OF SPECIAL INTEREST

LONDON, July 24 (Special).—Mrs. Emmeline Pankhurst, the militant suffragette leader, who succeeded in outwitting the police on Saturday, was really arrested Monday afternoon when she was entering a public hall to attend the weekly convocation of the members of the Women's Social and Political Union. It was said she intended at the meeting to issue another defiant challenge to the government.

Detectives pounced on Mrs. Pankhurst with dramatic suddenness, and before many of those surrounding her were aware that the suffragette leader had been seized she had been whisked into Shaftesbury avenue and hustled into a taxi cab.

A few of the women accompanying Mrs. Pankhurst, however, made an attempt to rescue her, and in doing so vigorously tumbled the detectives with their umbrellas. Half a dozen of them were arrested.

A big force of uniformed policemen closed up behind Mrs. Pankhurst and her captors and stemmed the rush of a mob of infuriated women, whose yells of "Murderers" and "Assassins!" drew great crowds to the scene.

Some of the women used hatpins as weapons of offence and number of injuries were caused and several arrests were made before Mrs. Pankhurst was safely on her way to Holby jail.

When she arrived at the prison Mrs. Pankhurst refused to leave the taxi cab and had to be carried in by detectives.

Miss Sylvia Pankhurst, whose license expired on Sunday, dramatically defied the police by appearing at the Bromley Town Hall, where she was arrested a fortnight ago. She and other suffragettes made inflammatory speeches and left the hall, accompanied by a protecting bodyguard. There was a violent collision with the police, but Miss Pankhurst got away in safety.

BERLIN, July 24 (Special).—Besides the sharp shocks of earthquake felt through Wurttemberg, tremors were experienced all over Southern Germany, extending from Strassburg by way of Frankfurt to Munich, in Bavaria, and as far as Zurich, in Switzerland.

Many persons were thrown down in the streets, and in some places showers of bricks fell from the chimneys and tiles from the roofs, while hundreds of persons ran in a state of terror out of their homes.

At Strassburg the seismic recording instruments were put out of order by the violence of disturbance.

TEXAS, July 24 (Special).—The President has appointed Minister of France, Senator Don Lorenzo Anadon, at present Argentine Minister to Chili; Minister of Public Works, Senator Don Carlos Meyer Pellegrini, and of Justice, Senator Don Carlos Ibarra.

LONDON, July 24 (Special).—A bomb exploded in a coppersmith's shop here as the proprietor opened a drawer in which it had been concealed.

The proprietor, who was injured by a fragment of the missile, and all his employees were arrested.

The police made raids on revolutionary labor clubs. They seized a quantity of bombs and arrested many of the members.

SHAVING SOAP HOLDER

Keeps Soap High and Dry Above Bottom of Shaving Mug

An ingenious barber designed a simple and effective holder for shaving soap in the cake. A metal platform has a pair of bowed springs, crossing each other at right angles, mounted under it. The ends of the springs project beyond the edge of the platform. To place the contrivance in the shaving mug, all that is necessary is to bend in all four ends of the springs, lower it to the bottom of the mug, and release the springs. They fly out and engage the sides of the cup, holding the platform firmly several inches above the bottom of the receptacle. The edge of the platform is turned up at points to keep the soap from sliding off. The advantage of this device is the saving of soap, which, when it lies in the bottom of the mug in the midst of water and lather, wastes away to a large extent.

BASEBALL

A meeting of the Executive of the Charlottetown Baseball League was held last night in the Dalton Fox Exchange. The first business brought up was a protest by the Connaughts against a game played by the Victorias and Aberweits on July 18th as unconstitutional, on account of the Victorias playing a non-resident. This matter was fully discussed and it was ordered to play the game over again, date, either August 2nd or 4th, to be arranged by the captains. The next matter taken up was the fixing of a date for the final game between the Connaughts and Aberweits. The date was arranged for August 1st at 6.30 p.m. In connection with the offer of the Messrs. A. J. Reach for a trophy, pennant or medals for the entire championship team, it was agreed to accept the medals.

NEW APPOINTMENT TO THE STAFF OF THE ACADEMY SEMINARY SCHOOL OF MUSIC.

The growth of the Department of Music at Acadia Seminary and the increasing favor with which the public regards it, make the selection of a competent Director a very difficult problem. This problem has been most satisfactorily solved in the appointment of Mr. Carroll C. McKee, now of the Toledo Music College and Teacher of Piano-forte in the Detroit Conservatory.

Mr. McKee was graduated in Piano-forte, etc., from the latter Conservatory, under the well known Teacher, Mr. Francis L. York. Later he pursued his studies at the Indianapolis Conservatory. This training has been supplemented by one year's study with Alberta Jonas in Berlin and by four months' study in the summer of 1912 with C. Renaud and Wager Swayne in Paris.

