AN APPRECIATIVE LETTER

Comm. City.

Dear Sir:

The sale of Tuberculosis Xmas Seals by mail is yielding gratifying results, not only in cash, but in the generous spirit of the letters accompanying the remittances. The following is an example. Mr. D. A. MacKinnon, Treas. Tuberculosis Seal Sale

I take much pleasure in enclosing \$1.00 for seals received, as I consider this campaign a worthy one, and should receive the support and approval of everyone on P. E. Island. Hoping this year's sale of seals will be greater than any previous year, I remain, Yours very truly.

—QUIET WEDDING. — A quiet marriage ceremony was performed by Rev. W. H. Harding at his home on Belmont St., Summerside, when Mr. Robert McLaurin of Enmore and Miss Vera Ford of Mt. Pleasant were united in marriage on Wednesday, Dec. 11th. The young couple will make their home at Enmore, where the groom is a successful farmer. A host of friends wish them every happiness.—S.

—CHRISTMAS PRESENT FOR KING GEORGE—The Antigonish Casket reports that Miss Mary Ann Goo-Goo, a dusky maiden of the Micmac Indian tribe of Sydney, C. B., has forwarded a pair of beaded moose hide slippers to the King. The lowliest of his subjects may address His Majesty. Truly we are living in a democratic time and place. Would some kind person supply a suitable Latin or French quotation—if there are none applicable, make one. K.

—GOOSE BONE SCIENCE—Those who remember the winter weather prediction of Mr. John Bowness of Bedeque, recorded in the Summerside Pioneer about six weeks ago, read from a large bone of a domestic goose, will conclude that Mr. Bowness is a bit of a scientist in his own way. His reading has proved true thus far. If memory serves us right his last year's reading was correct for the winter. He must have been hitting it right for some time before the Pioneer took notice of him. That journal has the "Bunco Beware" sign hung out all the time. Doubtless Mr. Bowness doesn't know much about Einstein or his plattitudinous theory on relativity, or those bim-bos who calculate with mathematics exactitude how many millions of years it takes light from the fixed stars to reach the earth, but he is certainly achieving fame at reading a goose bone. K.

—The many friends of Mr. Jack Purdy are pleased to see him back and on the job again at the Royal Bank, Summerside, after two months sick leave at his home in Alberton. S.

Announcing My Schedule for This Week

I told you in my letter to you last week that I would try and give you my schedule during my stay here. I find it difficult to arrange my plans for a longer period than a week at a time and so I am giving my schedule up to DECEMBER 14, (SATURDAY) and will follow this with my schedule for the next week.

My Plans For The Coming Week Are—

WEDNESDAY, DECEMBER 11, 10.45 A. M.—Arrive in Summerside from Tignish where I will be met at the station by my Northern Sleigh and Pages. I will then drive round the streets of Summerside returning to Holman's store where I will visit Toyland.

FRIDAY, DECEMBER 13.—I will leave Holman's, Summerside for Charlottetown on morning train. On arriving in Charlottetown I will go to my hotel and will be at Holman's Charlottetown Toyland on Friday afternoon from 2 to 4 P. M. where I hope to meet again all my little friends.

SATURDAY, DECEMBER 14, AT 9.35 A. M.—I will arrive in Holman's, Summerside from Charlottetown, will be met at station, driven through streets to Holman's Store and will go through the store to my Toyland.

SATURDAY, DECEMBER 14, 3.00 P. M.—I will come down my chimney at Holman's Crockery Department tour their store to Toyland, where I hope to spend a happy half hour with all my little friends.

That is all for this week—I will write you again next Monday letting you know just where I am going to be and what I am going to do for that week.

Cheerio!
