BURIAL IN HALIFAX—Mrs. J. A. S. Bayer and son Theodore, left yesterday morning for Halifax, leaving the remains of Mrs. Sarah C. Cossman who passed away at the Charlotte residence on Monday last.

FUNERAL SERVICES—The funeral of Vincent E. Lund, was held Tuesday afternoon from his late residence 66 King Street at 3:40 to the Roman Catholic Cemetery. The pallbearers were six playmates of the deceased: Walter MacDonald, Robert P. Stanley, Walter Sheppard, Henry Coady, Vincent Lund and Walter Lund.

TO VISIT CAMBRIDGE, MASS.—Rev. Ewen MacDougall, of this city intends to visit the Church of Scotland Congregation of Cambridge, Mass. He will assist the Pastor Rev. R. J. Westaway at the services on Sunday 18th, and the Communion services on the 25th.

KIWANIS LUNCHEON ADDRESS—The Kiwanis club today listened to one of the finest addresses ever delivered to its members. J. E. Matthews (formerly of Charlottetown, P. E. I.) an active Kiwanisist and one of the past presidents of the Brandon club, was the speaker, and his topic was "Canada." Having covered 30,000 miles throughout the length and breadth of this country last year, he told a story of enthralling interest, and because western Canadians know little about those eastern provinces by the sea he described very graphically many of the interesting features of the maritime provinces. He paid a fine tribute to the Fathers of Confederation and urged the great necessity for a unified Canada, which he described as one of the brightest jewels in the crown of the British Empire. —Brandon Sun.

Reviews Work Of Department Of Agriculture

Announcement that his department had already arranged to continue the service of brewery stallions this year, but that in view of the complaints from temperance people the policy next year would be submitted to the Legislature for consideration, was made last night by Hon. W. H. Dennis, Minister of Agriculture, in the course of his speech on the budget.

A review of his visit to Newfoundland last fall, made in company with Mr. McIsaac, M. L. A., vice-president of the Livestock Shipping Board and president of the Maritime Chamber of Agriculture, was given by Mr. Dennis. "We found in our investigation while in Newfoundland," he said, "that it had become a world market, buying their goods where they could be obtained the cheapest; and it was apparent to us that we could not lay down goods there at a price for which they could obtain them from foreign countries. A couple of weeks before we arrived there were thirty thousand bags of Argentine oats coming in; while we were there there was thirty thousand bags of Dutch oats coming in. They buy oats from Poland, potatoes from Ireland; and we were assured by one of the large dealers that on a shipment of potatoes from Ireland he could have paid customs duties at Halifax and disposed of the cargo at a profit; so that it really does seem to me that reduced water rates by large cargo steamers is largely responsible for the falling off of our trade.

"We were successful in working up a small amount of trade for the province while there and made connections which we believe will be of assistance in the future. "With regard to cattle, of which we formerly shipped large numbers, we found that our cattle are too light in weight, besides not being of the best type, generally speaking, they do not cut out to advantage when handled by meat dealers; then, the freight, which is a considerable portion of the cost, is regulated per animal, so that on the lighter class of animals which we send to Newfoundland there is a loss on account of paying the same amount of freight on light animals they would have to pay for a heavy steer which would dress two or three hundred pounds more, and if we hope to continue to have an important trade with Newfoundland in regard to beef animals, we must obtain animals of that type."

Among the various activities of the Department was the culling of poultry flocks throughout the province. During the past summer there were 68,000 birds inspected, approximately one-sixth of our population; out of this number 22,000 were discarded as being non-productive, thereby saving the poultry men of the province many thousands of dollars.

The Department also opened an Agricultural Employment Bureau, listing the names of farmers who needed assistance on their farms, and of farm labourers who wished employment. He was glad to say that this was successful, and in many cases they succeeded in placing young men on the farms. The Government decided it would be wise to have Hungarian partridge placed in outlying districts, where up to the present there were none. Mr. Dennis continued, "We had an offer from a Game Farm for Hungarian partridge for \$6.50 a pair, but I took the matter up with private parties and had partridges caught, for which we paid \$1.00 per bird. We distributed 174 birds.

He had also succeeded in making arrangements with a game warden of Ontario to exchange Hungarian partridge for ring-necked pheasants.