Mr. McKee has taught at the Detroit Conservatory 1905-1907, at the Indianapolis Conservatory 1907-1911, during which time he had charge of the Central Normal School of Music. From 1911-1913 he has been Director of Piano-forte at the Toledo Musical College, holding at the same time, a position as Teacher of Piano-forte at the Detroit Conservatory. His experience as a musician includes not only teaching but directing and playing on extended concert tours throughout the states.

VOICE.

Acting on the advice of Dr. Herbert Sanders, whose work in connection with McGill is so well known all over Canada, an arrangement has been concluded by which Miss Eva Hardy, of London, England, takes charge of the Vocal Department at Acadia.

Miss Hardy is a Gold Medalist of the London Academy of Music, the winner of the Lord Mayor's Prizes and Certificates at the Guildhall School of Music and other institutions. She was chosen out of a number of applicants by Dr. Sanders for the post of Soprano Soloist in the Dominion Church, Ottawa, which position she has filled with great satisfaction to all concerned during the last year.

Dr. Sanders in recommending her to the Principal writes, "She is an

AVIATOR CHEVILLARD

He is the first flyer to purposely turn a "cartwheel" in the air and the picture gives some idea of the position of his machine when doing it. This flight took place at Hendon Field, near London. First he goes up about 500 feet, then starts flying in a circle till the tilt of the wings of his machine is almost perpendicular. Then comes a sickening "flop," the biplane seems to turn end for end as it drops about 300 feet. Chevillard says it is easy, but there are no volunteers to try it with him.

THE VATICAN BUDGET

Immense Treasure But Comparatively Small Current Revenue

The receipts and expenditures of the Vatican average about \$2,000,000, and with the cutting off of certain expenses of late years, they nearly balance evenly. The revenue is derived from the patrimony of St. Peter, including the invested capital of the church, the interest on funds invested in London securities by former Popes, the rent of buildings owned by the church, fees for the services of documents issued by the various congregations and departments and Peter's Pence. The yearly expenditure is roughly speaking as follows: For the support of Cardinals and diplomatic missions abroad, \$1,000,000; for the maintenance of the Vatican, including the papal army, \$600,000; pontifical alms, subsidies and schools, \$450,000; gifts to charities, \$300,000, and miscellaneous, \$200,000.

The treasures of the Vatican, picture galleries and museums, the collections of library furniture, tapestries and jewels are estimated to be worth \$125,000,000. No precise figures are available as to the value of landed property, but the income from invested capital and rents of buildings is estimated roughly at \$1,000,000.

Dramatic Denouncement
At Glasgow Police Court Mary Morrison, aged seventeen, was sentenced to seven days imprisonment for theft. The apprehension of the girl was brought about in a curious manner. A well known detective received information that someone who had taken lodgings in the Garnethill district was representing herself to be his daughter. He visited the address mentioned and met the girl, who being unaware of his identity, mentioned his name as being that of her father.

Women on Health Boards
M. Louis L. Klotz, French Minister of the Interior, in a speech before the International Women's Congress at Paris, especially eulogized the work of the organization in the field of public hygiene and said that women should be on every health board.

Excellent Soloist, a good Teacher. Her musical education is of the best and she can read anything at sight. You will do well to engage her right away. 511-7-26Mt.

however, no structural damage. (Canadian Press.)
BELLEVILLE, July 25.—After twenty minutes deliberation the jury investigated the causes leading to the death of the seven victims of the Canadian Explosives Ltd. explosion returned a verdict of accidental death without making any recommendations.

The inquest was conducted by Dr. Chapdelaine and was primarily into the death of Miss Annette Ell. The finding also appeals to six others who lost their lives.

It was rumored that a charge of criminal negligence would be made against the Company but the witnesses who testified along these lines were relatives of the victim or else disgruntled discharged employees. Robert H. Lynde, Manager of the Company testified as to the working of the machinery. The others told of the explosion.

CENTRAL GUARDIAN

THE PIONEER.—The tug Pioneer, Capt. Keating, returned to Charlottetown yesterday afternoon from Orwell bringing a tow with her.

NO REGRETS.—Lo and behold, the festive potato bug is no more, says a New Brunswick exchange. At last he is dying off rapidly and there is joy at the funeral. For twenty-five years it has been no inconsiderable part of the farmers' work to deal with this ubiquitous pest, and at this season of the year there is a rush on Paris green. From every part of the province, however, there come reports of the Colorado beetle, and it is only hoped that it is dying out altogether. Why the bugs have failed to appear this year in their usual large and happy families is not explained, but it is considered quite sufficient by the farmers that they are not.
