THE ELECTION IN PRINCE.

The movement for the repeal of the Scott Act in Prince County is of interest far beyond the borders of the County immediately affected. It is a matter of deep concern to the people of Charlottetown, which was the first to come under the provisions of the provincial Prohibitory Law. We have had this good law now nearly five years, and here, where the liquor interest was strongest, and public sentiment the most divided it has surpassed the highest expectations in the results achieved.

We are desirous therefore that the law shall be extended to the entire Province as was originally intended and for which provision is made in the statute itself. The Prohibitory Law takes effect at once and automatically whenever the Scott Act is repealed in any part of the Province where it is now in force. Queen's and King's Counties are also deeply interested in the movement as in the event of its success in Prince those Counties will take like action.

Prohibitionists in other parts of Canada are also interested in what they justly look upon as a noteworthy forward movement in the banner prohibition Province of Canada. This Island has held loyally by the Scott Act so long as it was the best instrument obtainable, refusing in any case to go back to license or in any way to legalise the tap-room. Now, beginning with Prince County an effort is being made to place the entire Province in line under the most advanced prohibitory legislation of the age.

There is yet a regrettably long space dividing the vanguard from the rear in the prohibition army of Canada. But the word of command to the van is still "March on!" and the stimulating effect of a gallant advance here will be felt across the continent to the Pacific. Manitoba has temporarily fallen back, but in Ontario and every other Province a steady if slow advance is making from year to year toward the goal of prohibition.

We do not doubt what the result will be in Prince or in the other Counties when the time comes to speak at the polls. The clergy Catholic and Protestant and the best citizenship of our Province are committed to strenuous measures for the suppression of the liquor traffic. The head and front of the opposition to this advance is made up of a score or two of men engaged in the unholy and unlawful traffic, all or nearly all of whom are convicted violators of the law.

It is not too much to say that the more respectable of the opponents of prohibition in Prince Edward Island are ashamed of their leaders and of their methods and would not willingly be coupled with them in a social way. To be engaged in the liquor traffic is to wear the badge of degradation in this Province, and Heaven long keep it so. These are among the reasons why we believe the respectable moral, order-loving and law-abiding citizens of Prince County will not vote with the rumsellers on Thursday next.

BABY'S TONGUE TELLS.

Little tongues that cannot talk tell mothers just as plainly that their owners are not well. When baby's tongue is white, or coated, or yellow, especially toward the root, it is a sign of stomach trouble, indigestion, cold or feverishness. Baby's Own Tablets act like magic in curing these and the other minor ills of babyhood and childhood. They are as good for the new-born baby as for the well-grown child. Absolutely safe and absolutely harmless. Mrs. C. E. Kerr, Elgin, Ont., says:— "Baby's Own Tablets are the best medicine I have ever used for stomach and bowel troubles and destroying worms. I could hardly feel safe without the Tablets in the house." Sold by all medicine dealers, or by mail, at 25 cents a box, by writing the Dr. Williams Medicine Co., Brockville, Ont.

DR. OSLER DECLARES OXFORD IS BELOW AMERICAN STANDARD.

BALTIMORE, Md., Jan. 25.—That Dr. William Osler is of the opinion that Oxford University is not up to the high standard of such institutions as Johns Hopkins Hospital and others of its kind in America, and that Oxford cannot be a great medical centre, is the sense of an address of the Doctor to the medical and chirurgical faculty of Maryland Dr. Osler states;

"The university is now fairly well equipped for medical courses. There are now two things lacking to make the school complete, and they are a pharmaceutical institute and an institute of hygiene, and it is to be hoped that they will be secured at an early date."

Of the methods of teaching Dr. Osler said:

"There is very little lecturing done at Oxford. A student may pass through an entire course and never hear a single lecture. There is no boring to death with lectures. The teaching is largely by tutoring, the student being in the charge of a special instructor, which, I think, is an admirable system.

As to the question of the degree, Dr. Osler said he is inclined to favor the attitude toward it that exists generally in American institutions, where more is thought of the kind of work a man does than of his examinations.

Indirectly, he deplored the habit in English universities of considering the degree as the whole thing. On the other hand, he favored the thoroughness of the English examination. He said that there the examiner is customarily appointed from the outside, and that the time taken for the examination is about twice as long as here.

Dr. Osler was inclined to criticize the shortness of the terms at Oxford. "In fact," he said, "the terms are too short for the accomplishment of effective work. The terms are only eight weeks long, and there are only three terms. It is particularly too short for laboratory work. About the time you get settled down to work, off the men go."

Dr. Osler said that Oxford can never become a great medical centre, as it is situated too close to London, which is a great clinical centre, and, naturally, draws the profession to it. One of the instructors in the laboratories complained that by the time the men got really interested in their work they left.

"The Rhodes students are interesting figures at Oxford," observed Dr. Osler. "They are attached in groups of four or five to each of the various colleges. The young men from this side have taken up the work successfully, and have rapidly assimilated themselves with the customs of the institution."

WHEN ALL HOPE WAS ABANDONED

Elzear Cote Found in Dodd's Dyspepsia Tablets a Speedy and Permanent Cure for His Stomach Troubles.

"I suffered for four years from stomach trouble. I consulted three doctors and they told me that I had Dyspepsia and no remedy would help me." So says Elzear Cote, of St. Hedwidge de Clifton, Que. But Mr. Cote found a remedy that those doctors did not know. It was Dodd's Dyspepsia Tablets and it cured him. He says:—

"Then I quit the doctors and started to take Dodd's Dyspepsia Tablets. After the first box I had no more trouble. It is now two years since I took them and I am still well. I do all my own work. I am never tired. That's why I recommend all who have stomach troubles to use Dodd's Dyspepsia Tablets."

