**Dreadful Case
Of Itching Piles**

**Doctor Wanted to Burn the
Skin With a Red-hot Iron
—Patient Was Cured by**

DR CHASE'S OINTMENT

Mr. Alex McBean, Tarbot V.L. N. S. writes: "For two years I worked as sectionman on the Dominion Coal Company's Railroad between Sydney and Glace Bay, N. S. and during that time time was exposed to all sorts of weather. Gradually my health failed, and I became a victim of protruding piles. At first I did not know what my ailment was, but consulted a doctor, and though he treated me for piles, they only grew worse. "I was forced to give up work and return to my home. My suffering could scarcely be described. I could not walk or lie down, but while the rest of the family was sleeping, I would be groaning and aching from the excruciating pains. "Again I decided to consult a doctor. This one stripped me and said the piles would have to be burned with a red hot iron. I shivered at the thought of burning the flesh, and told him I could not think of undergoing such an operation, so he gave me some salve, for which he charged me two dollars, but it did not do me any good. "I was in a desperate condition and had about given up hope of ever being freed from this dreadful suffering when a friend told me about Dr. Chase's Ointment. He said that he had seen so many cases that it had cured that he would pay for it himself if it failed to cure. "My experience with Dr. Chase's Ointment is that the first application did me more good than did the two doctors and it has made me as well and as free from piles as any man. Since being cured I worked during the winter in the lumber woods and experienced no return of my old trouble. I am not putting it to strong when I say that Dr. Chase's Ointment was worth \$100 a box to me. You are free to use my testimonial for the benefit of others, as I feel it my duty to make known this great ointment." "Dr. Chase's Ointment, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Sir Henry Irving's Speeches.

Sir Henry Irving has won a great reputation as an after-dinner speaker, but, according to Harry Furness, his speeches are carefully prepared and printed in a very large black type, easily read at a distance. These slips are artfully placed on the table, out of sight of the audience; and while one of the speaker's hands rests artistically on his hip, the other toys with a fruit-knife, and with it pages of the speech are turned over as they are read. So perfectly is this acted, so gracefully does the body sway, and so well-timed are the pauses in the speech, that only those seated in close proximity to Sir Henry are aware he is reading his speech.

Rheumatism..

Is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system, and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the cause of these fearful shooting pains and stiff, aching joints. There is but one sure way—

Forms of application and copies of Prospectus may be obtained on request. Notice of allotment will be sent promptly by ordinary letter. It is intended to apply to the Stock Exchanges in New York, Boston, Montreal and Toronto for the listing of the Stock of the Company.
THE CANADIAN STEEL AND COAL COMPANY Limited, was organized to mine and manufacture iron and coal, coke and steel in Canada, at Atlantic tide water.

The raw materials for these manufacturers are:—
1. COAL. 2. IRON. 3. LIMESTONE.
All these materials we have at hand.
2-Iron.
The Company has acquired by purchase, immense iron deposits on the North Shore of the Gulf of St. Lawrence, about 350 miles from Sydney. The deposits are estimated to contain 20,000,000 tons of ore above sea level with probably as much more below that line. The iron can be handled for \$1.00 per ton or less. Quantities of this ore have been shipped to Great Britain and United States where it has given great satisfaction, and we can sell large quantities f. o. b. at the properties, netting us a profit of \$2.00 per ton. This ore makes the finest steel.

When in full operation the output is expected to be about as follows:

1. IRON.—200,000 tons iron ore shipped direct from property, showing net profit of \$2.00 per ton, total	\$400,000 00
200,000 tons fine iron ore shipped in briquettes, showing net profit of \$4.00 per ton, total	\$800,000 00
100,000 tons steel blooms showing net profit of \$3.00 per ton, total	\$300,000 00
2. COAL.—600,000 tons coal, showing net profit, at least, \$1.00 per ton, total	\$600,000 00
3. AIDS.—Government bounties (averaged) added to above per year for 6 years	\$100,000 00
Total yearly revenue	\$2,200,000 00
Net Revenue.	\$ 200,000 00

Equivalent to yearly dividends of 30 per cent., or 15 per cent, half-yearly on total capitalization.
If the capitalization was increased to this estimate would still show a dividend-earning capacity of 10 per cent, per annum.
The capitalization of the Dominion Coal Co., is earning fully 12 per cent., and is paying 8 per cent, guaranteed dividends on this enormous sum.
The capitalization of the Dominion Iron and Steel Company is on which it is believed 6 per cent dividends will be earned.
The capitalization of the Canadian Steel and Coal Company is only control, it is believed, equally valuable properties, and it is reasonable to expect much larger dividends.
Within the last few months Dominion Coal shares common rose in market value from \$40 to \$144 per share, and Dominion Iron and Steel Company's shares common rose over \$30 per share in market value.
With such low capitalization The Canadian Steel and Coal Co's shares would show tremendous profits; and it is confidently believed they will.
