- \*Ice cream festival at Savage on Monday, August 8th, admission and swimming races. Prizes awarded. 4833-8-6-11. Prizes very reasonable. 4838-8-6-21

Following the full text of the judgment of the Board of Railway Commissioners for Canada, delivered by Chief Commissioner C. P. Fullerton, K. C., in the matter of the accident which occurred at Mileage 66.5, Tignish sub-division, Canadian National Railways, Prince Edward Island, at 1.55 a. m. February 21, 1932; and the determination of the party or parties responsible for the accident.

Early in the morning of the 21st of February last an accident happened in a cutting known as Handrahan's Cutting, on the line of the Canadian National Railways near Tignish, on the Prince Edward Island Division, resulting in the death of four employees and injury to eleven.

Following the accident the usual investigation was made by one of the Board's Inspectors and a report made by him to the Board.

After giving the report careful consideration the Board decided that the facts justified a thorough investigation into the whole matter of responsibility for the accident and it was, accordingly, decided to hold a sittings of the Board at Charlottetown for that purpose.

The hearing was held at that point on the 28th day of June, 1932, when the evidence of all witnesses, who could throw any light on the question, was taken.

The two trains involved in the collision were No. 211 and No. 53, both third class trains. No. 211 consisted of two box cars and a passenger car with a baggage compartment in the forward end, and an engine with a snowplough ahead of it. She was due to leave Summerside at 12:01 p. m. o'clock and reach Tignish at 6 p. m.

No. 53 consisted of three coaches and two engines with a snowplough ahead. She was due to leave Charlottetown at 3:40 p. m., Summerside at 6:35 p. m. and arrive in Tignish at 10:15 p. m.

## Declares Free State Heading Toward Revolt

DUBLIN, Aug. 5.—(By The Canadian Press Cable)—The Daily Telegraph approved President De Valera's emergency estimate of \$8,000,000 to aid commerce and industry which has been dislocated by new tariff barriers between Great Britain and the Free State.

After a spirited debate in which opposition members declared the Free State is heading fast for revolution "accompanied by bloodshed and violence," the Lower House divided 58 to 42 in favor of the government proposal and adjourned until October 10.

President De Valera rejected a suggestion advanced by Sir Thomas Inskip, the British Attorney-General, in a speech at Stranraer, Scotland, yesterday, that the door still stands open for arbitration of

## Canadian Circles Are Optimistic

(By R. K. Carnegie, Canadian Press Staff Writer.)

OTTAWA, Aug. 5.—Canadian circles are very optimistic as a result of the conversations which have been going on during the past two days among the delegations to the Imperial Economic Conference. "Things certainly look much better than they did last week at this time" was the way one of them put it.

One proposal that seems to be well received by the British delegation is that there be free trade between Canada and the United Kingdom in automobiles. It is believed that this would open quite a market in this country for British cars, particularly of the higher prices and the very small ones, other of Canada's proposals are also viewed with favor it is asserted.

In the matter of the request from Canada for preferences in the British market the two delegations do not seem to be so far apart. Canada of course is pressing for a preference on wheat and is joined in this by Australia. This does not seem to be meeting with much favor. The British are said to be opposed to giving any preference particularly to the extent of five or six cents a bushel. A quota may be offered as a substitute. Whether

## Ramsay Lands In Ireland

BELFAST, Northern Ireland, Aug. 5.—(A.P.)—A seaplane bearing Ramsay MacDonald, Prime Minister of Great Britain and Lord Londonderry, Secretary of State for Air in the British cabinet, alighted in Belfast this evening. The two men motored to Lord Londonderry's home at Mount Stewart.

No political significance was attached to the Prime Minister's visit as Viscount Craigavon, the Prime Minister of Northern Ireland, and Hugh M. Pollock, the Finance Minister, are not in Ulster.

