

BUY "Britannia Skirts" They possess style, quality and finish. Ask your dealer for them. See that the name Britannia is inside the waist band.

The Backbone of This Store

Of course the E. W. Taylor Store sells a great many different sorts of things—yet, after all, Watches and Watch Repairing are the backbone of the store. There are some times that outsell Watches at certain times of the year. For instance, in the "Christmas month" of December and the "Wedding month" of June, our Watches have to play a secondary part to our Silverware and other gift goods. But taking the whole year round there is no other line in which we do so large a business as in Watches.

We carry different kinds and styles of Watches, and pay careful attention to the worth of their workmanship. We are sole selling agents in Charlottetown for the famed Regina Precision Watches.

E. W. Taylor, Cameron Block.

LARD

is an important article in baking. You want the best that money can buy. Try our new Pure Lard in 1 and 2 lb blocks, 15c per lb. You will then use no other

Sealed Tenders addressed to the undersigned, and marked "Tenders for Buildings at Summerside" will be received up to and including Thursday, October 13th, 1904, for carrying the freight sheds at Summerside, according to plans and specifications to be seen at the office of the undersigned at Charlottetown, where forms of tenders may be obtained. All the conditions of the specifications must be complied with.

G. A. SHARP, Superintendent. Railway Office, Charlottetown, P. E. I. Oct. 1st, 1904—3mwt 11 1/2

INTERESTING FACTS

For Nearly Every Man, Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers and who were finally induced to give Stuart's Dyspepsia Tablets a trial were surprised and delighted at the results. In many cases a single package consisting of 50 cents at any drug store made a complete cure and in every instance the most beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest, but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unsolicited testimonials and never publish the same one twice.

From James Yemmelsier, La Crosse, Wis.: "Stuart's Dyspepsia Tablets are doing me more good than anything ever tried and I was so pleased at results that I gave away several boxes to my friends who have also had the same benefits." From Jacob Anthony, Portmurray, New Jersey: "I have taken Stuart's Dyspepsia Tablets with the best results. I had Dyspepsia for 6 years and had taken a great deal of medicine, but the Tablets seem to take right a hold and I feel good. I am a farmer and lime burner and I heartily recommend to everyone who has any trouble with his stomach to use these Tablets."

From Mrs. M. K. West, Preston, Minn.: "I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one half of my last box to a friend who also suffered from indigestion and she had the same good results." From Mr. Agnes K. Ralston, Cadillac, Mich.: "I have been taking Stuart's Dyspepsia Tablets and I am very much better, and feel very grateful for the great benefit I have received in so short a time."

Stuart's Dyspepsia Tablets are a certain cure for all forms of indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them to all persons suffering from Nervous Dyspepsia, a sour or acid stomach, heartburn, bloated or wind on stomach and similar disorders.

With all these conditions against us, the question naturally arises, are we engaging in a hopeless competition, and will not the Danes eventually drive us out of the market? But there is another side of the question which I would like to

DANISH, VERSUS CANADIAN BACON

Letter From Professor Day of the Guelph Agricultural College

Detailing His Observations Touching the Bacon Industry in Denmark--The Methods of Breeding and Feeding --Advantages Possessed in Canada--An Instructive Letter.

Last month, it was my privilege to visit the little country of Denmark, a country noted for the excellence of its butter, bacon and eggs. So far as my mission was concerned, I was interested mainly in the question of bacon production from the farmer's standpoint, and devoted nearly all my time to this question. I presume that everyone knows that Denmark is our most formidable rival in the production of bacon for the British market, and that Danish bacon usually commands a premium over the Canadian product, often to the extent of four shillings per one hundred and twelve pounds. Before going to Denmark, I visited the Smithfield market in London, where I was given every opportunity to compare Danish and Canadian sides. So far as I could judge, the main advantages of the Danish bacon rested in its remarkable uniformity, and its somewhat larger proportion of lean to fat. In length of side, and in evenness of the layer of fat along the back, the best Canadian sides were quite equal, if not, in many cases, superior to the Danish, though there was a marked tendency on the part of many of the Canadian sides to run too heavy at the neck, and there was a decided lack of uniformity in the Canadian products as a whole. Having thus gratified my curiosity regarding the finished product, I started out to see what I could pick up regarding the raw material.

