A Scrap Book Containing All the Published Cures by Dodd's Kidney Pills in the Maritime Provinces—What These People Have to say.

FREDERICTON, June 19.—A gentleman in this city completed an interesting and novel scrap-book. It is a large-sized volume of a thousand pages. It is now crammed from cover to cover with newspaper clippings. On each clipping is the report of a different cure by Dodd's Kidney Pills, published during the last nine years in the Fredericton papers.

The owner of the volume, on its completion, conceived the idea of writing to some of the people mentioned in the clippings as cured by Dodd's Kidney Pills and enquiring whether the cure has been permanent or not. He chose a hundred names scattered right through the book. Some were people who had been cured by Dodd's Kidney Pills as far back as nine years ago. From that period they extended right up to within a few weeks ago,

Antigonish, N. S., May 22, 1899.

Dear Sir:—When I came to Nova Scotia two years ago I was so troubled with backache that I began to think I could not attend to business. I am a cheese maker and before I left home I told my folks I did not think I could attend my work unless I got help. So when I came to Antigonish I purchased a box of Dodd's Kidney Pills which relieved me at once. and I did my work for the season without trouble. I can recommend Dodd's Kidney Pills to you or to anyone else tronbled with backache or lamenes in any way.

Yours truly,
H. M. SPEARS.

It is enough for some people to hear a story; they don't care whether it is true or not.

DEAR SIRS.—Within the past year I know of three fatty tumors on the head having been removed by the application of MINARDS' LINIMENT without any surgical operation and there is no indication of a return.

How Old People May Be Healthy and Happy.

Paine's Celery Compound Will Surely Banish Their Ailments and Troubles.

It Preserves Health and Prolongs Life.

The most successful and popular physicians of our times are those who can banish the ailments and distresses of men and women in old age.

Three-fourths of all the aches and pains that make old age miserable arise from retarded circulation. The slow blood is choked with accumulations of waste matters that produce rheumatism, neuralgia, sciatica and lumbago. Sluggish circulation speedily produces digestive disturbances, and unlooked-for complications arise that the majority of cases prove fatal to old people.

Paine's Celery Compound is a precious boon to those advanced in years. Soon after its use is commenced there is noticed an increase in the blood supply, which is pure, ruddy and active in its coursing through the body. The brain becomes clear, digestion is easy and natural, the heart does its work with regularity, nerve force is acquired and flesh is built up.

If old people desire health and strength to meet the enervating and trying weather of midsummer, they should build up at once by the use of Paine's Celery Compound. Mr. John Holdsworth, Claremont Street, Toronto, says:

"I was taken sick last summer, and was in bed for five weeks or more, and my physician was attending me all the time. My case was pronounced to be weakness of the heart and old age, for I am now seventy-eight years old.

"I kept getting worse until my recovery was considered hopeless. One of my relatives recommended me to use Paine's Celery Compound, which I did with good results. After the first dose I felt relieved, and after a few days I was able to leave my bed and walk around. I used four bottles, and found your medicine to be a most excellent remedy, as I am now quite well. I hope other sufferers will receive as much benefit as I received."

Most people long so ardently to live in a palace that they neglect to make comfortable the house in which they are compelled to live and die.—

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College, Boston Mass

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owning to the non conductibility of rubber, and as alumium is now so cheaply produced and making as it does a rigid, light, cleanly, unobjectional plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. HASKELL, D. D. S.
Chicago Ill. Dental School

The above quotations are from hundreds by eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc, finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a Metal Plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irriating, and is thinner, lighter, and stonger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day fully guaranteed because we make them ourselves, and know all about the material used. Call and see speciments of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.
