This joyful news ends the sorrow of the past few days and will be shared as the sorrow was, by a large circle of relatives and friends. It appears from the telegram received yesterday that Lieut. A Thousand Sticks of Dynamite Exploded At Various Points Of Prince Edward Island

It seems to be necessary that at least a thousand sticks of dynamite should be exploded at various points in Prince Edward Island in the same manner as is occurring in other parts of Canada before the Fathers, Mothers, Sisters, Wives and the young men of Prince Edward Island will realize that there is a War going on, in which they must take their part.

Every Citizen Must Back Us Up And Assist in the Work of Recruiting

That is common sense as well as doing your duty. In Prince Edward Island our efforts have been entirely hap-hazard and we want you to realize that this is not a War to be played with on the hap-hazard principle. Major P. R. Hanson, speaking in Montreal recently. Says conscription will come in Canada. Are you going to wait for it? or, are you coming with the Prince Edward Island Heavy Battery?

Every Able-Bodied Man Here Will Undoubtedly go to the War before the end

And going to the War is not pleasant even when conditions are such as they will be in the Heavy Battery (the best possible) but all you men should realize and your own common sense will force you to realize that when you are forced to go nobody is going to care very much about your conditions and you will not have the respect of either yourself or your officers.

Enlist to-day don't be a Coward Many Heroes have already Volunteered WHERE ARE YOU?

Yes Sir! many men and many officers have already volunteered for the Heavy Battery, Why? because they fully realize that with a full battery of 217 men and officers all from Prince Edward Island they will have someone always to look after them, friends in time of need, they will be trained together, sleep together, eat together, fight together and for each other. One large family to whom the honor of P. E. Island is entrusted.

The Schools, the Colleges, the Churches of Our Land Must Pour Out Supplies of Soldiers

They are factories that produce the men, the country needs at this juncture—men of character, conscience, seriousness, stern, set, determined men—men who hate War and fight all the harder because they hate it—men who go to the War not as an adventure but as the most solemn and instant of duties. This is the kind of men the Heavy Battery requires.

It Takes Six Months To Train A Heavy Battery Thoroughly

As soon as the required number of heroes are obtained this training will be started in Charlottetown and will be continued there for some months, then it will be finished in Halifax or Valcartier and Petewawa, then the finishing touches will be done in England. This course of training will make every officer every non-commissioned officer and every gunner proficient and expert in his work.

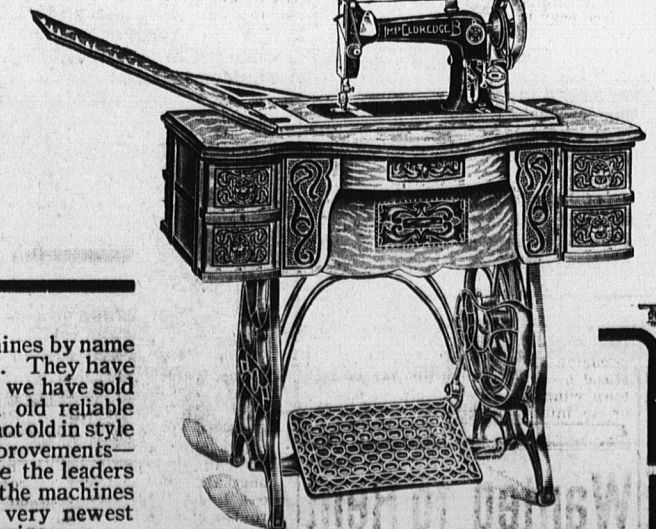

The Great Question Is Why Is He Not At The Front?

Ask it of yourself, why? WHY? You ought to be, the (slacker) will have a hard time in Prince Edward Island and he ought to have a hard time everywhere. Make your decision at once, come in and enlist in the Heavy Battery we are organizing. Apply to the undersigned officers who are going to the front with you and who will not send you into any danger where they will not go themselves ahead of you. It is up to you. God save the King.

Capt. W. B. Prowse, Lieut-Col. A. G. Peake, Charlottetown, Charlottetown. Capt. No. 2 Heavy Battery for Overseas Service. Comng. No. 2 Heavy Battery. for Overseas Service.