Dodd's Dyspepsia Tablets digest the food themselves. This gives the overworked stomach a chance to rest and it naturally comes back to its norma healthy condition.

THE STEAMER WAS FLAMING AT SEA

BOSTON, Jan. 24— After passing through a most peculiar and spectacular electrical storm, while the angry seas were raging, the steamer Mongolian of the Allan line, commanded by Captain Starrat, was berthed at Mystic wharf, Charlestown, yesterday, five days overdue.

During the height of the gale, about 12 feet of the iron washboard was carried away, but fortunately no one was injured.

The Mongolian sailed from Glasgow on the 6th. of January under favorable conditions. She carried 120 passengers.

On the eighth day out, a terrific storm was encountered, and the hailstones that fell were exceptionally large. The wind was northwest, and soon the water was whipped and churned into mountainous seas.

All the hatches were battened down, the passengers were not permitted the use of the decks and the sailors exercised the utmost caution, in fear of being swept overboard by the tremendous waves.

It was while the sea was at its worst that the electrical phenomena took place on the evening of the 9th.

The horizon was ablase with lurid lights of a greenish hue, and from out of this shot great zig-zag shafts of fire, accompanied by a sizzling noise.

The ship was illuminated with bands of fire, and while the display lasted the lights aboard the ship were unnecessary.

The yard arms and the stays were literally covered with a peculiar glowing mass, and the steamer seemed aflame.

The forward part of the ship was struck by a ball of fire that came screaming and hissing through the air, at a surprising rate of speed.

This unusual condition lasted about an hour.

During the remainder of the trip, up to the time the banks were reached, the weather was bad, thus causing the officers and crew to work overtime.

For three days the Mongolian only made 86 miles a day, while in favorable weather in the same length of time she would ordinarily make about 276 miles.

She carried a cargo of general merchandise.

USURY MUST END IN DOMINION

OTTAWA, January 25.—It is stated that the minister of justice contemplates the introduction of a bill into parliament next session framed on the Imperial money lenders' act and designed to put a stop to usury. Under the imperial statute, where a money lender seeks to recover money lent and the court is satisfied that the interests or other demands in respect of the money actually loaned is excessive, it may relieve a person sued from payment of an amount in excess of such sums, the judge may hold to be reasonable. The court may, moreover, order a refund of excess charges, if paid, and may order lender to indemnify the borrower for any securities with which he may have parted in the transaction.

HERE IS A CURE FOR SLEEPLESSNESS

Weak, Listless, Sleepless Men and Women Cured Every Day by Dr. Hamilton's Pills.

The physical suffering and mental anguish that victims of sleeplessness endure is indeed a sad story. It is in Dr. Hamilton's Pills there is swift relief from this awful condition. Thousands have proved the merit of this grand medicine, among them Mrs. G. T. Lyons, one of the best known residents of Geneva, who writes:—"My health ran down and I was unable to sleep. I had headache and pains in different parts of my body. In the morning I was weary and exhausted—no rest or comfort came from the snatches of sleep I got.

"Dr. Hamilton's Pills braced me at once. After the first night I got refreshing sleep, that extreme weariness left me and I recovered very fast.

"No medicine I ever used gave such telling results as Dr. Hamilton's Mandrake and Butternut Pills."

Don't let sleeplessness drive you crazy; take Dr. Hamilton's Pills and get well. You will increase in flesh, your appetite will be vigorous, force and energy will be instilled into your nervous system.

By nourishing and purifying the blood and by stimulating the action of the kidneys, liver and stomach, Dr. Hamilton's Pills accomplish wonders. Try a 25c. box, or five boxes for $1, at all dealers, or N. C. Polson & Co., Hartford Conn., U. S. A., and Kingston, Ont.

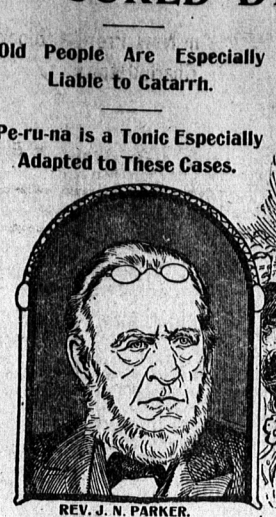
A VENERABLE PASTOR CURED BY PE-RU-NA

Old People Are Especially Liable to Catarrh.

Pe-ru-na is a Tonic Especially Adapted to These Cases.



REV. J. N. PARKER.

Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with rheumatic pains in my limbs.

"I commenced taking Peruna and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peruna, and now when eighty-eight years old can say it has invigorated my whole system.

Strong and Vigorous At the Age of Eighty-eight Years.

"I cannot but think, dear Doctor, that you must feel very thankful to the All-loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—J. N. Parker.

In old age the mucous membranes become thickened and partly lose their function. Peruna corrects all this by its specific operation on all the mucous membranes of the body.

Rev. Chas. Leander.

A Pleasure to Endorse Pe-ru-na.

Rev. Chas. Leander, pastor First Spiritual Society of San Francisco, writes from 311 Turk street, San Francisco, Cal., as follows:

"It is with pleasure that I give my endorsement of Peruna. My experience has been very satisfactory from its use, and I do firmly believe that it is the best known remedy for catarrh in all its different forms."—Chas. Leander.

No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

RUSHED WITH ORDERS ALL THE TIME

The remark is often made to us, "How is it, you are always so busy?" The answer is a simple one, we give such satisfaction in the work we do, that our reputation is known far and wide, and everywhere all over "Our Fair Island Province," even across the straits to Nova Scotia, New Brunswick, Cape Breton, Quebec and Ontario, in fact in all parts of the Broad Dominion we have received orders for work.

Is the question a difficult one to answer? We trow not.

Satisfaction is the essence of success, hence our success in business.

Remember us when in need of work done to your entire satisfaction.
