"One More Spring," Proves A Timely And Arresting Modern Picture At Prince Edward

A deftly contrived blend of irony, pathos, adventure and romance makes "One More Spring" the present occupant of the Prince Edward Theatre, one of the most delightful pictures of the year.

This screen play, in which glamorous Janet Gaynor and dashing Warner Baxter co-star, is based on the Robert Nathan best-seller of the same name which created a sensation in book form.

The story concerns a quartet, three men and a girl who take refuge in an old park toolhouse and winter there, hoping that by Spring their luck will turn. All are destitute, but find that life can be strange and entertaining, if only they decide to look bravely in the face of adversity.

The theme of this picture is timely, epitomizing as it does the transition from bleak depression to prosperity.

The metropolitan city park, locale of the action, forms a veritable cosmos whither all types of humanity congregate. Poor and rich, the circus and the cautious children and grown-ups, vagabonds and spillover from civilization—all make the park their meeting ground.

But when snow blankets the park it is another story. The principals of "One More Spring" find themselves in a sort of wasteland, as remote from civilization as though they lived in the farthest reaches of Antarctica.

Without a doubt, Janet Gaynor and Warner Baxter have in "One More Spring" the supreme roles of their varied screen career, and give performances that will live long in one's memory.

Jimmie "Schnozzle" Durante In "Strictly Dynamite" At Capitol

A veritable avalanche of merit guaranteed to make a wooden Indian dance, a love story of more than ordinary human interest and snappy musical numbers destined for his popularity are the ingredients which stamp "Strictly Dynamite" a must-see.

Jimmie "Schnozzle" Durante and Lupe Velez co-star in this RKO-Radio Picture at the Capitol Theatre.

Durante and Velez are superb fun-makers. The Schnozzle is indubitably the ace comedian on the entertainment front today. Lupe is ingratiatingly tempestuous and as who's who in Hollywood, including Norman Foster, William Gargan, Marian Nixon, the Four Mills Brothers, Eugene Pallette, Minna Gombell and Sterling Holloway, supports the pair in splendid characterization.

The hilarity of "Strictly Dynamite" revolves about Moxie Slight, as funny and famous a character as ever faced a microphone, who seeks a new gag writer. An agent sells him a down-and-out poet who turns gag writer with the aid of old joke books after glimpsing the scribble's beautiful team mate Vera. Moxie signs him at a big salary because he can use big words and talk about payments, for which Moxie has a crown's respect.

Vera goes silent on the young and good-looking gagster, estranging his wife and clients. It all works up a roaring, happy climax when Moxie steps before the microphone to prove his artistic genius and recites one of the poet's serious masterpieces. It will be a long time before the screen rounds a funnier scene than this side-splitting climax which shows the poetry going over as burlesque.

"Strictly Dynamite" has pulchritude, melody, gags and romance. Durante renders his own "I'm Putty in Your Hands" and "Hot Patata," which will be whistled across the continent.

This picture is a gloom-disperser and blues-chaser lives up to its title perfectly—"Strictly Dynamite!"

Kiwanians Meet In San Antonio

(By The Canadian Press)
SAN ANTONIO, Texas, May 19.—Representatives of Kiwanis clubs from 1844 communities in Canada and the United States were gathered here today for the 19th annual convention of Kiwanis International, which opens tomorrow and continues until Thursday.

Addresses and discussions on present day democracy and modern economic and social problems will form highlights of the convention which is to be opened with an inter-denominational religious service tomorrow night. Governor James V. Allred of Texas and Joseph O. Taylor, governor of the Texas-Oklahoma Kiwanis district will welcome the thousands of delegates.

The Canadian delegation will be in charge of three district governors: Fred G. McAuler, London, Ont.; Ontario-Quebec-Maritime district; John J. Smith, Regina, Western Canada district and R. G. McCuish, Vancouver, Pacific-Northwest district. Two international officers, William R. Cockburn, Toronto, vice president, and F. Trafford Taylor, Winnipeg, trustee, will take a leading part in the convention.

