### PERSONALS

Mr. James S. Abbott, a brother of Mr. William T. Abbott, Malpeque, after an absence of thirty-seven years is at present visiting scenes of earlier days. He is spending a few days with his brother and reviewing former acquaintances. He is the chief engineer of the Christie Lithographic and Printing Company, Duluth, Minn., and is connected with one of the biggest firms in Duluth. Previous to leaving the province he was engaged in the lobster packing business at Miminigash.—Y.

through which the green peas will pass. Canned fruits are graded for quality and syrup. In grading for syrup, the terms "Heavy Syrup," "Light Syrup and Without Sugar" are employed. If the packer so desires, he may substitute the words "Packed in Syrup" for "Sugar" (stating the percentage of sugar in the syrup). The terms denoting quality and grade must appear upon the main portion of the label in plain type of a size not less than 3/16 of an inch in height. Thus, in the case of peas, the label must indicate the quality and size of the peas contained in the can, thus—"Fancy Quality, Size No. 1." In the case of fruit, it must indicate the quality of the article as well as the sugar content of the syrup so far as sugar content is concerned, thus—"Fancy Quality—Heavy Syrup." The declaration of net weight on certain sizes of containers is not required, as these sizes have been standardized. These sizes are known as Size 1's, 1 1/2's, 2's, 2 1/2's, 3's, and 4's. The minimum net weight of both liquid and solids is packed in defined for each of these sizes. Sizes not standardized must show on the label the net weight and the drained weight.

BESIDES THE RACE Athletic Sports will be run off between the heats at the big races at Kensington. Don't miss seeing them Thursday next.

LOST.—Between James A. McNeill's, Summerside, and Wilmet, Wednesday, one new 33x44 cord tire. Reward offered. Notify James A. McNeill and Son, Summerside.

### New York Loaded With Bogus Antiques

PARIS, July 11.—United States is heavily loaded with bogus "Antiques" from the Louvre in Paris and the Metropolitan Museum of art in New York have been buying bogus pieces for years. Jean Vigobouz told the court at the opening of trial for charges of diverting funds and art treasures, filed by a Parisian Antiquarian, Joseph Demotte, whose New York branch was formerly managed by Vigobouz. He publicly denounced Demotte as "the worlds greatest Antiques Fakir."

### U. S. Ships Given Preference in Carrying Mail

NEW YORK, July 11.—United States ships are given preference in the transportation of mails to Europe. It was announced today by J. J. Kelly, assistant postmaster at New York. Instructions from Washington were to delay twenty-four hours if by so doing it was possible to send them by United States ships. When the Leviathan sailed last Wednesday she carried 7,479 sacks of mail, much of it held over from the previous Sunday. The British liner, Aquitana which sailed a day before carried 107 sacks.

### Drowned While Attempting to Save Another's Life

INDIAN HEAD, Sask., July 11.—Grace MacKenzie, aged 17 was drowned in attempting to save Gladys Hood who had fallen into a forest farm dam. Miss Hood was rescued.

### Woman Killed By Automobile

NEW GLASGOW, July 13.—At the inquest held this morning before Dr. Evan Kennedy of North Trenton. The jury brought in a verdict that the deceased came to her death in Aberdeen hospital as a result of being hit by a motor truck driven by William Woods Trenton. The jury attached no blame to the driver of the truck.

### Fermans Carry on Night Raids

ESSEN, July 11.—The Germans in some sections of the occupied territory have adopted nocturnal raiding party methods towards such of their fellow countrymen as have dealings with French, driving them out of the country in automobiles and on horseback.

### Labor Attempted to Snatch Decision But Failed

(British United Press) LONDON, July 11.—Labor narrowly escaped snatching victory at Westminster last night when they were outwitted in the House in an attempt to pass a second reading of a bill to nationalize the mining industry by a snap division. The Government majority had left the House believing it was to move a second reading of the bill. Captain Elliott jumped into the breach and for a space of an hour talked upon every conceivable subject. This brought the clock eleven when the House automatically adjourned.

## CONSERVATIVE MEETING AT RUSTICO BANK

The political meeting held at Rustico Bank on Monday evening was a most enthusiastic gathering. Mr. Bismark Craswell being appointed as chairman. The first speaker of the evening was Mr. B. W. LePage who labored hard to make the best of a bad cause and studiously avoided all promises made four years ago and was constantly interrupted and sat down with slight applause. He was followed by Mr. J. H. Buntain, whose convincing arguments captured the audience almost to a man. He sat down amid tremendous applause. Hon. George E. Hughes followed in favor of the conservative party. The meeting was interrupted continuously and made a poor showing and concluded his remarks with little applause. Mr. L. J. Jenkins, the veteran warrior, was the last speaker, as usual he drove home his argument, which carried consternation, in the government ranks. Mr. LePage, who was allowed ten minutes to reply, could not get a hearing, until by repeated efforts on the part of the chairman and Mr. Jenkins he got time to say "I fed you fellows and kept you when you were poor" after the uproar that this occasioned a vote of thanks was tendered to the chairman. This meeting was overwhelming for about fifteen minutes but was candidates.

