DR. HAMILTON'S PILLS CURE HEADACHE.

ARRANGEMENTS have been made for a football match between the Victorias of the City and the Westville football team, May 24th. An excursion will be run from Charlottetown on the old reliable Princess, which will leave at seven o'clock and Pictou on return at five. The first game of the baseball season was played at Victoria Park yesterday afternoon between nines from St. Dunstan's College and from the City. Both teams were rather rusty on some of the finer intricacies of the game, but despite lack of team practice and individual training, the game was well and scientifically, and good-humoredly played throughout. The scale of victory fell to the town team by a small margin. The game was interesting and rather exciting toward its conclusion. It was good, pleasant, invigorating sport and why should it not be repeated?

Last night the last meeting of teachers' Institute took place. There was a good representation of the city teachers at this meeting, particularly of the lady teachers. A very interesting and suggestive paper was read by Miss McMurray entitled: "One hundred and one interrogations," containing questions on different points of school work, discipline, subjects of study, amount of study, home lessons and other matter which require the attention of a teacher. The paper elicited a lively and lengthy discussion in which the majority of those present took a greater or less part. After tendering Miss McMurray the thanks of the Teachers, the Institute adjourned to meet at the call of the Executive.
