

One year ago today we announced the opening of our new Charlottetown Hardware Department.

The response which we received from our many customers has been beyond our fondest hopes.

Since then we have added many new lines, and we now feel that we have the best stocked Hardware Store in this Province.

To render prompt and efficient service, this Department is staffed with a personnel of 28 employees, 4 delivery trucks, and also equipped with 4 telephones to speed up service on your phone orders.

In addition we employ three full time service men servicing Refrigerators, all Electrical Appliances, Oil Burners, Ranges, Furnaces, etc.

It will pay you in many ways to shop at Holman's Charlottetown Hardware Department. Our prices are lower because we buy in conjunction with our Summerside Hardware Department.
