Sees Prospects Of Huge Development In Oyster Industry

(Montreal Standard) The striking statement that the plans of the Dominion Fisheries Department are designed to promote oysters in the waters of Prince Edward Island more than equal to the value of the agricultural yields of the island province, which ranges from \$12,000,000 to \$17,000,000, was made by Hon. E. N. Rhodes at the annual convention of the Canadian Fisheries Association.

What additional importance, such a development would give to the fisheries of the Maritimes may be gathered from the fact that the annual value of the fish catch of Nova Scotia has seldom exceeded \$12,000,000, while the present production of oysters in Prince Edward Island is only about \$50,000 and less than \$100,000 for the three Atlantic provinces. The oyster fisheries of Malpeque Bay on the northern part of P. E. I. which were once of great importance, were destroyed a dozen years ago by a disease brought in by imported oysters. Little or nothing has been done to restock the oyster areas, owing to a wrangle over jurisdiction between the Dominion and Provincial Governments. But an agreement has been reached by which the Dominion Fisheries Department has been given control of the oyster fisheries of Malpeque Bay and other areas suitable for the production of oysters, and the work of rehabilitating the depleted areas will be undertaken on a large scale.

SOME 5,000 acres in P. E. I. waters are known to be adapted to oyster farming. It has been demonstrated that with scientific cultivation a much greater yield can be obtained than from oyster beds in their natural state. In his estimate of a possible yield of \$12,000,000 or over from the oyster fisheries of Prince Edward Island in ten years, Mr. Rhodes figures on a production of 200 barrels per acre, which at \$12 a barrel would give a value of \$12,000,000. Oysters sometimes bring as high as \$18 a barrel.

FIRE SATURDAY—At 2.15 on Saturday afternoon the fire department was called out to a blaze at the barn of Mr. Dominic Doyle, Spring Park Road. The fire was extinguished without much damage resulting. It is thought that the fire was caused by children playing with matches. A few minutes after the firemen had returned to the station, an alarm was given for a fire at 61 Pownall St. On the way to the latter fire, the engine was turning the Bank of Commerce corner, when Michael Hennessey, five-year-old son of Mr. and Mrs. Frank Hennessey suddenly stepped in front of the machine and was knocked down. Had it not been for the presence of mind of the driver, Mr. Jack Large, the accident might have been more serious. As it was Mr. Large applied the brakes and swerved the car to one side so the child was unhurt.

MADE BIG SHOWING—Prizes won by Mr. Harold Stead, at the Chatham, N. B. Exhibition, were in Jersey cattle, fifteen firsts, four seconds, two thirds. All champions.

NICHOLSON—At 21 Kent St., on Sunday, Sept. 27th, Miss Christine Nicholson, aged 78 years. Funeral from her late residence on Tuesday, Sept. 28th, service starting at 2 o'clock, funeral leaving at 2.30. Interment, Peoples' Cemetery. Please omit flowers.

CAUSED ANXIETY—Much anxiety was caused by the disappearance of Dorothy Welsh, from her home 96 Sydney St., on Saturday about 4 o'clock. On Sunday afternoon her disappearance was announced over the radio. She was found later in the afternoon at the home of one of the neighbors.

SACRED CONCERT—A recital of sacred music was given in St. Peter's Cathedral last night, the recitalists being Mrs. Kenneth Richards, soprano, and Mr. Walter MacNutt, organist. The program consisted of a number of vocal and organ solos magnificently rendered. Both musicians are well known to Charlottetown music lovers and are to be commended on their excellent program last night. The program consisted of the following selections: Bach Group, Organ; Old French Carol, Vocal Solo, Evening Song (Schumann) Organ Solo; Care Selve (Handel) Vocal Solo; Consolation, No. 4. (Liszt); Organ solo; In the Time of Roses (Beichardt); Vocal Solo; Benedictus (Max Reger) Organ Solo; Pans Angellous (Casar Franck), Vocal Solo; The Holy Boy (John Ireland), Organ Solo; Going Home (Dvorak), Vocal Solo; Hymn, Vocal Solo.

ON HOLIDAY VISIT—Rev. H. R. and Mrs. Bell, East Point, are spending their holidays with Mrs. Bell's parents, Mr. and Mrs. C. A. Stevenson, New Glasgow. While here Mr. Bell has been giving some very interesting lectures in different communities. On Wednesday evening, Sept. 23rd, he lectured in Kingston Hall, to a large audience, which were greatly interested in his address, which was so instructive and humorous. Mr. Bell, who is a very eloquent speaker, also possesses a talent for singing and favors his audience each night with vocal selections, which are greatly appreciated. Special mention may be made of a young Dane, who lives in the vicinity of Kingston, who was present and sang a solo. Miss Ruth Dickson, New Glasgow, was organist for the evening.—N.

A yield of 200 barrels per acre is not large as compared with the production of some American oyster farms. In the state of Connecticut oyster farms have yielded as high as 800 barrels per acre in a year. The anticipated production of \$12,000,000 worth of oysters will raise a considerable marketing problem, unless the Canadian population increases in the next ten years at an extraordinary rate, or there is a much bigger distribution of purchasing power among the masses to enable them to add large quantities of oysters to their diet. The imports of oysters in the last few years have not exceeded \$400,000 and the home production being about \$100,000, the present Canadian consuming capacity for oysters is only about half a million dollars. However, with the anticipated production there might be a very considerable export to Great Britain and other countries, and oysters would be cheap anyway.

FIRE SATURDAY—At 2.15 on Saturday afternoon the fire department was called out to a blaze at the barn of Mr. Dominic Doyle, Spring Park Road. The fire was extinguished without much damage resulting. It is thought that the fire was caused by children playing with matches. A few minutes after the firemen had returned to the station, an alarm was given for a fire at 61 Pownall St. On the way to the latter fire, the engine was turning the Bank of Commerce corner, when Michael Hennessey, five-year-old son of Mr. and Mrs. Frank Hennessey suddenly stepped in front of the machine and was knocked down. Had it not been for the presence of mind of the driver, Mr. Jack Large, the accident might have been more serious. As it was Mr. Large applied the brakes and swerved the car to one side so the child was unhurt.

MADE BIG SHOWING—Prizes won by Mr. Harold Stead, at the Chatham, N. B. Exhibition, were in Jersey cattle, fifteen firsts, four seconds, two thirds. All champions.