Reference was also made to an investigation by the Department of the possibilities of the beet sugar industry, which indicated that such an industry here would not be feasible.

The Government had purchased a Clydesdale stallion which stood in Kings County during the past season. Mr. Dennis regretted to say that this horse was not paraded to the extent that he should have been by the horse breeders of that county.

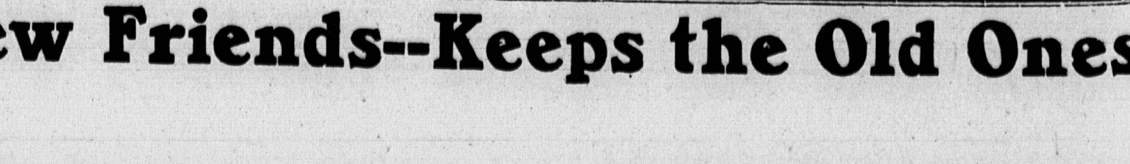

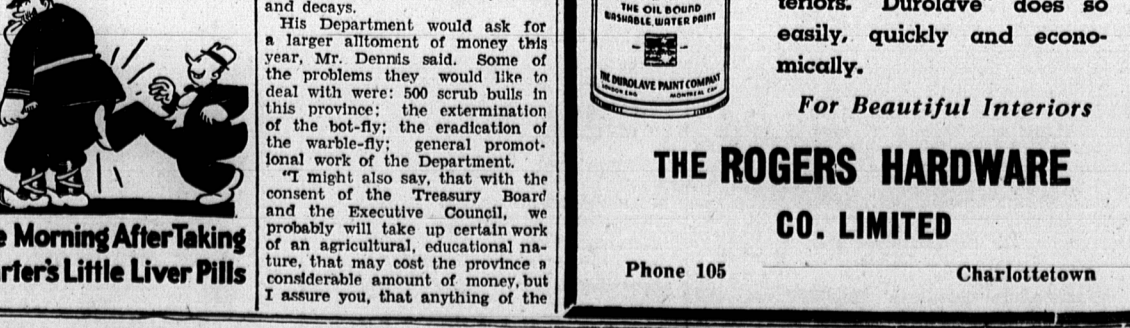

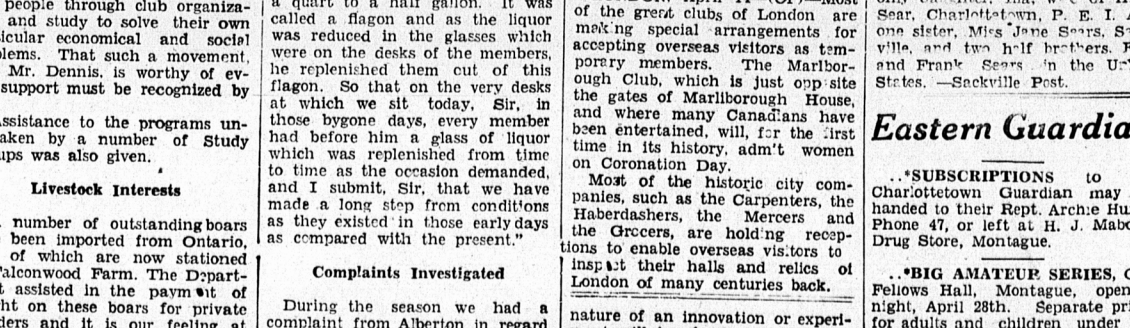

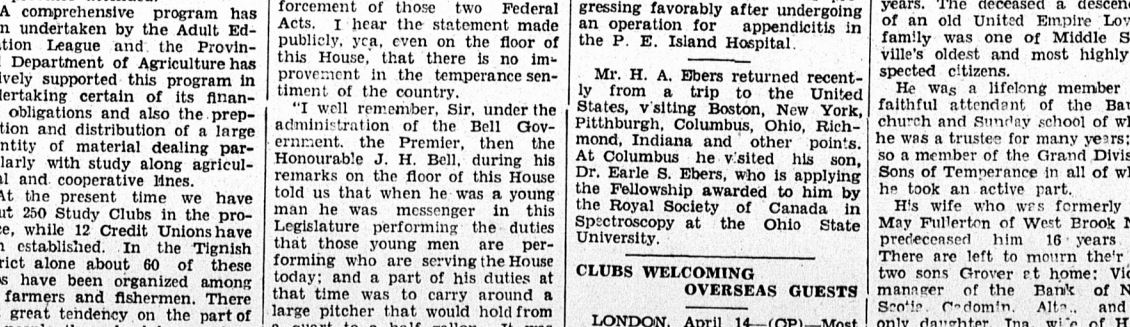

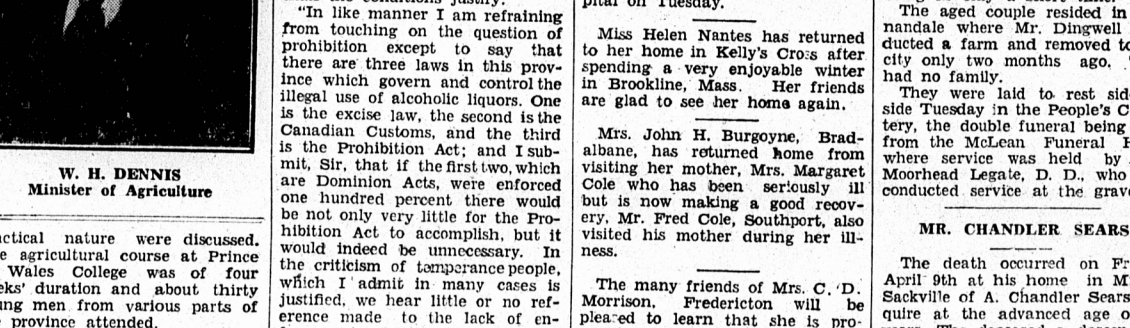

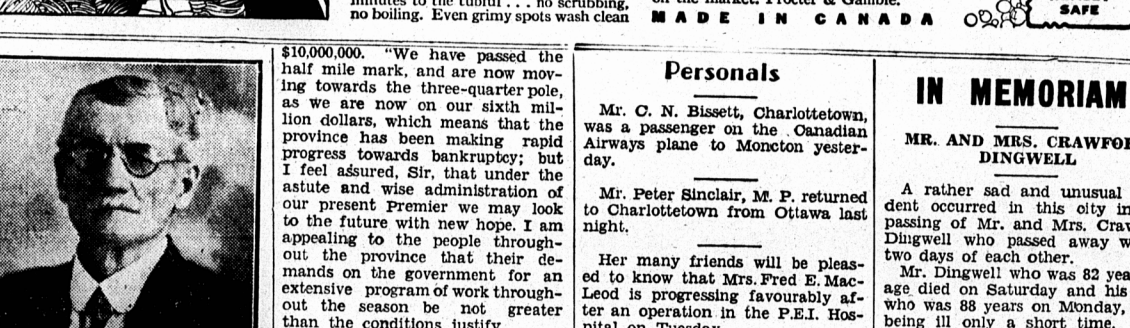

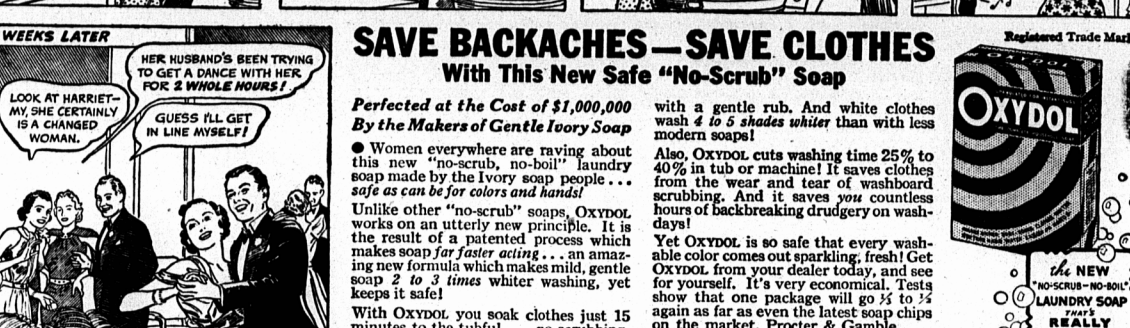

EVERY WOMAN FACES THIS QUESTION

How do I look to other people? So many women risk their beauty by neglect of constipation. It often causes loss of pep, sallow skins, dull eyes, poor complexions.

