INDUCTION SERVICES—The induction service of the Rev. Arthur Long as pastor of the Montague United Church, which was to have taken place on Wednesday evening, was postponed on account of the illness of Mr. Long. H.

POPULAR HOSTESS—Mrs. J. E. Fraser entertained at a nicely arranged tea at her home on Thursday afternoon. The following guests were present: Mrs. I. E. Burden, Mrs. J. A. Johnston, Mrs. W. McLagan, Mrs. W. Fraser, Mrs. McQuarrie, Miss Margaret Campbell and Mrs. Long. H.

Y. P. S. MEETING—The members of the "Beacon" Young People's Society of the Montague United Church, recently entertained their friends at a rink party. A committee, having Mr. Charles Campbell as convener, was in charge of the entertainment and the evening was heartily enjoyed by the large number present. A successful Valentine party also was held some weeks ago in the classroom of the church. This Society has had so far a very profitable year, as well as enjoyable year, having also carried through many important and beneficial Christian projects. H.

SADLY BEREAVED—Mr. and Mrs. Alex J. McLeod, Montague, have received the sad news from their son, Rev. John McLeod, of the death of his little daughter, Annie Jean, at the tender age of one year on February 18. Mr. McLeod is pastor of the United Church at Pierson, Manitoba. The sympathy of his Island friends goes out to him and his family at this time of bereavement. H.

THE FIRST MONTAGUE TROOP of Boy Scouts are very grateful to His Worship Mayor L. H. Coffin, for his splendid talk on citizenship on Friday evening. Mr. R. K. Clements, electrician, gave a very interesting talk on "things boys should know about electricity" at the meeting of the week before, which held the boys in rapt attention. H.

PERSONALS

Mrs. George Thompson entertained the Women's Missionary Society of the United Church at her home on Tuesday evening. H.

The many friends of Mr. Edward Parkman, Montague, will be sorry to learn that he is seriously ill. H.

second year and an open season on Hungarian partridge was also provided for in the proposed amendments. The rabbit season would also be extended to the 15th of February. At present the season is from the 1st of November to the 31st of January.

The meeting passed a motion favoring prohibition of shooting on Sunday. Another motion called for extension of the jurisdiction of the Fish and Game Act to provide additional protection for the beaver. Special game officer Spurgeon Jenkins told the meeting the beaver act did not sufficiently protect the animal.

Tightening of the fish and game act by giving more clear definition of transgressions was also proposed in the committee's amendments. The meeting was presided over by Mr. W. H. Tidmarsh, president of the Fish and Game Association. Another session of the executive is to be held shortly.

The committee which studied the fish and game act consisted of Messrs. W. H. Tidmarsh, A. E. Morrison, D. A. MacKinnon, R. E. Mitch, Earl Ings and Inspector J. Fripps.

Mr. B. C. Vandierne was appointed secretary to replace Mr. J. M. MacFadyen who asked to be relieved of his duties.

STRIKE ENDS

(A. P. By Guardian's Special Wire) NEW YORK, March 13—Six thousand striking building service workers will return to their jobs tomorrow in buildings owned by members of the Association of Metropolitan Building Owners, under an arbitration agreement made with the union, it was announced today.

Have You Lost That Snap? Feel Yourself Slipping?

How many thousands drag on through life with weary step and worn and haggard face who might be strong and healthy but for some constitutional weakness. It should be the aim of everyone to retain the strength, health and vigor of the body, and to fortify the system against attacks of disease. Milburn's H. & N. Pills contain the elements so necessary to create vim, force and energy to run the machinery of the system. Get a box from your druggist. You won't be disappointed.

WARNS AGAINST TINKERING WITH B.N.A. ACT

TORONTO, March 13.—New Brunswick and Nova Scotia should never endanger their precious sovereignty as provinces of Great Britain by putting their heads into the constitutional noose which is being worn by them by advocates of so-called "reform" of the British North America Act, it was asserted here today by Rev. E. J. Springett, commissioner of the British-Israel-World Federation (Canada), on the eve of his departure for a lecture tour of the Maritime Provinces.

