Good-will, 1941 Canada And U. S. Took New Trend

Review of Trade and Defence Relations Between the Two Countries Show Still Stronger Ties.

By FRANK FLAHERTY, Canadian Press Staff Writer

OTTAWA, Dec. 9.—(CP)—Canada and the United States tended to become industrial and economic partners during 1941 under the impact of war and its urgent demands for unlimited quantities of machines.

The partnership trend which reversed a half-century of more or less unrestricted economic rivalry found its most concrete expression in the creation of a Joint Defence Production Committee, announced by Prime Minister Mackenzie King early in November.

This committee has as its function the planning of Canadian and American war production in such a way as to make the maximum possible use of the resources of the two countries in labor, raw materials and industrial capacity.

Thus the committee will keep an eye out to see that if one country requires supplies of a certain type and if they can be obtained more economically from the other the country needing the supplies will not plunge into the creation of additional plant facilities in order to produce them for itself.

Hyde Park Declaration

The two governments agreed to set up the committee following a recommendation of the Joint Economic Committee which was set up some time earlier to study means of economic co-ordination generally and bring about co-ordinated action where agencies of the two governments were already operating along the same lines.

The policy of pooling economic and industrial resources was formally proclaimed at Easter in the Hyde Park declaration by Prime Minister Mackenzie King and President Roosevelt, and followed the 1940 development of the creation of a Joint Defence Board to bring about the co-ordination of plans for military, naval and air defence of the North American continent.

The Hyde Park declaration had important financial consequences for Canada as under it the United States agreed to buy from \$200,000,000 to \$300,000,000 worth of war materials from Canada, thus aiding this country to maintain its exchange position with the United States. From the outset of the war Canada's financial position required close watching because of unusually heavy wartime purchases from the United States and a consequent drain on Canadian holdings of United States funds.

Mr. King's Visit

Mr. King made two visits to the president during the year, the Eastern trip which resulted in the declaration and a personal visit in November when the two leaders exchanged views on a wide range of questions.

Munitions Minister Howe was a regular visitor to Washington throughout the year as his duties called him there to consult with officials of the Office of Production Management on purchases of war materials and priorities for scarce products.

Negotiations on the St. Lawrence Waterway were carried on early in the year and culminated in the signing of an agreement on March 19. Indications the project would be started during the year were not born out, however, as President Roosevelt did not submit the agreement to congress for ratification.

Canadian Losses In Ships of War

OTTAWA, Dec. 11.—(CP)—H. M.C.S. Windflower, one of the sturdy band of Canadian Corvettes guarding ocean convoys, sunk in a collision with 23 of her crew missing and presumed dead, made the sixth loss of a Canadian ship of war and brought to 455 the total Royal Canadian Navy dead and missing since the start of hostilities.

Forty-four members of the windflower crew survived Canada's second Corvette loss.

Her complement was drawn from coast to coast and Ontario suffered the heaviest loss with 10 men among the casualties. Manitoba had four among the missing, Quebec three, and Nova Scotia, British Columbia and New Brunswick one each.

Because of her name it appeared likely the Windflower had originally been constructed on United Kingdom order and then turned over to the Royal Canadian Navy. Canadian Corvettes bear the names of cities and those of the Royal Navy the names of flowers.

Previous Navy Losses

Collisions involving Canadian ships in war have taken a heavy toll of life. Previous navy losses were:

Destroyer Fraser—Lost with 46 men in June, 1940, in collision while evacuating troops from France.

Destroyer Margaree—with 142 men lost in October, 1940, in collision while on duty.

Minesweeper Bras D'Or (small D Cap O)—Lost in storms in October, 1940, with 39 officers and men.

Corvette Levis—Torpedoed in September, 1941, with loss of 17 Canadian ratings and one from the Royal Navy.

Destroyer Saguenay—Torpedoed in December, 1940, and lost 21 men. She was able to make port and is back in service.

Patrol ship Otter—caught fire and sank in heavy seas off Halifax with loss of 19 men in March, 1941.

Scores of corvettes have been turned out by Canadian shipyards. Only 190 feet long, they have played a major part in keeping the Atlantic life-line open as they are sturdy and fast enough to protect a convoy while requiring less men to handle them in comparison with a Destroyer or other larger craft.

Notorious Nazi Agent Arrested

PHILADELPHIA, Dec. 11.—(AP)—Princess Stephanie Hohenlohe of Hungary, once reputed friend of high Nazi officials and a colorful figure in European political intrigue before the war, was arrested today (correct) by Federal Bureau of Investigation agents.

The short, red-haired Princess, now nearly 50, was sent to the United States immigration station at Gloucester, N. J., along with her German, Italian and Japanese nationals rounded up in Philadelphia and Eastern Pennsylvania.

Immigration and F. B. I. agents declined to say where the Princess had been taken into custody. They also declined to say whether she had been residing or visiting here.

She successfully fought deportation proceedings last May.

In November, 1939, she unsuccessfully sued Lord Bothermer, British publisher, for breach of contract on the alleged fact that she was to receive about \$20,000 a year as his special political representative in Europe. Her counsel said she had obtained from Hitler an invitation for Bothermer to visit him in Berlin.