Denmark is a country of intensive farming. Every available foot of ground is under cultivation. Cattle are not allowed to roam at will and trample down the pasture, but are either tethered in the field or fed in the stables, and I even saw sheep tethered to stakes and occasionally tugging at their ropes. As for the pigs, they are not tethered, but are kept closely confined, except the breeding sows, which are given a rather limited amount of exercise.

The most successful bacon factories are co-operative concerns, though there are some independent factories, and a keen competition exists between the two, with the odds in favor of co-operation. In the co-operative factories, the farmers who agree to co-operate agree to sell all the hogs they produce to their own factory, and in Denmark an agreement appears to be binding if a farmer, tempted by a higher price, sells his hogs to another factory, he is fined between \$2.50 and \$3.00 for every hog so disposed of, and the enforcement of this law tends to discourage the violation of agreements. Each man's hogs are killed and graded separately, and he is paid according to the price agreed upon for the different grades. The profits earned by the factory are divided proportionately among the interested parties at the close of each year.

The market hogs of Denmark are mostly a cross between the Large Yorkshire and what is called the Danish hog. So far as I could learn, no other breeds are known in the country. The Yorkshires are imported from Great Britain, and are placed in the hands of certain farmers, who agree to breed nothing but Yorkshires. These farmers receive some financial aid from the Government, and the hogs are sold for crossing purposes. The Danish hog is very similar to the Yorkshire in body, bone and color, but it has a long, narrow head, very light jaw, heavy, drooping ears, and a light neck and shoulder. It is more than probable that the Danish hog already possesses considerable Yorkshire blood. The reason assigned for crossing with the Yorkshire was that the cross-bred gave thicker and more fleshy sides, particularly the holly meat. It is here where the Danes score a great advantage over us. From their method of breeding, it naturally follows that their sides of bacon should be remarkably uniform in character, and one of the great faults of Canadian bacon is its lack of uniformity.

The methods of feeding vary in different localities. Barley and oats are used to a considerable extent, and in some sections corn is used, though it is generally condemned by the packers. Roots and green feeds are also used, but perhaps the most important foods for producing bacon of choice quality are skim milk and butter milk. Nothing but dairy cattle are kept in Denmark, and butter is the product manufactured. As a result, every farmer has a supply of skim milk and butter milk for his hogs, and in this we can see a second important advantage which the Danes possess over the Canadian feeder, for there is no food equal to these by-products of the creamery for producing bacon of high quality. There is no doubt that the method of feeding plays an important part in promoting the development of lean meat in spite of the lack of exercise, though it is quite probable that the method of breeding has an influence.

A third important advantage possessed by the Danes is their proximity to the market, less than forty-eight hours after the bacon is placed on the cars, the bacon is on the British market. The advantages accruing from such conditions can be easily understood.

PAPER MAGAZINE ON THE TYPEWRITER.

The bother of changing the sheets in a typewriter is objected to by many persons not because of the physical labor involved but because of the fact that the thread of thought is often seriously interrupted. It often happens also that the operator will go on writing after the bottom of the paper has passed the point where the impression is made, and in this case the labor is not only wasted but a happily worded line or a prettily rounded sentence lost entirely.

Such an interruption is exceedingly aggravating to one who is working against time, or endeavoring to secure

PAPER ROLL ON THE TYPE WRITER.

literary effect. An invention which is hoped to avoid this loss of time and effort has been recently brought out in the form of an attachment to the writing machine by which an endless sheet of paper is supplied for those who want it. It consists of a wire device which carries a spool of paper the support of a roll of paper. The apparatus is fastened to the paper rest of the machine and when the roll is guided through and around the plate, the operator may roll off the copy without the slightest interruption as far as his paper supply is concerned. A roll of paper can be secured for the purpose, or where this is not available the operator may paste sheets together and improvise a roll in a few minutes which will last several weeks. In this manner the machine is always charged with paper for a two-line article or one of two columns. For newspaper work copy furnished in this manner has a number of advantages as the manuscript is a most always pasted together and then cut up again in sizes suitable for distribution among the compositors. In the preparation of manuscript generally this scheme as the advantage that it prevents absolute loss of the possibility of pages becoming lost while it is passing through the various hands which matter of this character is sometimes subjected to. The invention is that of W. H. Bright, of Brownsville, Pa.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietary and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in gold money of the United States, for any case of Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments.

