Greater War Effort Needed

Address Given On War Issues By Mr. Justice A. C. Saunders At Opening of Supreme Court.

A lengthy review of the issues facing Canada and the United States in the present conflict, coupled with a plea for wholehearted effort on the part of every Canadian citizen, was given yesterday by Mr. Justice A. C. Saunders, in addressing the Grand Jury at the opening of the June term of the Supreme Court in Summerside.

The speaker reviewed the fate of the men which had failed to join forces in meeting the Nazi menace and had been defeated one by one. He strongly emphasized that United States in her own interest and for her own production, should no longer delay in getting into the war side by side with Britain. "Then and then only," he declared, "can we be sure of marching to victory."

"We have farmers' institutes and organizations everywhere. If the secretary of the various associations would receive gifts of eggs, butter, cheese, bacon, etc., these gifts could be turned over to a central shipping station and finally shipped to England.

"In the western provinces similar plans might be devised whereby every farmer might contribute 5 to 10 bushels of wheat."

"Schemes of this sort would thus enable each and every one to make some contribution. In the aggregate, this would do much to ease the cost of producing many products they grow and sell."

Everyone Can Help

Notwithstanding this, I am convinced that every grown-up individual can and should contribute his mite to this the most demanding cause in all history.

Canada's Duty

"What, may I ask, is the duty of all of us in this Province? In fact of all citizens of Canada?"

"Our young men have the privilege of joining the many services of the army. This is a privilege and one which they should be proud to borrow on reasonable terms and invest in the safest, the finest, and the most loyal and patriotic investment yet offered to the public, namely, **Victory Bonds**.

"Let no one fall to his or her duty. Buy **Victory Bonds** and more bonds to bomb Hitler and 'us' assist in winning the war."

Europe on Fire

"As I see it, Europe is on fire. We surely see on every front, and the flames are spreading rapidly. During the past ten days there is every indication the flames are sweeping towards us."

"Shall we Canadians and Americans delay until we are attacked, and many of our dear ones, our wives and children are brutally murdered? Or shall we as men reasonably in the days before the light of the sun, if there has been a dozen people in all Canada who have denied themselves anything as a result of war conditions. We eat, drink, dress and enjoy our automobiles, the movies and all other means of amusement and recreation as heretofore."

Supreme Court Opens in S'side

No Criminal Cases On Docket; Grand Jury Regrets Presence Of Much Minor Crime.

The June term of the Supreme Court of Prince County opened at Summerside yesterday, Mr. Justice A. C. Saunders presiding. As there were no criminal cases on the docket, the Grand Jury, Mr. F. J. E. Wright in his address to the Grand Jury, His Lordship commented on the absence of serious crime and a secutive term that he had been presented with a pair of white gloves. His Lordship in the course of his address, asked the number of drivers of the Highway Traffic Act, at conditions had materially improved, but there was still much room for improvement. Vichy Cabinet Meets; Silent On discussions

(By Taylor Henry, Associated Press Staff Writer)

VICHY, June 3.—(AP) — Two cabinet meetings today were described by an authoritative source as portents of a new orientation of French policy as a result of Monday's Brenner Pass meeting of Hitler and Mussolini.

At both meetings was Gen. Maxime Weygand, commander of French North African forces and an expert on Syrian defence. The exceptional ministerial activity in Weygand's presence was taken as an indication that developments could be looked for in the Mediterranean.

Particularly regarding French-mandated Syria on the eastern shore of the Mediterranean, were uppermost in the minds of foreign diplomats as to cabinet met.

After the meeting an authoritative source said he believed they were connected with the recent attack on Britain by Vice-Premier Darlan as well as with the Brenner conference.

"The recent statement made in Paris by Admiral Darlan is considered as the subject of today's deliberations," this source said. He continued: —

"This orientation is taking shape at a moment when on all sides a new turn is awaited in inter-

national developments. The meeting of Hitler and Mussolini is, on a different level, an augury of this new turn."

He went on to say that "the advice of Gen. Weygand" appeared to have been requested in view of expected developments in the Mediterranean as a result of the Brenner meeting.

"While diplomatic circles noted that the meetings centred around Weygand, a semi-official note nevertheless made no mention of the acute Middle East situation."

The Vichy-controlled radio at Beirut, in the Mandated territory, charged that Britain was preparing to attack Syria, and said French forces "know how to reply effectively."

Jean Luchaire, an exponent of the policies of former Vice-Premier Laval, wrote in the Paris newspaper Les Nouveaux Temps that France "will aid Germany in the fight against the British Empire in every way possible without entering the war against Great Britain."

Charges U. S. War materials Going to Axis

WASHINGTON, June 3.—(AP)—The House of Representatives rules committee voted today to ask for official comment on assertions by Representative John Coffee (Dem.-Wash.) that huge supplies of United States war materials are to be licensed for shipment to the Axis powers and Russia.

Chairman A. J. Sabath (Dem.-Ill.) announced that the committee would hear Gen. R. L. Maxwell, administrator of export control; representative of the State Department, Coffe and a dozen other Congressmen tomorrow in a closed session.

Coffe told the committee that 90,000 barrels of high-test gasoline had been shipped to Japan alone during March, 1941, and commented: —

"Now we face gasoline-less Sundays."

Shipment of materials of war, such as machine tools, oil and manufacturing equipment, to Russia "have increased 500 per cent recently," Coffe declared, "declaring that some of such supplies were being sent to Germany and Italy."

"An investigation of present conditions now may lead to measures which could shorten the war by several years."

Coffe said that the materials were going to the Axis through "third parties" and "summit." He urged the committee to permit immediate consideration on the floor of the House of its resolution calling for a Congressional investigation of the situation.

"American and even British companies are selling supplies to the Axis against the spirit of our defence effort if not against the letter of the law," he charged.

"While diplomatic circles noted that the meetings centred around Weygand, a semi-official note nevertheless made no mention of the acute Middle East situation."

The Vichy-controlled radio at Beirut, in the Mandated territory, charged that Britain was preparing to attack Syria, and said French forces "know how to reply effectively."

Jean Luchaire, an exponent of the policies of former Vice-Premier Laval, wrote in the Paris newspaper Les Nouveaux Temps that France "will aid Germany in the fight against the British Empire in every way possible without entering the war against Great Britain."

Charges U. S. War materials Going to Axis

WASHINGTON, June 3.—(AP)—The House of Representatives rules committee voted today to ask for official comment on assertions by Representative John Coffee (Dem.-Wash.) that huge supplies of United States war materials are to be licensed for shipment to the Axis powers and Russia.

Chairman A. J. Sabath (Dem.-Ill.) announced that the committee would hear Gen. R. L. Maxwell, administrator of export control; representative of the State Department, Coffe and a dozen other Congressmen tomorrow in a closed session.

Coffe told the committee that 90,000 barrels of high-test gasoline had been shipped to Japan alone during March, 1941, and commented: —

"Now we face gasoline-less Sundays."

Shipment of materials of war, such as machine tools, oil and manufacturing equipment, to Russia "have increased 500 per cent recently," Coffe declared, "declaring that some of such supplies were being sent to Germany and Italy."

"An investigation of present conditions now may lead to measures which could shorten the war by several years."

Coffe said that the materials were going to the Axis through "third parties" and "summit." He urged the committee to permit immediate consideration on the floor of the House of its resolution calling for a Congressional investigation of the situation.

"American and even British companies are selling supplies to the Axis against the spirit of our defence effort if not against the letter of the law," he charged.