During the trial a letter purported to be from Fritz Wiedemann, former Hitler adjutant and later German Consul-General at San Francisco, to the publisher was read, the writer crediting the Princess with having "aided the groundwork which made the Munich agreement possible."

HERMITAGE SCHOOL

The following is the report of Hermitage School for November.

Grade VIII.—Alfred Curley.

Grade VII.—Joseph Rooney.

Grade VI.—Frances Rooney; 2, Joseph MacVarish.

Grade V.—Edna MacVarish; 2, Alban Rooney.

Grade IV.—Phyllis Larkin.

Grade III.—Joseph Larkin; 2, Ralph Larkin; 3, Betty Masters.

Grade II.—Jean MacVarish; 2, Hilka Larkin; 3, Willie Masters.

Perfect attendance for the month. Edna MacVarish and Alban Curran.

M. Josephine MacInnis—Teacher.

SPHINX PERHAPS

Many of the sayings attributed Confucius came from Egypt.

PARKDALE W. I.

The December meeting of Parkdale Women's Institute was held on the 1st inst. in the school hall, the president, Mrs. R. Beer, presided, and eighteen members were present.

After the usual opening exercises, reports were given by the school, and sick committees.

The Red Cross reports for the month were as follows: Mrs. V. Shaw Mt. Edward Road, 8 prs. socks, 1 rose dress and knickers, 2 years, 1 khaki sweater, 1 pair girls' men's, 2 pairs grey gloves, ladies, 1 baby-jacket, Sewing, 4 pairs grey slacks, ladies, 1 quilt.

Mrs. D. Robinson, St. Peters Road, 14 pairs socks, 2 scarves, 1 sweater. Mrs. H. Douglas, Hawthorne Ave. 5 dresses, 8 years, 3 pairs pyjamas, boy's, 12 years.

Cake committee reported proceeds from Cake Sale, \$24.69.

Arrangements were made for a Christmas concert and a treat for the children at that time.

It was decided to donate a blanket and pillow to the Canadian Legion.

EBENEZER SCHOOL

Report of Ebenezer School for the month of November.

Grade IX.—Chester MacDonald; 2, Roland Ford.

Grade VIII.—Alfred MacDonald; 2, Roland Doucette; 3, Isabel Ford.

Grade VII.—Luella MacDonald; 2, Robert MacDonald; 3, Velma Ford.

Grade VI.—Marion MacDonald; 2, Helen MacRae.

Grade V.—Marrison Ford; 2, Wendell Ford.

Grade IV.—Ian MacRae; 2, Orwell Ford.

Grade III.—Edward Ford; 2, Carl MacLeod; 2, Carl MacLeod; 2, Dorothy Ford.

Highest average—1, Alfred MacDonald; 2, Luella MacLeod.

Perfect attendance—Luella MacLeod, Marion MacDonald, Helen MacRae, Wendell Ford, Ian MacRae, Carl MacLeod, Dorothy Ford, Dorothy P. MacDonald—Teacher. (Patriot please copy.)

COVE HEAD ROAD SCHOOL

Report for Covehead Road School for month of November.

Grade VIII.—Alden Dockendorff; 2, Veda MacDonald; 3, Erna Birt.

Grade VII.—Elen Woodbridge; 2, Marion Woodbridge; 3, Elaine Dockendorff.

Grade VI.—Audrey Marshall; 2, Edith MacDonald.

Grade IV.—Eva and Elsie MacDonald; 2, Roy McVittie; 3, Harvey MacDonald.

Grade III.—Shirley Birt; 2, Stewart MacDonald; 3, Kenneth MacDonald.

Grade II.—Annie Power.

Grade I.—Kier MacDonald.

Grade I. A.—Martin Birt.

Grade I. A.—Doreen Birt; 2, Clayton MacDonald; 3, Joyce Birt.

Highest average in Senior grades—Alden Dockendorff 88.5%.

Highest average in Junior grades—Annie Power 84.5%.

Perfect attendance—Elaine Dockendorff, Elen and Marion Woodbridge, Eva MacDonald, Leslie Birt, Stewart MacDonald, Shirley Birt,

STEWART-WARNER brings you *Bandmasters of the Air*

WITH the precision of a handmaster's beat the Stewart-Warner BANDMASTER opens to you the entire world of radio through the new 6-band Tuning—complete command of the world's airwaves on the dial of your radio!

You too can range freely in this greater world of radio entertainment—enjoy the programs of two hemispheres with unsurpassed Magic Power—Crystal Clear Tone. Ask your dealer to show you today the Stewart-Warner Bandmaster—supreme interpreter of the world's air bands!

Stewart-Warner Radios, Radio Phonographs and Record-Players are priced from \$30.95 to \$249.50. Prices subject to change without notice. Licensed under the patents of Canadian Radio Patents Limited.

The Airmaster Model 4902

AC or DC model. Five tubes—seven tube functions. Lovely walnut cabinet with intricate front grille design.

The Sonata—Model 4895

An outstanding leader in performance and value—a quality set for any home at a price within the reach of most.

STEWART-WARNER Radio