Yet common constipation can be ended so easily. Just eat two table-spoons of Kellogg's ALL-BRAN with milk or fruits every day, three times daily in severe cases. This delicious ready-to-eat cereal supplies the "bulk" needed to exercise the system—and vitamin B to help tone up the intestinal tract.

Within the body, ALL-BRAN absorbs more than twice its weight in water, gently sponging out the intestines. It never causes the artificial action of pills and drugs, that often prove ineffective.

Kellogg's ALL-BRAN, you see, is a food—not a medicine. It relieves common constipation the way Nature intended—so its results are safe. Buy it at your grocer's. Made and guaranteed by Kellogg in London.

SAVE BACKACHES—SAVE CLOTHES

With This New Safe "No-Scrub" Soap

Perfected at the Cost of \$1,000,000
By the Makers of Gentle Ivory Soap

Women everywhere are raving about this "no-scrub, no-boil" laundry soap made by the Ivory soap people... safe as can be for colors and hands!

Unlike other "no-scrub" soaps, OXYDOL works on an utterly new principle. It is the result of a new scientific process which makes soap far faster acting. The new formula which makes mild, gentle soap 2 to 3 times faster washing, yet keeps it safe!

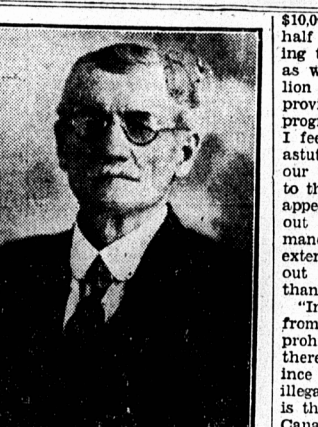

With Oxydol, you soak clothes just 15 minutes to the tubful, no boiling. Even grimy spots wash clean

with a scrub rub. And white clothes wash 4 to 5 shades whiter than with less modern soaps!

Also, OXYDOL cuts washing time 25% to 40% in tub or machine! It saves clothes from the wear and tear of washboard scrubbing. And it saves you countless hours of backbreaking drudgery on washdays!

Yet Oxydol is so safe that every washable color comes out sparkling, fresh! Get Oxydol from your dealer today, and see for yourself. It's very economical. Tests show that one package will go 1/2 to 3/4 as far as far as even the latest soap chips on the market. Procter & Gamble.

MADE IN CANADA

W. H. DENNIS
Minister of Agriculture

practical nature were discussed. The agricultural course at Prince of Wales College was of four weeks' duration and about thirty young men from various parts of the province attended.

"A comprehensive program has been undertaken by the Adult Education League and the Provincial Department of Agriculture has actively supported this program in undertaking certain of its financial obligations and also the preparation and distribution of a large quantity of material dealing particularly with study along agricultural and cooperative lines.

"At the present time we have about 250 Study Clubs in the province, while 12 Credit Unions have been established. In the Tignish district alone about 60 of these clubs have been organized among the farmers and fishermen. There is a great tendency on the part of our people through club organization and study to solve their own particular economical and social problems. That such a movement, said Mr. Dennis, is worthy of every support must be recognized by all.

"Assistance to the programs undertaken by a number of Study Groups was also given."

Livestock Interests

"A number of outstanding boars have been imported from Ontario, four of which are now stationed at Falconwood Farm. The Department assisted in the payment of the breeders and it is our feeling at the present time that freight from Upper Canada on approved and improved sties, particularly for use in this province, should be taken care of by the Department. This matter is now under advisement.

"Bonuses have been arranged in cooperation with livestock breeders' Associations where outstanding animals have been purchased by farmer groups."

Mr. Dennis said it is conceded by financial interests that the excess of the borrowing ability of this province is approximately

"During the season we had a complaint from a section in regard to spruce trees that were being damaged. We had the case investigated the same day we received the complaint and found that the difficulty was caused by the European Saw Fly, which has destroyed much of the forests throughout Canada, especially in the Gaspé Peninsula.