Tuesday morning two past international presidents, George H. Ross, Toronto and H. C. Heinz, Atlanta, Ga., will speak during international hour. They will give a digest of international accomplishments that have resulted in increased armaments. "Youth in a Changing World" is the subject of an address to be given the same day by Rev. Canon A. P. Shatford, Montreal.

Other Canadian speakers will include Gordon S. Dodginton, Toronto, Mr. Cockburn and Mr. Taylor.

The annual All-Canadian banquet is scheduled for Tuesday evening. Dr. William J. Carrington, Atlantic City, N. J., president of Kiwanis International will be the guest of honor.

Business sessions will start Monday and at the initial gathering Dr. Carrington will present his annual message. This report is expected to discuss political and governmental problems.

Other speaker during the convention will include Major-General John F. Ryan, former commissioner of police of New York City; Ross Fulkerson, Washington, D. C., well known newspaperman and humorist; G. Bromley Oxnam, President of De Pauw University, Greensville, Ind.; James E. Cheep, New York, former newspaperman and columnist; and Irving Fisher, Professor of Economics at Yale University.

Formalin Sprinkle

Loose and covered smut of oats, covered smut of bunt of wheat and loose smut of barley are satisfactorily controlled by using any of the methods outlined below:

The solution used in this treatment is obtained by mixing one oz. of formalin to 2-3 gals. of water. The grain to be treated is piled on a clean floor or wagon box and sprinkled with the solution by means of a sprinkling can or a broom. It is then shovelled over to distribute the moisture and sprinkled again. This operation is repeated until the grain is thoroughly moistened. Generally speaking a gallon of solution will treat one bushel of grain, but practice will show just what amount should be used. The treated grain should be covered with clean sacks or canvas for four hours to allow the formalin fumes to penetrate the grain.

Formalin Immersion

If bunt balls are present in large numbers the immersion method is recommended. A solution is prepared using one pound of formalin to forty gallons of water, and the grain dumped loose into it. Bunt balls and light seed rise to the surface and may be skimmed off. After the seed has soaked for about five minutes the solution is drained off into another container and the grain piled on the floor to be covered for four hours as in the previous method.

Formalin Spray or Dry Method

For this treatment one pound of formalin is mixed with one pint of water. The grain for treatment is piled on a clean floor. As one man shovels the pile over, another sprays the grain with the solution which is applied at the rate of one quart to fifty bushels of grain. The work should be done when there is good circulation of air, so as to avoid irritation of the eyes, nose and throat. After spraying, the grain should be covered for five hours.

Grain may become reinfected with smut after treatment and all equipment used should be disinfected with formalin solution. Any seed grain treated with formalin should be sown as soon after treatment as possible. The longer it is held over the more germination will be injured.

Copper carbonate dust is quite effective in controlling smut of wheat, and smut or hullless oats. It is necessary when treating, to see that each seed is covered with a thin film of dust. A mixer may be easily rigged up by using a good tight barrel or an old barrel churn. The rate of application for copper carbonate dust is 2 ounces per bushel for wheat and one ounce to 15 or 16 pounds for hullless oats.

Note: Do not use formalin for the treatment of hullless oats.

WIND RELICS OF GREAT EXPLORE

(By The Canadian Press)
BLANTYRE, Scotland, May 19.—Newly discovered Livingstone relics have been on exhibition recently at the Livingstone Memorial, Blantyre, Lanarkshire. They consist of the contents of a medicine chest and various other articles from the house in Rothesay Terrace, Edinburgh, where the explorer's daughter, Mrs. Agnes Livingstone Bruce, lived until her death in 1912.

One of the most valuable finds is a small collection of rock specimens from the Victoria Falls.

VALLEYFIELD - ORWELL HEAD SERVICES, MAY 20th.—11 A. M. Valleyfield. 7 P. M. Orwell Head. Gaelic. 745 Orwell Head. English. Rev. D. Maclean Sinclair, M. A., Minister. L-7337-5-21-11.

FUMIGATING BUSINESS STARTED.—The Reliable Fumigating Co., 213 Prince Street, has announced its opening for business. An advertisement appears in this issue.

