USE NAZI PARTS

Spare parts for Turkey's German-made planes are being supplied by Britain from aircraft shot down by the Royal Air Force, thereby keeping the Turkish force going on, according to reports from Ankara. Otherwise the Turks would be hard-pressed, for even under the recent trade agreement Germany declined to supply plane parts.

medicine is often prescribed for children, and accurate dosing of medicine is then possible. Yolks of eggs are much less likely to break if cold. Remember this in separating eggs, attending to it as soon as you take them from the refrigerator. Celery leaves may be dried and stored in a covered jar. A few of those dried leaves added to soups and stews give an excellent flavor. Sprigging of fruits, pickles, relishes, etc., is made easier by putting the spices in a tea ball. It can be removed from the hot syrup at any time without trouble. Lower biscuits can be split, buttered and toasted in a slow oven, then served with a brown meat stew over them. If you have a wooden bowl handy, use it when washing silver, as silver has a tendency to get scratched on the bottom of a metal or enamel container.

over-generous, particularly where money's concerned, but you'll agree that it's better than being too mean! You'll live in a whirl if you marry in pearl, but you'll be able to share that excitement with a husband who's fond and true. "Marry in yellow, you'll be ashamed of your fellow"—he won't be a worker and he'll be inclined to leave things to you. But he'll make a kind and indulgent father.

DRIVING YOUR DRESSING TABLE

It is fun to fix up a pretty dressing table and give it individual touches. And it needn't cost much. One girl shirred pockets onto the inside of her dressing table skirt. Great big handsome pockets, they held cleaning tissue, absorbent cotton and lots of other make-up essentials for which the lower levels' space in her small room and small dressing mirror top and pasting them over the frames of small photographs of herself and her husband was the idea of another girl. The Scotch influence was used by edging a frothy dotted Swiss dressing table skirt with narrow tarten ribbon, ending with a huge bow of matching ribbon at either end of the skirts.

MIRROR TOPS

Dance programs and valentines, simply framed, make a sentimental but delightful decoration above a simple dressing table. For that, luxury look, have a mirror glass top on your dressing table and crystal lamps. It is an economical luxury since the glass top saves wood and fabric from the hazards of spilled lotion and perfumes. With a mirror glass top, it is a sure thing that your bottles, jars, brushes and such are going to look like a million. If you don't want a mirror top then invest in a mirror glass tray or plaque to hold bottles. If you like, paste ribbon to frame a plain mirror plaque, choosing ribbon to match or contrast with the dressing table color scheme. It makes a nice touch.

KEEP A SEPARATE PAN FOR BAKING

Keep a separate pan for baking sports cake and do not grease it for the best results. Use adhesive tape to mend a rip in a raincoat, sticking it on the underneath side where it will not show. How would you like the luxury of perfumed ink? Just add a drop of lavender in the ink-well. Make your own mouth wash by dissolving bicarbonate of soda in water and adding a drop of peppermint extract. To remove chewing gum, hold a hot iron to the underside of the garment. When it has melted, wipe it off with a cloth wet with alcohol. For removing mildew stains from silk, dip bliskly first on one side and then on the other. Hooks and eyes sewed on with a buttonhole stitch are in no danger of coming loose in a hurry. It is impossible to give a lustrer to furniture unless the polishing cloth is soft and absolutely clean.