No constitutional "reform" which would bring the Maritimes more under the domination of Ottawa, and at the same time weaken the British connection, should be tolerated by the Eastern provinces, Mr. Springett declared. He said he intended to proclaim to Maritimers that not everyone west of Montreal was indifferent to the rights and claims of New Brunswick and Nova Scotia under confederation. Mr. Springett's basic contention will be that the solidarity of the British Empire is absolutely essential to provide leadership necessary for establishment of world peace. Biblical prophecy puts this responsibility on the Celto-Saxon people of the world, he believes, and accordingly the present tendency to tinker with Canada's constitution should be watched very carefully.

Mr. Springett will address a public meeting at the Admiral Beatty Hotel in St. John on Friday evening, March 13, and will attend a meeting and dinner to be held at the Clifton Hotel on Saturday evening. On Sunday he will preach at the evening service in the historic Stone Church and at 9.00 p. m. he will give a public address at the Capitol Theatre.

He will address the Fredericton Rotary Club luncheon on March 17 and a public meeting that evening in the Lyric Hall. Other lectures will be given at Moncton City Hall on March 19 and 20; at Halifax on March 22 and 23; at Sydney on March 24 and 25; and his tour will close at Amherst on March 26.

Flashes On The Rhineland

(Continued from Page 1)

said the positions of the various delegations remain almost deadlocked. These sources described the situation as follows: France is still eager to have sanctions applied against Germany; Britain and even Belgium little favor such drastic action, and Italy remains entirely reserved.

Ottawa, March 13—(C.P.)—Action of the German Consul-General in Canada in announcing the calling of German nationals in Canada to the colors was in accord with ordinary international usage. Prime Minister Mackenzie King told the House of Commons today it was unfortunate the Consul's statement was ambiguous and might be interpreted as applying to naturalized Canadian citizens of German origin.

PARIS, March 13—(A.P.)—A German financial official, a usually reliable source said tonight, is in Paris seeking to persuade France to drop her demand for sanctions against Germany because of the re-militarization of the Rhineland. Emil Goerg von Stauss, third vice-president of the Reichstag and director of the Deutsche Bank, was said to be here as the confidential emissary of Dr. Hjalmar Schacht, German minister of economics and Reichsbank president. This source said the emissary warned Georges Bonnet, French Minister of Commerce, and leading Paris bankers that huge amounts of French capital invested in Germany would disappear if there were a financial collapse in the Reich.

LONDON, March 13—(C.P.)—Germany's occupation of the Rhineland was followed by a heavy run on Berlin banks, the Manchester Guardian reported today. The withdrawals mounted so drastically that by Tuesday the banks refused to honor claims higher than 20 marks (nominally about \$8), it was asserted. "This development does not mean that a panic prevails but does prove that the German public viewed with anxiety the possible consequences of the step," the newspaper declared.

Sometimes Neglected.

Sink strainers should be emptied frequently and washed after each meal after the pots and pans. Neglected strainers are attractive to both mice and roaches, besides giving the kitchen an unpleasant odor and untidy appearance.

Heaviest losses were shown by textiles with Canadian Celanese, Dominion Textile, Penmans Limited and Wabasco Cotton down from one to three points. Bruck Silk slipped 1/2. International Nickel recovered well to finish with a recession of 1/2 after dropping as much as 2 1/2 points. Smelters, unable to rally, lost five points while Noranda dipped a point. Banks turned over heavily and Royal yielded four points while Canadiana and Canada was a point lower each. Bright spot in the utility division

Complete Short Course On Home Economics

The second short course in home economics conducted by the Women's Institute Branch was concluded yesterday. The classes were held in Prince of Wales College and included instruction in home nursing, sewing, handicrafts, and cooking. The teachers were: the Misses, Mona Wilson, R. N., Mary MacDonnell, Annie Ferguson, Louise Hassard, and Elizabeth MacMillan. The young ladies taking the course were: Misses, Thelma Beaton, Bonshaw; Minnie Burke, Fortune Bridge; Evelyn Cairns, Souris West; Jean Carver, Vernon River; Margaret Cousins, Baltic, Lot 18; Rita Easter, North Wilshire; Isabel Ferguson, Bonshaw; Ola Hamilton, New Perth; Helen Maynard, Northam; Mary Moreside, York Point; Ethel Morris, Bedford Station; Anna McEachern, Rocky Point, R. BEATTY TO BE BURIED IN ST. PAUL'S

Body To Be Laid To Rest Beside Jellicoe Close By Tomb of Nelson.