I discovered that the beech trees of our forests were being destroyed by "A Parasite Insect" and I had an investigation made. While the difficulty can be overcome by spraying, nevertheless it is impractical to spray large trees of the forests, so we are forced to sit idly by while all that valuable hardwood timber gradually dies and decays.

The Department would ask for a larger allotment of money this year, Mr. Dennis said. Some of the problems they would like to deal with were: 500 scrub bulls in this province; the extermination of the warble-fly; general promotional work of the Department.

"I might also say, that with the consent of the Treasury Board and the Executive Council, we probably will take up certain work of an agricultural, educational nature, that may cost the province a considerable amount of money, but I assure you, that anything of the

Personals

Mr. C. N. Bissett, Charlottetown, was a passenger on the Canadian Airways plane to Moncton yesterday.

Mr. Peter Sinclair, M. P. returned to Charlottetown from Ottawa last night.

Her many friends will be pleased to know that Mrs. Fred E. MacLeod is progressing favourably after an operation in the P.E.I. Hospital on Tuesday.

Miss Helen Nantes has returned to her home in Kelly's Cross after spending a very enjoyable winter in Brookline, Mass. Her friends are glad to see her home again.

Mrs. John H. Burgoyne, Bradalbane, has returned home from visiting her mother, Mrs. Margaret Cole who has been seriously ill but is now making a good recovery. Mr. Fred Cole, Southport, assisted his mother during her illness.

The many friends of Mrs. C. D. Morrison, Fredericton, will be pleased to learn that she is progressing favourably after undergoing an operation for appendicitis in the P. E. Island Hospital.

Mr. H. A. Ebers returned recently from a trip to the United States, visiting Boston, New York, Pittsburgh, Columbus, Ohio, Richmond, Indiana and other points. At Columbus he visited his son, Dr. Earle S. Ebers, who is applying the Fellowship awarded to him by the Royal Society of Canada in Spectroscopy at the Ohio State University.

CLUBS WELCOMING OVERSEAS GUESTS

LONDON, April 14—(OP)—Most of the great clubs of London are making special arrangements for accepting overseas visitors as temporary members. The Marlborough Club, which is just opposite the gates of Marlborough House, and where many Canadians have been entertained, will, for the first time in its history, admit women on Coronation Day.

Most of the historic city companies, such as the Carpenters, the Haberdashers, the Mercers and the Grocers, are holding receptions to enable overseas visitors to inspect their halls and relics of London of many centuries back.

I discovered that the beech trees of our forests were being destroyed by "A Parasite Insect" and I had an investigation made. While the difficulty can be overcome by spraying, nevertheless it is impractical to spray large trees of the forests, so we are forced to sit idly by while all that valuable hardwood timber gradually dies and decays.

IN MEMORIAM

MR. AND MRS. CRAWFORD DINGWELL

A rather sad and unusual incident occurred in this city in the passing of Mr. and Mrs. Crawford Dingwell who passed away within two days of each other.

Mr. Dingwell who was 82 years of age died on Saturday and his wife who was 88 years on Monday, both being ill only a short time.

The aged couple resided in Antanale where Mr. Dingwell conducted a farm and removed to the city only two months ago. They had no family.

They were laid to rest side by side Tuesday in the People's Cemetery, the double funeral being held from the McLean Funeral Home where service was held by Rev. Moorhead Legate, D. D., who also conducted service at the grave.

MR. CHANDLER SEARS

The death occurred on Friday, April 9th at his home in Middle Sackville of A. Chandler Sears Esquire at the advanced age of 84 years. The deceased a descendant of an old United Empire Loyalist family was one of Middle Sackville's oldest and most highly respected citizens.

He was a lifelong member and faithful attendant of the Baptist church and Sunday school of which he was a trustee for many years; also a member of the Grand Division, Sons of Temperance in all of which he took an active part.

His wife who was formerly Ida May Furlton of West Brook N.S. predeceased him 16 years ago. There are left to mourn their loss two sons Grover at home; Victor, manager of the Bank of Nova Scotia, Godmin, Alta., and an only daughter, Ma, wife of H. L. Seal, Charlottetown, P. E. I. Also one sister, Mrs. Jane Sears, Fredericton, and two half brothers, Fred and Frank, sons in the United States. —Sackville Post.
