REVIEWS

(Continued from page 3.)

experience knows more about farmers' problems and farmers' disabilities and who has complete sympathetic understanding of the small portion of the natoinal income received by farmers—and that man is John Bracken.

Early in September your President was again required to visit Montreal, Ottawa, Toronto and Halifax in the interests of the Party in this Province, only arriving home one day before Election Day; so that very little of my own time was available for organization work.

Immediately after the Election I had occasion to go to Winnipeg and on this trip I met and conversed with civilians representing all shades of political opinion. The information I gathered in that the MacKenzie King Government is disintegrating and is on the way out. There has been so much blundering and bungling by the MacKenzie King Government that it would take more time than there is at my disposal tonight to enumerate the Government's many sins, —but just a few of the more glaring:

The Selective Service manpower muddle;

The catering to Strike Leaders;

The Plebiscite and attempt to appease Quebec and the refusal to accept the verdict of public opinion of all of Canada outside of Quebec;

The right about face on the Census Question;

The disagreements with so many leading Canadian business men who were called in to head up war departments and who, because they would not tolerate the interference of political expediency, had to go.

Most Colossal Blunder

The most colossal blunder of all, however, was the failure of the Government to co-operate with the British Empire Air Training Plan in 1938. Who can visualize what might have happened and how much the war might have been shortened if this plan at the time of the Blitz on London in 1940 had had the two years' start it was intended to have.

We had the sad spectacle a short time ago of the Minister of National Defence exhorting the people of this Province, who have done more than any Province in Canada in all kinds of war effort to do more by supporting the 5th Victory Loan while another Minister of the Government was telling the people of Quebec almost at the same moment that if they voted Progressive Conservative it would mean Union Government and more for the war effort.

Mr. MacKenzie King may not know it, but while this war is on appeasement is dead. It died with that beloved but misguided gentleman, Neville Chamberlain, and in its place came that indomitable fighting British Bull Dog, Mr. Winston Churchill. What a pity we haven't in control of the Canadian Government a Canadian counterpart of that fighting spirit and courage.

While we are satisfied that MacKenzie King is on the way out, we must not become complacent and think we are going to have a walkover in the next Election. We have a greater menace than the Liberal Government in Canada today and that is the C. C. F. Party. If this Party should get conrtol of the Government of Canada the resultant dislocation of our economy after its theories had failed would take many generations to restore —and it would fail.

Similar socialistic theories have been tried in New Zealand for the past 30 years until before the war New Zealand was the most indebted, highest taxed and nation of least opportunity for a white man, in the world.

A Convention to nominate candidates to contest the next Dominion Election has been called for November 25th in the Empire Theatre at Charlottetown. Mr. Gordon Graydon, the Dominion President will attend and address the convention. It is important that all polls should elect 5 delegates who will attend this convention and that they come with proper credentials signed by the President or Secretary of the poll. If the total number of voting delegates cannot attend proxies may be used by those attending, giving them the full 5 votes but these proxies must be signed by the President or Secretary of the poll.