(C. P. Cable By Guardian's Special Wire) LONDON, March 11.—Funeral services for Earl Beatty, whose death occurred last night, will be held at St. Paul's Cathedral tonight, and his body will be laid to rest in the crypt of St. Paul's, where Jellicoe was buried close by the tomb of Nelson. The following reference to Beatty was contained in tonight's court circular: "The King has learned with profound regret of the death of Admiral Earl Beatty, whose inspiring leadership of the Grand Fleet during the latter period of the war won for him the admiration and gratitude of the whole Empire."

Messages of Condolence

Messages of condolence poured in today from many parts of the world, including the French and German governments. One of the first messages was from Queen Mary, who with the late King George always held the naval commander in the highest personal regard. The death creates a parliamentary vacancy in Peckham, for which the Earl's son and successor in the peerage, Viscount Boredale, was member.

Valuable Thoroughbred Poisoned

(C. P. By Guardian's Special Wire) HALIFAX, March 13.—A large quantity of arsenic found in the stomach of "Golden Fancy" outstanding Maritime thoroughbred bought by the late Angus McLean in Kentucky today, definitely established the horse, valued at \$5,000 had been poisoned. Dissection by provincial pathologist, Dr. Ralph Smith revealed the presence of poison. Owner of the prized five-gaited horse, Dr. K. G. Mahabir has offered a reward of \$250 for information leading to the apprehension and conviction of those responsible for the crime. The horse was found dead in the Mahabir stables Wednesday night. Golden Fancy was probably the most valuable horse brought to the Maritimes by the late Angus MacLean of Bathurst, N. B.

Stock Prices Decline On Mt'l. Market

(C. P. By Guardian's Special Wire) MONTREAL, March 13.—European war clouds continued to cast a shadow over Montreal Stock Exchange today and resultant selling led to declines of from one to five points. Wide price downturns were registered by utilities, banks, metals and constructions and textiles. Only a couple of issues managed to work against the general trend and exhibit strength.

Heaviest losses were shown by textiles with Canadian Celanese, Dominion Textile, Penmans Limited and Wabasco Cotton down from one to three points. Bruck Silk slipped 1/2. International Nickel recovered well to finish with a recession of 1/2 after dropping as much as 2 1/2 points. Smelters, unable to rally, lost five points while Noranda dipped a point. Banks turned over heavily and Royal yielded four points while Canadiana and Canada was a point lower each. Bright spot in the utility division

IMPROVED BUSINESS

The Bank of Nova Scotia under date of March 10th, 1936, says: A renewed upward movement was shown by the Cumulative Index of Business in the first month of the year, following upon three months of stability. It reached 89.0 in January, as compared with 87.7 in December, and 85.8 in the corresponding month of 1935. Four of the five component indices contributed to the latest advance. Substantial increases occurred in the Indices of Revenue, Carloadings and of the Rate of Turnover of Bank Deposits, while slight advances were recorded by the Indices of General Industrial Employment and of Wholesale Prices. The Index of the Volume of Industrial Production declined, though less precipitately than from November to December. Contraction in the volume of freight traffic normally experienced by the railways during January was not so great as usual. Consequently, the seasonally corrected Index in the carloadings rose from 67.0 to 70.8. Loading of grain and grain products were particularly heavy for this season of the year. Shipments of coal, which has not been large during the earlier Winter months, expanded in January, and merchandise went forward in good volume. Comparison of carloadings figures for the Eastern and Western Divisions, after seasonal adjustment, reveals that the expansion was confined to the latter area. The Index for the East was maintained at approximately the same level as in the previous month.

The Rate of Turnover of Bank Deposits, representing the relationship of deposits to the value of cheques drawn upon them, rose sharply in January. Cheque payments usually fall off from December to January. This month, however, they were greater in absolute volume in the three large financial centres, and showed no more than normal shrinkage in the smaller cities. A strong upward improvement in security prices and continued gradual increase in volume accompanied the more rapid turnover of bank deposits. Owing to relatively small reductions in the sub-indices of manufactured goods, minerals and forest products the Index of Industrial Production declined. It is notable, however, that the sub-index of construction showed a pronounced rise from the low level of December. General Industrial Employment did not reflect the recession in the volatile Index of Industrial Production, indeed, it rose slightly.

Floods Cause Havoc In U.S.

