

Summer finds the war in Europe and Africa expanding its scope of action, sweeping into the six arenas of conflict shown on map. Massed British bombers are raiding the Rhine-Ruhr and other industrial areas of western Germany. In the Balkans, activity is both in the air—with U. S. bombers raiding Rumania—and "underground." On the four other fronts, active axis-allied fighting goes on. Distances are from the centers of action in each circle. Size of rings does not indicate intensity of conflict.

Montreal Exchange

MONTREAL, June 24 (CP)—New taxation proposals, war news and the St. Jean Baptiste Day holiday combined to produce lower price levels and restricted volume today in stock exchange and curb market trading. At the end of the session no stocks had advanced. Newsprints were the greatest group sufferers from the earlier trends on the stock exchange, losses up to a point being posted by St. Lawrence Corporation, common and preferred, Howard Smith and Bathurst. Among other industrials and Canadian Bronze were in lower ground. Dominion Bridge in odd lots was ahead temporarily. Noranda, Consolidated Smelters and International Nickel edged down fractions in metals and Elliot was softer in mines. Imperial lost an early gain in oils. Montreal Power and Quebec Power shifted back in utilities. C.P.R. and Canada Steamship preferred showed decreases in carriers. In arrears in miscellaneous were Canadian Celanese, Distillers-Sea-grams and National Breweries. Total sales: 4,600 shares; Industrials, 3,700; Mines, 900.

After she had been blasted with torpedoes and bombs, during the great Midway Island battle, a Navy flying photographer skimmed alongside and took this photo of the hulk of a Jap Mogami-class heavy cruiser. At left is her battered bridge, behind it the remains of her funnels. (Official U. S. Navy Photo from NEA)

It's a shame to mess up a nice 8500-ton cruiser like this, Mr. Moto, but you Japs sorta asked for it, didn't you? And U.S. Navy carrier flyers tested the ship's hot manufacturers. One of the ship's torpedoes can be seen hanging into the water, from the tube amidships. Mass of white on deck at right is crowd of Jap sailors, huddled in stern to get away from the intense heat. Burning fiercely, crippled and out of control, this Mogami-class cruiser, one of Japan's best, wallows helplessly in the Pacific after the U.S. Navy has given her a going over from torpedo planes and bombers. These ships usually carry a crew of 850 officers and men.