EXCURSION on the S. S. Harland, May 24th leaving Pickard's Wharf 3 P. M. for East River due to return 8:45 P. M. Return fare 25c. L-7341-5-21-31.

BEST SILVER FOX FELT, March London Sale out of 80,000 skins, was from a 1934 Pup Fed exclusive, on Sumpo as cereal part of Ration, from which special services there on Feb. 20 to owner, E. S. Coffin. Sat-Tues-11.

ATTEND B. P. BANQUET.—Mr. J. O. Hyndman returned yesterday on a visit to Montreal and Toronto. In the latter city he attended the annual meeting of the Boy Scouts' Council of Canada and was at the chairman's table at the great banquet given in honour of the Chief Scout, Lord Baden Powell.

CHURCH OF SCOTLAND.—The Kirk at DeSable has recently been renovated with comfortable pews and presents a fine appearance. There will be special services there on Sabbath 26th. Rev. Ewen MacDougall will preach in the morning at 10:30, and Rev. Hugh Miller of Trinity Church, Charlottetown, at 7 P. M. Special Offerings will be received in aid of the re-seating. L-7329-5-21-11.

TO CONSULT WITH COUNCIL.—Mr. and Mrs. Ira P. Macnab, Halifax, came to the city yesterday. Mr. Macnab, who is the engineering member of the Nova Scotia Board of Commissioners of Public Utilities, has been invited by the City Council to consult with them in the matter of public utilities. Mr. Macnab was consulted by the late Hon. J. D. Stewart when he was Premier.

DOCTORS QUALIFY.—The following physicians having fulfilled the necessary requirements have been recommended by the Board of Examiners of this Association, approved by the Council, and today were elected by the Association as qualified Members of the American Psychiatric Association: Arthur Milpass Gee; Alexander J. Murchison.

POLICE COURT.—At the Police Court yesterday, the two co-defendants in the case of the stolen motor cars Act case were each fined \$50.00 and costs or two months in jail. A motorist charged with speeding confessed and paid a four dollar fine. A drunk and incapable driver was held in ten days in jail and another drunk failed to appear had his five dollars bail forfeited.

Gaelic Class Closes For Winter.—After a very successful winter in studying the Gaelic language and literature under the direction of Rev. D. M. Sinclair, the Gaelic Society of Orwell Head has adjourned until the Fall. The closing session was held at the home of Mr. John A. Gillis, Kinross, on May 18th, with a large attendance. The President Mr. R. C. MacLeod, presided. After the Gaelic lesson, several piano solos, including "St. Kieran's Mass," by Mrs. MacLeod, were given. Mr. John S. Martin, in preparation for a Gaelic service to be held in the Orwell Head Church on May 26th at seven o'clock.

AN EVENING WITH MOZART.—The Philatelic class of the Charlottetown Baptist Church met at the home of Mrs. Leigh Dingwell on Friday, May 11th, for their regular meeting. During the evening Mrs. Dingwell read a delightful and most instructive paper on the famous composer. This was followed by an informal discussion on books and music in which the members joined and freely discussed their favorite authors. After a dainty lunch Mrs. Dingwell gave several piano solos from different composers and was heartily thanked for a most interesting evening.

TEACHERS' MEETING.—Teachers' Study Group met at Kensington on Friday, May 17, 1935, and opened with the Vice-president, Miss Profit in the chair. After a short address by Inspector Higgins the following demonstrative classes were given: Grade III, Reading by Miss Mill; Grade VIII, Arithmetic, by Miss Weeks; Grade I, Number Work, by Mr. McNeill; Grade V, British History, by Miss Prizell; Grade VIII, Geography, by Miss Gillis; Grade IX, Latin, by Mr. Driscoll. After the classes a discussion took place about the methods used. Several new text books were demonstrated. This is the last meeting of the school year.

