WALDORF ASTORIA AS SECURITY

For the Appearance of Prominent Canadians in Court at New York—They had been Acting Boisterously and were Arrested there—The Security Accepted.

New York, April 27.—(Special)—The Waldorf Astoria was today offered and accepted as security for the bail of three prominent Canadians, Wm. Gallagher, M.P., of Ottawa, Jas. McDonald, millionaire of Montreal and Brant Morden, also millionaire of Montreal.

These were the names they gave. They were arrested on the train in the depot for singing boisterous songs and acting in a disorderly manner.

THE WESTERN TERMINAL OF THE G. T. P.

Splendid Ocean Approaches and Magnificent Harbor Will be the Site of a Big City in Days Not Far Distant.

Victoria, April 26.—It is learned on the authority of one who is close to the government that an arrangement has already been made which practically settles the question of the Pacific terminals of the Grand Trunk Pacific.

It is an Island only at high tide, being separated from the main land at that period, but when the tide is out it is a peninsula. The harbor is said to be the best and the approaches from the ocean and protection of the harbor as good as can be desired.

Under the terms of the British Columbia Act at present one quarter of the proceeds of town site lands placed on the market go to the Provincial Government, so that the province will benefit to that extent by the building of a city there, in addition to the sum already received as purchase price. If not used for a town site before one year from December 1st, the land once more reverts to the province and the company forfeit the money already paid over.

TEN MILLION DOLLARS ANNUITIES FOR TEACHERS

Immense Gift by Andrew Carnegie to Provide for Retired Professors Money invested in Five Per Cent First Mortgage Bonds of the United States Steel Corporation—The Terms of the Great Philanthropist.

New York, April 27.—(Special)—A gift of ten million dollars by Andrew Carnegie to provide annuities for College Professors who are not able to continue in active service was introduced today by Frank A. Vanderbilt, Vice President of the National City Bank of New York.

ANDREW CARNEGIE

Professors in the United States, in Canada and in Newfoundland will share in the distribution of the income of the fund.

United States Steel Corporation five percent first mortgage bonds for ten million dollars have been transferred to a Board of Trustees and steps will be taken at once to organize a corporation to receive the donation.

Dr. Pritchett, President of the Massachusetts Institute of Technology and Mr. Vanderbilt have been selected by Mr. Carnegie to obtain data on the subject to be presented at the first meeting of trustees which will take place on November 15 next.

Mr. Carnegie's letter to the trustees explaining his idea is dated April 18th and is as follows:

"I have reached the conclusion that the least rewarded of any of the professions is that of the teacher in our higher educational institutions.

"New York City generously and very wisely provides for Teachers in her public schools, and also for her policemen.

"Very few indeed of our colleges are able to do so. The consequences are grievous. Able men hesitate to adopt teaching as a career and many old professors whose places should be occupied by younger men cannot be retired.

"I have therefore transferred to you and your successors as trustees, ten million dollars five per cent first mortgage bonds of the United States Steel Corporation, the revenue from which is to provide re-

tiring pensions for the technical schools in our country, Canada and Newfoundland under such conditions as you may adopt from time to time.

"Expert calculation shows that the revenue will be ample for the purpose.

"The fund applies to the three classes of institutions named without regard to race, sect, creed or color. We have however to recognize that state and colonial governments which have established or maintain and support universities, colleges or schools may prefer that their relations shall remain exclusively with the State.

"I cannot therefore presume to include them. There is another class which states do not aid, their constitutions in some cases even forbidding it, namely sectarian institutions.

"Many of these established long ago were truly sectarian, but today are free to all men of all creeds or of none.

"Such are not to be considered sectarian now. Only such as are under control of a sect or require trustees (or a majority thereof) officers, faculty or students to belong to any specified sect, or which impose any theological test are to be excluded from the benefits of the fund.

ISLAND FREIGHT RATES DISCUSSED

In the House of Commons—Mr. Martin Says that they are Extortionate and wants the Case Referred to the Railway Commission.

Ottawa, April 27.—(Special)—The proposal to refer the report of the Agricultural Committee on freight rates to the Railway Commission was discussed today.

Ontario members showed that the trade of that Province was seriously handicapped by the excessive freight rates.

NARROW ESCAPE FROM DROWNING

Of a Young Lad in the Harbor Yesterday Afternoon—Drifted from Shore on an Ice Cake.

A narrow escape from drowning and an incident which caused considerable excitement occurred at the shore near Victoria Park yesterday afternoon about 5 o'clock.

