CLEANING AN OCEAN LINER.

Not many people are aware that during the few hours a great ocean liner remains in dock she is cleaned thoroughly inside and out. The hull is repainted, the funnels scraped and cleaned, and every piece of exposed metal polished. Meanwhile all carpets are taken up and beaten, the floors scrubbed and repainted, and tables polished, chairs regilded and stained, in every part of the ship. On the great boats there are more than 10,000 pieces of linen to be counted, sorted, prepared and laundered. Then there are 15,000 pieces of silverware, 25,000 pieces of glassware, some 60,000 dishes, plates, saucers, etc. As soon as a vessel shows signs of wear it is discarded and replaced, and all this work has to be done in a few hours.