F. W. C. TEACHERS' STUDY GROUP.—On Saturday, May 18th, the F. W. C. Teachers' Study Group met for conference in Charlottetown with the President, Mr. Gordon Rios, in the chair. The minutes of the last meeting having been read and adopted, Mr. H. B. Chandler, School Supervisor, expressed the wish of Mr. H. H. Shaw, Chief Superintendent of Education, of having Mr. Beck, a representative from New York, speak to this group on June 8th on the achievements of Adult Education. The question being put to a vote, it was unanimously decided to have Mr. Beck address the group. The President then introduced the guest speaker, Professor Blanchard, of Prince of Wales College, who gave a splendid address on the need, pronunciation and the teaching of the French Phonetic Alphabet. A vote of thanks having been tendered Mr. Blanchard, on motion the meeting adjourned.

TAKING UP HOUSEHOLD NURSING.—Miss Mary Jane MacLaughlin, daughter of Mr. and Mrs. James MacLaughlin of Mt. Stewart, has entered the Training School for Attendant Nurses conducted by the Household Nursing Association at Boston.

TO ATTEND CATTLE SALE.—Dr. Lantz and Mr. Harold Stead of Charlottetown left Saturday morning for Hartland (N. B.) to attend the sale of Jersey cattle, owned by the late Dr. D. E. C. MacIntosh of Woodstock.

ACCEPTS POSITION.—W. Norman Black, St. Martins, N. B., who has been attending agricultural college at Truro, N. S., left on Tuesday for Charlottetown. P. E. I., where he has accepted a position as the experimental Station—Saint John Telegraph Journal.

ACCOMPANIED REMAINS.—Mr. Arthur Hughes was a passenger by last night's mail train coming from Chicago. Mr. Hughes was called back to the city owing to the fatal illness of that being accompanied the remains home the funeral taking place from her late residence this morning.

ISLANDER DEAD.—On Saturday morning 11th inst. a telegram received by Mrs. William Macdonald, Peters Road, conveying the sad news of the death of her daughter, Mrs. Joseph Morrison in Edmonton, Alberta. The Guardian with the many friends here extend their sympathy to the bereaved family and relatives both in Edmonton and P. E. Island.

DEPARTURE REGRETTED.—Citizens of Mt. Stewart and vicinity are regretting the departure of their druggist, Mr. Geo. Morrison, who after two years practice of his profession in the village has left to take over the drug business of the late R. A. McDonald, in Tignish. Before departing Mr. and Mrs. Morrison were entertained at the home of Dr. and Mrs. Martin and presented with a dress and purse of many. They were also recipients of various individual and club gifts from the residents. Mr. and Mrs. Morrison took an active part in all the community and social work of the village. However, it is Mr. Stewart's loss will be Tignish's gain and his friends feel that Mr. Morrison will have success, as besides his experience in the drug business in Mt. Stewart, Mr. Morrison formerly worked for several years in one of the large drug stores of Boston.

AT ROTARY.—"Hidden Talent: The Study of Vocational Selection" was the subject of a unique and interesting address given at the Rotary luncheon yesterday afternoon by James Strange, phenologist, palmist and psychologist. In discussing palmistry he said there were seven distinct types of palms: (1) elementary, characteristic of the poor, who simply eat, sleep and die; (2) the practical type, (3) the hand of the philosopher, (4) the hand of the surgeon, (5) the artistic type, (6) the psychic hand, (7) the hand of the Jack of all trades. Sketching a hand on the blackboard he "lined it up," pointing out the relation of the lines of these lines to character. He was a thorough believer in palmistry and believed if the lines of the hand were carefully studied in youth and understood, they would prove a reliable guide of the best calling in life to follow. At the close of his address a number of Rotarians came forward as exhibits and the speaker discussed their characteristics from the standpoint of phenology, palmistry and psychology. Rotarian Frank M. Stewart was in the chair, and the guests were Rotarian Dr. T. B. Acker, Halifax and T. J. Coleman, St. Stephen, N. B., and Mr. G. Clark, Summerside, Kler Murray and ex-Rotarian J. T. MacKee, Charlottetown.

Use Minard's for Bites

PERSONALS

Miss Freda Colwill arrived home from Mount Allison yesterday.

The Hon. J. F. Fraser came to Charlottetown from Halifax yesterday.

