Procter of the State police, and divided into three squads, are today making a final thorough investigation of the circumstances surrounding the finding of the dynamite in two Lawrence houses, as a result of which six men and two women are under arrest and will be arraigned tomorrow.

Police officials believe that no strikers, strike-breakers, mill owners or newspaper men had any connection with the planting of the dynamite.

The police are working on a new theory. It is now believed that overzealous Lawrence officials, seeking promotion "planted" the explosive which was afterward found.