## FIRST QUEENS CAMPAIGN OPENS

### With Rousing Conservative Demonstration Electors on Both Sides Bitter Against Bell Government.

The first meeting of the campaign in the First district of Queens was held in the Granville Hall on Monday evening. Mr. Henry Burgoyne presided, and each candidate was given a good hearing with the exception that the Government candidates had to undergo a severe cross-examination frequently without success. The Government candidates had to strain of endeavoring to cover up the sins of the party. The electors time and again voiced their disapproval of lame excuses and excuses for the errors of the Government during the past four years. The first speaker was Mr. Crosby who vainly endeavored to dislodge the 255,000 of the Conservative Party in 1919. He spoke at considerable length in justification of the Poll Tax, and is a vain endeavor to lead the people to believe that the auto tax is paying for the road improvements, which happens to be going on at full speed in the First District. He showed much uneasiness throughout his speech and many questions asked him were evaded. After a feeble attempt to uphold the Bell Government he resumed his seat without a sound of applause, even from his most ardent supporters. Mr. McNevin followed in a clean and forcible manner he went into the details of Mr. Crosby's alleged deficit and pointed out that by his official statement was ever issued, and could not be found anywhere in the official records of the province, and it was nothing more than a by-election booby. He reminded the electors of Mr. Crosby's prediction that the deceased came to her death in Aberdeen hospital as a result of being hit by a motor truck driven by William Woods Trenton. The jury attached no blame to the driver of the truck.

# CLARK'S BEAN

## ONE OUT OF EVERY TWENTY WOMEN HAS RED HAIR. SCIENTIST FINDS

But There are Five Red-headed Women to Two Red-headed Men—Age of World Placed at Three Billion Years.

WASHINGTON, July 9.—The real blonde, Dr. Hellek, dizziness has become a matter of scientific speculation. Included in the annual report of the Smithsonian Institution, of Washington, D. C., made public today, is a serious scientific paper by Dr. Alex. Hillebrand, of the United States National Museum, dealing with the color of the eyes, hair and skin of 2,000 American families.

One out of every sixteen men has red hair; one of every twenty women has red hair; one out of one hundred has solid black hair. Those in between are in the majority. The majority are the blue-eyed, blue-haired, and those with red hair at all. One in every two hundred men has pure white skin, whereas one in fifty women can claim that distinction. The report does not deal solely with such subjects. The speed of birds, the size of stars and the age of the world all receive attention as well as many other matters of scientific interest.

The age of the world as a place for living things grows greater in the estimates of scientists. The report contains a study of the world's age by Lord Rayleigh from the viewpoint of the decomposition of radio-elements. His conclusion is that the earth was created so as to permit existence of life on its surface three billion years ago. Ten years ago the world's age was set only at from ten to one hundred million years.

The fastest birds in the air were found to be the swifts, whose speed is set at 68 miles an hour in an article by Colonel R. Meinertzhagen, of England. To get the speed of the flight of various birds, airplanes were used to trace the birds, and they were timed with stop watches, or their time was caught as they were inflight between two anti-aircraft stations during the war. Next to swifts are placed the geese, with a speed of 55 miles an hour.

### CANNED FRUITS AND VEGETABLES ARE NOW STANDARDIZED

Housekeepers run practically no risk of getting a poor quality of canned fruits or vegetables if they will be careful to order by quality grade. All canned goods put up in the large factories must conform to the legal standards, and these are shown on the label of the can. The system of standardizing canned fruits and vegetables is explained in the May-June number of the Agricultural Gazette by C. S. McGilivray, the Chief Canning Inspector of the Department of Agriculture at Ottawa. The four legal standards of quality of fruits and vegetables are—"Fancy Quality," "choice quality," "Standard Quality," and "Second Quality." In addition to general standards for vegetables, specific grades have been established for canned peas. These are as follows: Size No. 1, size No. 2, size No. 3, and size No. 4. The size is determined by the opening in the sieve

### PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ont.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I kept house, but I was such a wreck that I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into women." Mrs. JAMES H. MACPHERSON, 308 Greenwich St., Brantford, Ont. If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

### BRINGING UP FATHER-

**Goff's Corner**
