Are The Four Fruits Used in Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good". On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Ltd., Ottawa.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

TODPOLE TO POLLYWOG.

Here's a story about a frog—a real heart-interest story, about how he "finds" himself. In The New Statesman, Mr. J. Arthur Thomson says: "Peculiar half-finished little creatures the new-hatched larvae are—mouthless, limbless, blind, covered with microscopic cilia, with just the beginnings of a first set of gills. They attach themselves by a horseshoe-shaped cement-organ to water weed, and subsist for some time on a legacy of yolk.

"It is an often-told story how these newly hatched larvae develop into true tadpoles, with open mouth, gill-clefs, and a second set of gills; how the limbs bud out; how the lungs develop and the two-month-old, pollywogs learn to see them, taking gulps of air at the surface; how the circulation changes from a piscine to an amphibian type, and how after nearly three months have passed there is a striking metamorphosis, the outcome of which is a tiny frog.

"The substance of the tail is broken up and dissolved, as if a pathological process had become normalized; the amoeboid phagocytes which play such an important role in inflammation have their share in changing the tadpole into a frog."

THE TURTLE'S CHOICE.

The auto had skidded and upset. An Irishman came up and said to another in the crowd: "What's the excitement Pat?" "Shure, an automobile has turned turtle."

"Turned turtle, is it," said the new-comer. "Bedad, that must be the rayson it chose a mud puddle."

SIR JOHN SIMON ENLISTS IN ARMY

LONDON, Oct. 16.—Sir John Simon, former Attorney-General, the Daily Mail announces, has been given a commission in the army and has joined the British forces in France. Sir John gives up a legal practice said to be worth £20,000 a year.

Sir John is 44 years of age. He resigned from his post as Home Secretary in the Government in January, 1916, because he was unable to agree with even the limited proposals for compulsory military service which the Cabinet had agreed to. He is a widower, with one son and two daughters.

Gas In The Stomach Is Dangerous

Physicians Recommend the use of Magnesia. Sufferers from indigestion or dyspepsia should remember that the presence of gas or wind in the stomach invariably indicates that the stomach is troubled by excessive acidity. This acid causes the food to ferment and the fermenting food in turn gives rise to noxious gases which distend the stomach, hamper the normal functions of vital internal organs, cause acute headaches, interfere with the action of the heart, and charge the blood stream with deadly poisons, which in time must ruin the health. Physicians say that to quickly dispel a dangerous accumulation of wind in the stomach and to stop the food fermentation which creates the gas, the acid in the stomach must be neutralized and that for this purpose there is nothing quite so good as a teaspoonful of pure bisulphated magnesia taken in a little water immediately after meals. This instantly neutralizes the acid, thus stopping fermentation and the formation of gas, and enables the inflamed, distended stomach to proceed with its work under natural conditions. Bisulphated magnesia is obtainable in powder or tablet form from any druggist; but as there are many different forms of magnesia it is important that the bisulphated which the physicians prescribe should be distinctly asked for.

The Charlottetown Guardian

Calls attention to the fact that nothing before in Bible distribution has ever equalled the tremendous tide of coupon holders now asking for the BIG PRINT RED LETTER BIBLE

The Making Of the Bible

It took the Bible two thousand years to grow. As it is the greatest work known to man—so it took immeasurably the longest time to build. It is rooted in many bibles—lost—forgotten—long-buried in the dust of the ages. A whole sacred literature went before it. The old Semitic legends; the ballads and the folk-songs; the recital of tribal deeds that ran from lip to lip and from father to son; the codes of ancient laws; the Bible of Southern Judah and of Northern Israel; the Book of Deuteronomy; the Book of the Priests; these were a part of the beginnings of the Book of Books.

Fourth Gospel. And so with all the Apostles. They taught and prayed and preached for years before they gave the world the written Word. First, then, came the oral gospel, published through the church, not in writing, "but on the fleshy tablets of the New Testament, beginning about the year 50 A. D. Then came the gospels of Matthew, Mark, Luke and John. The whole Bible has been likened to a great Temple; the Old Testament as the nave, with its side aisles of psalm and prophecy; the Gospels as the choir, the last Gospel perhaps the very sanctuary; while around and behind are the Epistles and the Apocalypse, each a gem of beauty, and each supplying an indispensable feature of the majestic whole.

The publishers of the famous RED LETTER EDITION of the Bible inform us that only by means of a vast newspaper co-operation throughout the United States and Canada could this magnificent Bible be had for the nominal price asked. They state they are arranging to distribute at least two million copies, and that the RED LETTER represents a value of from three to four dollars in the usual channels of trade.