## THOMAS' LIFE THREATENED IS REPORT

### Rumor That Well Known Sinn Feiner In Hamilton Seeks To Assassinate Foreign Secretary.

TORONTO, Aug. 5.—(By The Canadian Press)—Along the route of Imperial Conference delegates' journey to the ceremonial opening of the Welland Canal tomorrow, Canadian police today stood guard against "a Sinn Feiner of the most radical type," stated to have avowed intention of shooting J. H. Thomas, British Dominions Secretary and one of the leaders of the British delegation to Ottawa.

While Mr. Thomas sat quietly at the Capital, planning for his departure tonight for the canal-opening, rumors circulated at Hamilton, where the main body of the touring delegates was visiting industrial plants, that an attempt was to be made on his life. Several arrests were made at Hamilton and Toronto on vagrancy charges, following telegraphed instructions from

## Sad Fatality At Wheatley River

A sad fatality occurred at Wheatley River yesterday afternoon when the 11 year old son of Mr. and Mrs. Augustine DesRoches was drowned in Ruckham's mill stream while fishing. The boy had left home about 10 o'clock in the morning, and had gone fishing below the mill dam. He was last seen about 12 o'clock by Mr. John Wheat, Wheatley River, who was also fishing.

About 3 o'clock two lads, the sons of Mr. Robert Stevenson, went to the stream to fish, and saw the body floating in the water. Mr. Ruckham, who was working in the mill, was called, and removed the body from the water. The unfortunate boy had apparently been fishing from the end of a log in a deep pool, the bottom of which had been scoured out by the eddy current.

An inquest into the cause of death is being held.

## In Commercial Life

KAISER'S GRANDSONS IN UNITED STATES  
Prince Louis Ferdinand (LEFT) and Prince Frederick August of Prussia, grandsons of the ex-kaiser, are shown at the home of Foultny Bigelow, close friend of the former German ruler, at Malden-on-the-Hudson, N. Y. Prince August, who arrived on the Bremen, will be driven to Detroit by his brother, who has long worked at the Ford factory.

## Parley To Enter Bargaining Phase After Week-End

### British Counter Proposals, In Reply To Dominion Offers, Expected On Monday.

(By George Hamilton Canadian Press Staff Writer.)

OTTAWA, Aug. 5.—Great Britain now has the complete picture of Dominion offers and requests. All with the exception of the Irish Free State, have submitted their proposals. Over the week-end, British experts will be examining them, weighing the pros and cons. On Monday, British and Canadian delegations meet again. Then, it is expected, the British will indicate what modifications they desire, what concessions they are prepared to make in return.

So far, it is authoritatively intimated, the British have made no counter-proposals.

(Continued on Page 10)

## Will Carry Conference Mail From Welland

NIAGARA FALLS, Ont., Aug. 5.—(By The Canadian Press)—Striving for another record in air mail delivery a plane will speed away from lock number 6 of the Welland Canal tomorrow afternoon with letters from United Kingdom delegates to the Imperial Conference.

Tomorrow the Empress of Britain sails from Quebec for England. She will be far on her way before the pursuing plane from the Canal zone will overtake her and transfer the mail. By air and sea the conference mail will be carried as speedily as possible.

## Mackerel Cause Mild Senation

(Canadian Press)

NEW YORK, Aug. 5.—A well-stocked trout stream on a preserve in Canada? A tarpon run off the Florida west coast? "pooh," New Yorkers could say today. For right in their own dirty harbor, where ferries chug Jersey commuters back and forth and tooting tugs bully big ocean liners around, thousands of mackerel teemed in the sea.

It didn't take fishermen long to find out about it, either. Hordes lined the bank in the vicinity of the quarantine station and pulled in fish as fast as they could throw out their lines.

Hungry bluefish chased them in, some authorities said. Others blamed sharks.

## Terrorists Will Be Punished With Death In Germany

### Von Hindenburg Decree Would Impose Full Force Of Its Power Upon Those Responsible With Recent And Present Disorders.

BERLIN, Aug. 5.—(A.P.)—Six weeks of bloodshed and violence among Germany's political parties has brought the government to the point of issuing a decree which would impose the full force of its power upon those responsible for the trouble.

