The happy couple left the following morning on a short trip to Halifax and other Maritime Province towns.

P. B. A. MEETS.—At meeting of the Provincial Breeders' Association was held in the Agricultural Hall on Thursday, July 3rd. The president, Bertam Brown, presided. A large number of the members were present. The secretary was able to report several additions in membership to the club. Matters of importance to the interest of the Ayrshire breeders of the province were discussed. Special emphasis was again laid on the necessity of keeping the herds free from disease, and the advisability of importing pure bred stock to the province to supply the increasing demand for Ayrshire cattle. It was finally decided that importation should be made this autumn, the number to depend on the applications received from breeders prior to the time of importation, the definite date of which will be announced later. The privilege of importing through the club is not limited to the members. Breeders of Ayrshires who contemplate increasing their herds should apply at once to the Secretary, Major McEae, East Royalty.

ACCIDENT AT KENSINGTON RACES.—With reference to an item in Tuesday's Guardian about an accident at Kensington races it is only fair to state that there was no runaway. Ed. Laconda in the third heat of the three minute class was next in lead to the first horse. The first horse tripped and fell and Ed. Laconda jumped over his sulky colliding with that of the fall-horse, his driver falling from the sulky. Ed. Laconda continued his race without a driver making the circuit of the track three times, still believing himself to be in the race. He was caught by Major Hooper.

Requisite on the Farm—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

FOX MEN ATTENTION
 Experts tell us young foxes require bone meal. The safest and most satisfactory way in which it can be fed is by feeding the IMPERIAL FOX BISCUITS. These Biscuits contain a good percentage of fats, both animal and vegetable, and, when fed in skim milk, produce excellent results. Be sure IMPERIAL FOX BISCUITS form a large part of the diet of your growing foxes this season.

FOX MEN
 I am in a position to impart to you after experimenting for three years how to prevent diarrhoea and dysentery trouble in young fox pups, thus minimizing your losses and reducing the mortality. It is in the art of feeding. I have been using for a period of three years Shredded Wheat and found without a doubt the best food obtainable giving best results and minimizing the cost of feeding.
 I have a shipment due to arrive any day of about three tons and will be glad to receive applications in lots of 100 lbs. and over. The Shredded Wheat is packed in bags, accurate weight; fully 35 per cent cheaper than any biscuit on the market, easy digestible, no trouble and an absolute saving. Some of the largest ranches are using same on my recommendation and each and every statement made can be corroborated. For your own good drop me a line or call and see me I will tell you more about it.
