To Study Need For New Freight Shed At S'side

At the regular monthly meeting of the Summerside Board of Trade held last evening in the Town Hall, Mr. Alan Holman brought to the attention of the board the pressing necessity of a new and up-to-date freight shed in Summerside.

The present shed has long since proved inadequate to handle the increased amount of freight. Local firms as well as the employees find the present set up unsatisfactory due to the lack of space which make rapid delivery of freight so difficult.

It was decided to leave the matter in the hands of the transportation committee to study the feasibility of getting a new and larger shed.

Considerable discussion was given to the condition of the Marine Wharf at which the potatoes are loaded for shipment on the boats. Mr. Silas MacFarlane, prominent shipper, stated that the situation there is really serious due to the condition of the wharf. Trucks were obliged to arrive there to unload a part of their potatoes in order that they might drive over the wharf in safety.

"DANGEROUS YEARS" PART OF DOUBLE BILL AT CAPITOL

Who's to blame for juvenile delinquency - guilty parents or guilty children? "Dangerous Years", the new S.M. Wurtzel film drama, to open today at the Capitol Theatre is said to head with stirring realism into one of the knottiest controversies of the moment and expose with dramatic force one of the real channels that feeds the nation a new and terrifying crime outbreak in the hands of unbridled youths.

The forceful screen play presents the multi-faceted conflicts of the question in its setting of an average town and average, decent kids. The fast-moving theme revolves around a boy leader who is first bedazzled by the younger teen-age set, then deliberately outwits them into a reckless crime war "for fun" against the town's citizenry which subsequently explodes with murder and their arrest. Kipling on trial, the action from there on in, thrills the audience from there on in, with a subtle intensity the plot takes a quick twist that hurls both the defense and prosecuting attorneys into a contest that opens new speculation and meaning when startling testimonies suddenly probe deep into the heart of the case and electrify the courtroom.