A beautiful Galmecia, Vice-President of the East End Palmietto Club, of Savannah, and prominent socially here, relates the following experience: "You certainly have produced the best medicine for suffering women that is to be had in the country. I had tried several remedies, but I was not cured. I was especially to mothers. I was seventeen years old when my darling boy was born. I felt very exhausted and weak for a long time, and I seemed I could not get my strength back. My friend had bought me a bottle of Dr. Pierce's Favorite Prescription (which I had tried several of the other remedies which are so much advertised and found inferior). I had little faith in the medicine at the time and was so weak and sick that I felt discouraged, but within a week after I had commenced taking your 'Favorite Prescription' I was enjoying perfect health. My life and vitality seemed to come with each succeeding day, until, in a few weeks, I was in fine health, and a happy, hearty woman. My boy is now two years old, and, thanks to your splendid medicine, I am enjoying perfect health. If at any time I feel tired or in need of a tonic, a few doses of your 'Favorite Prescription' recuperates me at once. My address is No. 511 Jones Street, East, Savannah, Ga. Mrs. S. W. Williams. To Dr. R. V. Pierce, Buffalo, N. Y."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs. The Common Sense Medical Adviser, 1008 large pages in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

POLITICAL MEETINGS.

Messrs. Martin & McLean, the Liberal Conservative candidates in the forthcoming election will meet the electors of Queens County at the following times and places. Bradshaw, Wed. 5th, 1 p. m. Kelly's Cross, Wed. 5th, 7 p. m. Crapaul, Thur. 6th, 1 p. m. Bonshaw, Thur. 6th, 7 p. m. North Wiltshire, Fri. 7th, 7 p. m. Hunter River, Sat. 8th, 7 p. m. Mount Stewart, Mon. 10th, 7 p. m. Tracadie Cross, Tue. 11th, 7 p. m. Brackley Pt. Road, Wed. 12th, 7 p. m. Westley River, Thur. 13th, 7 p. m. Rustico Bank, Fri. 14th, 7 p. m. Cavendish Ha. I, Sat. 15th, 2 p. m. Afon Hall, Fri. 21st, 7 p. m. North River, Sat. 22nd, 7 p. m. Port Augustus Hall, near church, Mon. 24th, 7 p. m. Other meetings will be announced later. smw & w t

Fall Goods Have Arrived.

Drop in and examine the lovely patterns and excellent grades. No clothier on earth crowds so much value in suits at the price, as we do in ours. We use better linings and better trimmings—give the greatest care to the small details—and we get results which are only to be seen in custom tailors' productions. That is why our business is growing and we have so many pleased customers. F. R. BOYCE, 1111 George St.

Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered with stomach complaint for years. I got so bad that I could not carry my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got me to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman."—Mrs. FRANK BEYER, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, you must have a host of friends, for every day I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my home. Sincerely yours, Mrs. MARY P. WHERRY, Flat 31, The Norman, Milwaukee, Wis."

Actual sterility in woman is very rare. If any woman thinks she is sterile let her write to Mrs. Pinkham at Lynn, Mass., whose advice is given free to all would-be and expectant mothers.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

It's Time to Change Your Underwear

And put on one of the medium weight, comfortable kind we procured for you for the early fall wear. \$1.50 to \$2.50 the Suit. D. A. Bruce, THE UP-TO-DATE FURNISHER, Victoria Row.

SPECIAL NOTICES.

Come here for your felt hat, and you are sure of something artistic at a moderate price. M. Trahan & Co. 1d 11. Paton & Co., have received over approval \$1000 worth of furs. Those wishing the latest in furs should call at Paton & Co., at once as the furs will go back on Friday. McQuarrie & Arsenault Barristers, Solicitors, etc. Summerside, P. E. I. Offices—Royal Bank of Canada Building. N. R. McQUARRIE, K. C. A. R. ARSENAULT