(A. P. By Guardian's Special Wire) NEW YORK, March 12.—Hundreds of persons fled for their lives when rain, melting snow and swollen rivers combined to flood vast areas of the northeast and middle west today. At least five persons perished and one was missing as the floodwaters swept away bridges, washed out railroads and highways and undermined buildings. Extensive property damage was reported throughout New England, New Jersey, Pennsylvania and New York. Residents of low-lying areas quit their homes hurriedly and sought higher ground as rivers continued rising. In several districts the floods forced shutdown of mills, factories and schools.

STOLEN GOODS FOUND—Goods supposed to have been stolen from Mother Bros. store on Prince Street Saturday night last, were found in a vacant warehouse at the foot of Prince St. Two small boys playing about the premises found the goods and took them to the store. The police were later notified.

DOUBLE BEREAVEMENT—The saying that "sorrows never come singly" is again illustrated in the case of the family of Mr. and Mrs. John A. MacLeod, of Primrose. Not long ago they were called upon to bury their only son, a beloved daughter in Boston. This week the sad news came that their son, Russell, has passed away in Waltham, Mass. He was a man in the very prime of life but had been in falling health for a number of years. The deep sympathy of many friends will go out to the bereaved, who have been called upon to bear an unusually heavy burden of sorrow.

MONTAGUE HAS GREAT-GREAT-GRANDMOTHER—The death of a son to Mr. and Mrs. Cecil Beck at Montague the other day was a great event in the life of "Grandma" Caroline White of Montague. She became a great-great-grandmother. The active, 91-year-old lady, said it was the latest moment of her life. Mrs. White is still able to read—without spectacles—and she is looking forward to the day when her great-great-grandson who was christened Charles Blycoe Beck is old enough for her to read him fairy tales and to the other side of the five generations of the White family live in Montague. They are Mrs. White, Mrs. Daniel Stewart, Mrs. Charles Vickers, Mrs. Cecil Beck and baby Charles Blycoe Beck—H.

FIRE AT MORELL—Mr. H. F. Anderson as usual carried on business in his general store at Morell yesterday although it was a bit mud-bespattered and considerably marked by fire which raged in the interior Thursday night. Persons driving by Anderson's store noticed a blaze inside, and gave alarm. Volunteers were quickly organized. The fire-fighters at first used water obtained some distance away to give battle to the flames, but realizing they were not gaining any ground on the other side, they resorted to the thick red clay mud proved a very effective weapon, winning the fight for the volunteers. Damage was more than \$400. It was covered by insurance.

WASH-OUT DELAYS BORDEN EXPRESS—Swollen waters of Arnet River yesterday washed out a 35-foot railroad culvert near Albany on Borden-Charlottetown main line halting Borden express bound for the capital. The stone-arch culvert collapsed yesterday afternoon after part of its understructure had been washed away by the freshet. The express from Borden was forced to halt on the south bank of the little river and passengers and baggage were transferred to a waiting train on the other side. The culvert was not completely destroyed and a crew of men sent from Charlottetown were expected to be able to make effective temporary repairs shortly. No trouble was experienced transferring passengers from Borden to the mainland to the train which was to bring them to Charlottetown. Some delay in railroad schedules was caused by the unexpected wash-out and a regular freight train left Charlottetown bound for Borden as officials expected a temporary bridge would be erected at Arnet River by the time it had arrived. The train arrived in Charlottetown four hours behind schedule.

MOTHER AND DAUGHTER WEEP AT TRIAL

Bannisters Break Down During Grilling In Kidnapping Case. (C. P. By Guardian's Special Wire) DORCHESTER, N.B., March 13.—Testimony of 15-year-old Frances Bannister against her mother today once again featured the Supreme Court hearing of Mrs. May Bannister on three charges of kidnaping in connection with the Lake murders at Pacific Junction last January. Both the mother and daughter broke down and wept while the Crown and defense continued their grilling of Frances this morning. The girl appeared hesitant and evasive in answering questions designed to incriminate her mother. Learns Brother Convicted. It was only during her cross-examination today that Frances learned her brother Arthur had been convicted 48 hours before of the murder of Philip Lake and his connection with the deaths of Lake's common-law wife and their child. Both she and her mother wept uncontrollably at the information. The Crown charged Mrs. Bannister with plotting to kidnap Lake's youngest child in order to extort money from Moncton men with whom she was said to have had intimate relations. Little Betty Lake, the alleged kidnap-victim who was orphaned by the murder of her family, appeared in court today.
