ABNEY.—The teacher, Miss Anna May Hoberlin, who up to the present, has been faithfully performing her duties, is now hindered in her work on account of a very bad cold being prevalent among her pupils. Miss Hoberlin deserves encouragement for the good work she is doing.—Mr. Harper of the firm of Fred McGee & Sons, Elgin passed through this district recently, calling on his fishermen.—Mr. Lawson of Uigg, P. E. I., who has been visiting at Abney has returned home. While here, he was the guest of Mr. Wm. YATES—YOUNG.—Mr. Robert E. Yates and Miss Vivian Alice Young, both of Kingsboro, P. E. I., were married at Kingsboro on the evening of March 26th. Rev. W. R. MacWalker performed the ceremony in the presence of a few intimate friends at the home of Mr. and Mrs. Merrill Stewart—uncle and aunt of the bridegroom. After the ceremony a wedding supper was served. Mr. Yates is one of Kingsboro's young men who is active in the life of the community and his many friends congratulate him in that he has learned the truth of the words: "He that findeth a wife findeth good and the favor of the Lord." A few years ago, when the call of King and Country came, Robert donned the khaki in the spirit of the genuine Canadian, thus showing that he considered citizenship not only a privilege to be prized, but one to be deferred, as well. Miss Young is a daughter of Howard and the late Mrs. Young, and she also has a large place in the hearts of her friends, who prize her for her genuine worth and who are heartily glad that her marriage has not removed her from her native village. "Many years of wedded bliss" are the words that spring from the hearts to the lips of their many friends.—(Patriot please copy.)

INSIDIOUS EYE STRAIN. We use this adjective advisedly. Sufferers from Eyestrain may have a sensation and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy. Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.

#### MR. HOWARD MacFARLANE

We record with deep regret the death of Mr. Howard MacFarlane, who passed away at his residence in Penwood on Wednesday morning at the early age of 51 years after a short illness of pneumonia, following acute Bright's disease. The deceased was one of the leading farmers and most prominent men in the community, which will miss him very sadly, as he was the soul of honor, one who was looked up to by all and whose counsel was universally sought upon all matters pertaining to the welfare of the district.