President Von Hindenburg, no stranger to battle, is understood to have prepared a decree which would impose the death penalty for extreme acts of violence. It was said that we had submitted the document to the Ministry of Justice with instructions to go over all its phases to insure its legal efficacy.

Because the worst of the trouble has been in east Prussia, Rudolf Diels, Counsellor to the Prussian Ministry of the Interior, was appointed special commissioner to day with orders to proceed to Koensberg immediately to investigate the situation.

Franz Bracht, Federal Commissioner for Prussia, published figures this evening which showed that between June 1, and July 20, 74 persons were killed and 497 were

(Continued on Page 10)

## Conference Activities

OTTAWA, Ont., Aug. 5.—(By The Canadian Press)—The visitors to the Imperial Economic Conference will have the opportunity tomorrow afternoon of visiting the central Experimental Farm at Ottawa. The Minister of Agriculture and Mrs. Robert Weir have issued invitations to a garden party to be held on the lawn at the farm and a large attendance of Empire visitors and members of Ottawa's official circle is expected. More than 4,000 invitations have been issued.

In 1884 the preliminary investigations leading to the establishment of the Experimental Farms branch of the Department of Agriculture began when a committee of the

## Growers Have Diverse Opinion

FREDERICTON, N. B., Aug. 5.—(By The Canadian Press)—The question of the advantage to Canadian potato-growing sections of removal of the embargo on Canadian potatoes now in force in Great Britain, had produced diverse opinion in New Brunswick, some shippers believe that the embargo should be removed. Others say the opposite.

The supporters of the removal argue that it is discrimination against Canadian potatoes and that the removal would give Canada a chance to enlarge markets on the other side the claim is advanced that cost of production in Great Britain are lower and yield greater with the possibility of British potatoes being imported into Canada or into markets supplied by Canada during periods of low process.

WOODSTOCK, Aug. 5.—Indications are for an average yield per acre for potatoes in this district, according to local growers. The crop so far has not suffered from the continued rains, as the weather has been mainly cool. Hot, muggy weather in the next few days would be likely to cause blight, however.

Grain crops are maturing rapidly and are showing signs of ripening. It is expected they will be ready for cutting before the last week in August.

Continued wet weather has held up haying. Some of the farmers have their hay all gathered but others still have considerable to do. They received a further setback this week from a heavy downpour last night and today.

## "Reds" Will Be Deported

QUEBEC, Aug. 5.—(By The Canadian Press)—As a result of the concerted action of the Quebec Attorney General's department with the Federal authorities a number of known Communists will be deported from this country in the very near future. It was learned at the Parliament Buildings today. The Reds to be deported are those who are at present incarcerated in the Quebec Jail, following their conviction for the part they played in the Rouyn riots several months ago, and a number of others who escaped into Ontario at the time, are being rounded up by officers of the Royal Canadian Mounted Police.

Among those who have been ordered deported by the Federal Government are Stephan Pavlich, William Simergo, Lauri Renko, Emil Sulsa, Kalle Simolo, Will Maki and Paulo Sycherbay.

## NEXT YEAR'S SHIPMENTS OF CAN. CATTLE

OTTAWA, Aug. 5.—(By The Canadian Press)—Less than 24,000 head of cattle would be shipped to the United Kingdom next year from Canada even if the restriction now imposed against Canadian cattle landing in Britain were lifted. This estimate was made in an interview today by Hon. Robert Weir, Canadian Minister of Agriculture.

Livestock experts today explained that whereas at one time many years ago Canada shipped around 100,000 head annually, to Britain conditions have much changed since then. The domestic consumption has greatly increased. Thus the tastes of the British buying public have changed. In those days cattle up to four years of age were shipped across the Atlantic. Now however, the British beef-eaters want smaller cuts and cattle of two years and under are those required. This limits the number of cattle that Canada can supply.

During the last fiscal year ending March 31 last Canada shipped to Great Britain 28,734 head of cattle. She shipped to United States 354 head of beef cattle, 5,139 pure bred cattle, 5,463 dairy cattle and 16,421 calves.

Until two years ago when the exceedingly high tariff was levied by the United States against Canadian beef cattle nearly the entire sur-