Mrs. (Dr.) Yeo and the Misses Horne arrived home yesterday after a three weeks visit to Montreal.

The many friends of Mrs. E. H. Norton, Prince Street, will regret to learn that she is confined to her bed through illness.

Mr. Stephen Pond of Summerside returned yesterday from an extended business visit to New Brunswick and New England States.

Mr. and Mrs. Alfred Weatherbie, Bellevue, left by motor Saturday for Bellevue where they will attend the reunion of the 1932 class of Mt. Allison University.

Mrs. Frank Riggs returned Saturday night from Boston to which city she accompanied Mrs. W. C. Gillespie who left Saint John, N. B., with the remains of her husband. On being advised of Mr. Gillespie's death Mrs. Riggs left at once for Saint John.

End Kidney Trouble Quick

Thousands of sufferers from Kidney trouble and bladder weakness have stopped Getting Up Nights, Leg Pains, Nervousness, Stiffness, Rheumatism, Headaches, Lumbago, Burning, Itching, Smarting, Acidity and Loss of Energy by a Doctor's prescription called GAYLAX (Use-It). Gently sweet, tonic, clean, and health, raw rose kidneys, in 15 minutes cures acute purifying your blood. Brings new health, youth and energy in 60 hours. Most and your trouble in 6 days or money back. Get Gaylax for only 25 cents at all druggists.

Born in Slavery Recalls Beatings

EDMONTON, May 20.—(CP)—Memories of ceaseless work and brutal whippings with a cat-o-nine tails welded by a female Simon Legree run through "the mind" of Mrs. Hattie Thompson, aged negro born in slavery at Louisville, Ky., as she sews or cares for the young children of the family with whom she lives here.

Unable to recall her parents or her birth date, Mrs. Thompson, says she is more than 92 years old. Her earliest recollections are of her grand mother, who, she states, lived to reach the age of 124. In full command of her faculties, the aged woman boasts she is still able to read a needle and hand perfectly and that she has never worn glasses.

Recalling the days when she was a slave on the estate of Judge Smith Turner, at Chillicothe, Mo., Mrs. Thompson said the master disapproved of sending the slaves to work in the mines, so she administered the whippings. "I had to look after 11 children at one time," she related, "and when I dozed off that whip would come down on my head."

Her husband was frozen to death at Ponoka, Alta. when the couple lived after coming to Canada 30 years ago. Her four children have since died and her only relation is a 13-year old granddaughter.

Vivid recollections of the civil war which resulted in emancipation of the slaves are retained by the kindly old lady. She told of her master hiding in the woods from Union soldiers and of taking food to his hiding place.

Gifts of today don't know what work is, she declared. "It tells them they're eating white bread and don't know it." She does not regret the hardships of her early life. "Ah'm glad the good Lord didn't let me have much fun, because it was need for the rest to be."

Perennials From Seed

Most perennials may be grown from seed. Early in June is the best time to get started. Most of these should be started in a special nursery bed, except, perhaps such things as Oriental poppies which are rather difficult to transplant and should be sown where wanted permanently. Seed should be sown from a reliable firm. With perennials more than other flowers seed is very important, as there is liable to be a good deal of mixing and old seed with most of the flowers is absolutely no good. Prepare a site in some portion of the garden where seed is sown in rows about three or four inches apart. Keep the ground free of weeds, well cultivated, and until the germination, water with a fine spray every evening. Thin out plants and provide a light protection of leaves or straw the first winter. Next spring transplant to permanent quarters.

DON'T BUY ME I'M A NEW FLOOR WAX

I'm a 25c-bottle of new, satin-finish, greaseless furniture polish that will make your furniture look like new.

I'll give your floor a long-wearing, scratch-resisting finish they never had before. With less rubbing—less work.

BOTH NOW FOR ONLY 69c

Old English Wax

Get this bargain at nearest paint, hardware, department or grocery store... 25¢ bottle of furniture polish WITHOUT COST

A wonderful new method—called the Koric Process—has been found to blend the finest Canada wax into a smooth, creamy paste that makes it easy for you to give your floors a longer-wearing, scratch-resisting wax finish. With less work than ever before.

