IN MEMORIAM

MRS. JOHN BELL

Friends in the city heard with regret of the death at her home in West Royal of Mrs. John Bell, after an illness of only a week.

The deceased possessed a most lovable and kind disposition and was extremely popular with her neighbors, her home being frequently thrown open to the members of the Women's Institute for their meetings and where they were always most hospitably entertained.

She was a faithful member of Trinity Church, taking a great interest in the work of the various auxiliaries.

Her husband pre-deceased her about twenty-five years ago. The following family are left to cherish the memory of a kind and loving mother: Frank and Russel, West Royal; Gertrude and Mrs. Herbert Gates, Edmonton; Mrs. Grant Johnston, Montreal and Susie at home.

The funeral will be held this afternoon from her late residence, at 2.30 o'clock.

Left-Handed People Are Really Twins, Says Piccard

They Do Not Perhaps Know This And Mothers May Be Deceived, Says Brother Of European Scientist.

NEW YORK, Jan. 12—(AP)—The fascinating possibility that many left-handed persons may be but halves of a twin person, whose other half failed to reach birth, will be emphasized to science with the arrival of Professor Auguste Piccard, stratosphere balloonist, who is due here tomorrow or Thursday on the steamer Champlain.

These scientific twin studies are the work of Professor Piccard's twin brother Jean, himself a scientist residing in Marshallton, Del., and the two brothers are living examples to support the theory.

Few persons except some scientists know that the Piccard twins are "identical," that rare combination of the same physical person, developing from the same ovum.

The two look so much alike that they are mistaken for one another. Like many identical twins, one is left-handed, the other right. Professor Piccard is the natural "lefty" of the pair, a fact usually concealed because he has trained himself into ambidexterity.

When, however, the instruction to use the right hand is given very early in childhood and if it is given without severity but with kind persistence, then such trouble need not develop. No such difficulties have been met by my brother, nor with two of my boys who were born left-handed.

"The phenomenon of twins and left-handedness bears problems, the solution of which has important possibilities. The early discovery of left handedness is of prime importance. Fortunately the direction of the spiral of the hair at the back of the head is a good indication of the handedness of any human being.

"Right-handed people have their hair turn clockwise, left-handed people have it turn counter clockwise."

BROTHER WED TO TWIN

Jean Piccard married an identical twin, a fact which has concentrated his attention on some features of twinning so unusual that he presented them privately to scientists at the Americal Association for the Advancement of Science in Atlantic City.

What happened there, Jean Piccard told in part today in a written statement.

"I discussed the problem of identical twins and handedness," he stated, "with Prof. H. H. Newman, my former colleague at the University of Chicago, the author of the biology of twins, and with Prof. W. R. Miles of Yale University. Professor Miles has asked me to publish my theories in a scientific periodical. I intend, however, to check up some of the theory before publishing it.

"It is a well known fact that usually one of two identical twins is left-handed while the other one is right-handed. It is well known also that there are many more left-handed persons who never had any twin.

"We may therefore either assume that there are two entirely different kinds of left-handedness with two entirely different causes or that all the left-handed people are—originally—twins. The other twin may have died in infancy or may have been still born.

SUCCESS WOMEN'S INSTITUTE

The regular monthly meeting of Success Women's Institute met at the home of Mrs. J. M. Campbell on Tuesday evening, Dec. 20th, with thirteen members and one visitor present. The meeting opened with the President in the chair by singing the Ode and repeating the Creed. Roll call was answered with a verse on Christmas. In the absence of the Secretary, Mrs. J. M. Campbell acted. The minutes of the last meeting were read and approved. The entertainment committee reported \$14.75 as net proceeds from dance, \$15.00 was voted towards the rink, and \$3.00 to provide for a needy family in the district. The program consisted of a very interesting reading by the President, taken from the Institute News. Mrs. Francis Murray kindly invited the members to her home for the next meeting, roll call to be answered with a New Year resolution. Program Committee, Mrs. Whitehead and Miss Robina Whitehead.

MOTHER MAY NOT KNOW

"In the latter case the mother will often not even have knowledge of the fact that she ought to have had twins. We have evidence, however, that in many more cases the

OYSTER BED BRIDGE NEWS

The Oyster Bed Club has been working hard all fall gathering money to build a rink by making concerts under the leadership of Mr. Vital Gallant, also thanking all those who have helped. The new rink is now ready for operation and the Silversides are eagerly awaiting the coming of Jack Frost and are sure to put up a hard battle for the Bethune Trophy which has been so generously donated to the winners of the league. The Riverside rink has all the advantages of the best open air rink in the province built on an area of 175x75ft, a dressing room of 30x12ft and also a 1500 watt lighting system giving a clear bright surface. The lighting system has been installed by and is under the management of Mr. Edward Gallant, who will give all the satisfaction possible.

Miss Eleanor Arsenault from Egmont Bay was recent visitor to Oyster Bed Bridge.

Smelt fishing has been very good all fall but the catch is somewhat diminishing. Many people are engaged in fishing caplin a fish which proves very valuable as a fox feed.

Mrs. Helaire Peters who has undergone a serious operation in the City Hospital is doing nicely.

A very enjoyable concert has been given by the pupils of Rustico Cross School and their teacher, Mr. Blaquiere in aid of the Red Cross.

MAIL FLIGHTS

because of abnormal weather conditions the Charlottetown-Grindstone Island air mail flights have been postponed and probably will start the third week of this month, the postal department announced yesterday. Special cachets have been issued and stamp collectors are urged to send their covers to Charlottetown as speedily as possible to make certain the letters will be carried on the first flight.—Halifax Herald.

THE BAPTIST CHURCH

The morning service will be broadcast by station C. H. C. K. Dr. Vincent will speak on "Skill in Soul Winning." Oley Speaks' Anthem, "More Love to Thee," and Matthews' "Fairrest Lord Jesus," will be sung by the choir. The evening sermon will be "Christ, Our Saviour." Dr. Vincent being the preacher. The music will include Hatton's "Like as a Father" and Turner's "At Even, Ere the Sun was Set." The Sunday School motto for 1933 is "Go Forward." Your co-operation in this ideal is invited.

W. M. S. MEETING

The annual meeting of the Point Prim United-W. M. S. was held at the home of Mrs. C. D. MacLeod on Friday evening, Jan. 6th with nine members present. This was the regular December meeting but owing to weather conditions at the time and week of prayer services following, it was put off. The president was in the chair and led the devotional period. Interesting readings were given by several members present. The offering for the evening was splendid. Officers for the coming year are as follows: President, Mrs. C. W. MacLeod (re-elected); Vice president, Mrs. J. W. Murchison; secretary, Mrs. Douglas McKinnon; treasurer, Miss Annie Murchison (re-elected). Lunch was served by the hostess during a pleasant social hour following the meeting.—H.