Heath McLeod, the eight year old son of John McLeod, city, with another lad had been playing at the shore near the range lights at Brighton. Young McLeod was paddling along the shore on an ice cake and when a few yards from land the stick he was using to move the ice cake broke and he was unable to reach the shore again.

A strong tide was running out and the lad was rapidly carried out to sea while his companion who was about the same age was powerless to aid him. Further and further from the shore the boy drifted and there was no aid at hand.

In desperation his comrade ran towards the city for assistance and soon the alarm was given to Rev. S. J. Woodroffe, W. S. Louson, Ernest A. Foster, A. S. Walker, the representative of J. & J. Taylor, Toronto and others who hurried to the assistance.

Caretaker McQuillan who was at the shore near Fort Edward hastened to Brighton to telephone to the city, and others tried to attract the attention of a boat near Connelly's wharf.

Finally aid was secured and two crafts, one a row boat coming down West River and another a sail boat from the city hurried to the rescue.

Meanwhile the spectators had helplessly watched the boy who had become a mere speck on the water, about a mile from shore, and every moment expected him to sink from view. After about an hour he was taken on board the sailboat and landed at Connelly's wharf, frightened, cold, and trembling, as the result of his experience.

SOURIS ENDORSES TUNNEL PROJECT

At a Meeting that Crowded the Hall Last Night—The Delegates Tell of their Ottawa Trip.

The mass meeting in Souris last night to hear the report of the Ottawa Delegates completely filled the hall and standing room was at a premium.

C. H. S. Sterns, President of the Souris Board of Trade presided. Father Burke, J. E. B. McCreedy and Capt. Read addressed the meeting detailing their trip to Ottawa and the general feeling there as well as throughout Eastern Canada in favor of the Tunnel.

The following resolution moved by John McLean, seconded by Thos. Kieckham and supported by Rev. Father McDonald and J. G. Sterns, was unanimously carried:—

Resolved that the thanks of the citizens of Souris and of the eastern portion of King's County be tendered to Rev. Father Burke, Joseph Read, J. E. B. McCreedy and Neil McQuarrie, K. C., for their able presentation before the Federal authorities at Ottawa of our claims for more satisfactory winter communication with the mainland and for their successful endeavor to enlist the support of the Boards of Trade of the other Provinces in our demand for the construction of a Tunnel under the Northumberland Strait as the only complete fulfillment of the terms of union.

It was acknowledged by Father Burke, Capt. Read and Mr. McCreedy.

PREMIER MEETS VETERANS.

OTTAWA, April 25.—Sir Wilfrid Laurier has promised to meet on May 5th, a deputation of representatives of the Veterans Association '06-'70, of Montreal and Ottawa and confer with them as to the feasibility of giving them a Dominion land grant.

Mrs B. E. West, milliner with Matthew & McLean, went to Souris yesterday.

Rev. A. J. Frosser, pastor of Waterloo street Free Baptist church, who is secretary of the New Brunswick Free Baptist conference, said last night that he and Rev. A. E. McIntyre, who is in a same capacity with the N. B. and P. E. I. Baptists, had about arranged for placing of some twenty students in the missionary field in the maritime provinces at an early date probably about June the first when there will be a number of graduates available for the purpose. This is taken to indicate that the union of the Baptists and Free Baptists has been practically accomplished as the students will cover jointly over the Baptist and Free Baptist circuits.—St John Telegraph.

CARTERS' (choice) EVERGREEN LAWN GRASS SEED

To quickly secure a permanent rich green grassy carpet, sow our Evergreen Mixture. It is the purest, cleanest and heaviest Lawn Grass Seed offered. No weed seed. A beautiful lawn can be had in six or eight weeks by sowing this mixture. Quantity required per acre (4,840 square yards) 80 lbs.; or for a plot 20x20 feet, 1 lb. Per lb. 25c; postpaid 30c; 10 lbs. \$2.20, postpaid \$2.70.

Our Lawn Grass Seed is American grown. The different grasses composing the Mixture are imported separately and blended in the proportions and after the formula of a celebrated American Lawn Mower.

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine, dwarf-growing, evergreen varieties, hardy, and will stand a long season of dry weather. The ground for a new lawn should be a rich mellow soil, perfectly free from weeds. Sow the Seed as early in the Spring as possible, roll the ground perfectly level; the grass should be cut often, and never allowed to attain a length of over three inches.