The only wax prepared by this new process is the new OLD ENGLISH WAX. You'll be delighted when you try it.

YOU DON'T PAY FOR POLISH

To make it easy for you to try this new-type OLD ENGLISH WAX we are making you this wonderful offer... with each pound tin of wax that you buy—at

any point, hardware, department or grocery store—you will receive ABSOLUTELY WITHOUT COST—a 25¢-size bottle of Old English Satin-Finish Furniture Polish that gives chairs and other pieces of furniture the beauty they had when they were new. You get both for only 69c.

DON'T MISS BARGAIN OFFER

Today—go to the nearest store—and get a large bottle of Satin-Finish Furniture Polish with each pound tin of the new, easy-to-apply OLD ENGLISH WAX that you buy. You get both for 69c. Made in Canada.

Cure of Asthma Is Claimed Found

NORWICH, Conn., May 20.—Dr. Stephen J. Maher, internationally known tuberculosis authority, today offered to the medical profession a bacterin which he claims to be a cure for many asthma cases. He also asserted that it had been used with moderate success in treatment of chorea, tuberculosis and dementia praecox.

While he admitted that little is known of the modus operandi of this new serum, he declared that "in future years it may be considered a more valuable therapeutic agent in asylums for the insane than in sanatoria for tuberculosis."

Addressing the Connecticut Tuberculosis Commission, of which he is chairman, the 75-year-old scientist who has devoted 35 years to the study of tuberculosis, said that "this is a strong statement, and purposely so, because its scientific and clinical importance demands immediate attention by the medical authorities of the world."

"No matter how old or how young the patient may be, no matter how many months or years he has had the disease, no matter how famous the medical authority may be who pronounced him incurable, I know that I can quickly cure more than 90 per cent of all cases of asthma simply by the oral administration of A. Y. bacterin."

The A. Y. bacterin, which he has called "Asthma" and explained is a tubercule of avian tubercle bacillus—tuberculosis carrying bacteria—and "is the most efficient treatment for asthma of which I have knowledge."

Dr. Maher, who represented the United States at the International Tuberculosis Conference at Rome in 1928, offered his formula to the medical profession as "the way in which I can do the most good to humanity."

Construction And Plants

The window-box should be as long as the window and should be supported and arranged so that the top of it is almost flush with the window-sill. Otherwise, the foliage of the plants will soon fill up most of the window. There must be holes in the bottom to provide drainage, and also a layer of gravel, cinders, broken crockery or similar material for the same purpose. If one can secure a supply of well-rotted manure put this in next, and finish with a top layer of rich soil. If there is no manure, use a fairly heavy application of good garden fertilizer and repeat every month.

The box, which should be at least seven inches deep and from eight to ten inches wide at the top, should be filled to within half an inch of the top. Along the front trailing Nasturtiums, German Ivy, Lobelia, Alyssum, and similar plants are put in, with Petunias, Ageratum, Begonias, Ferns, Geraniums and any other plants especially recommended for this purpose farther back. Shelter from the sun for a day or two should be provided until the plants get established. The same treatment and planting materials will be used with hanging pots.

Grow Quickly

Tender vegetables are those which have been grown quickly. Especially with such things as radish, carrots and beets, is slow growth disastrous as the roots become woody and filled with objectionable fibres. But this rule also applies to those things used for salads. On this account experts advise pushing growth with frequent cultivation, which in addition to checking weeds also conserves moisture. Cultivation alone will often keep the vegetables growing through a dry spell, but of course a few falls of water or an hour or two with the hose at this time, will lend further aid in laying down the garden, to plant those things most in need of extra moisture, such as radish, lettuce and celery, closest to the pump. Fertilizer is another way of hurrying growth and therefore assuring vegetables of the highest quality.

Recalls Beatings

Recalling the days when she was a slave on the estate of Judge Smith Turner, at Chillicothe, Mo., Mrs. Thompson said the master disapproved of sending the slaves to work in the mines, so she administered the whippings.
