

BONE FOOD

The bones of a baby are soft—so very soft that at first they can scarcely be called bones. They grow hard in time, but the period of their growth is a critical one. Loose joints, bow-legs, enlarged head and hip disease are evidences of rickets. If not checked they lead to deformities of a permanent character. This is the natural result of improper bone nourishment during the period of bone development.

The child needs mineral substance to harden the bones and this is plentifully supplied in the hypophosphites of lime and soda contained in Scott's Emulsion. The cod liver oil provides the element of fat needed to reinforce the child's ordinary food.

Thus Scott's Emulsion offers in a perfect combination the very principles of proper bone and flesh nourishment most needed by a young child. The action of the Emulsion is so mild that the most delicate stomach will accept and retain it. This makes Scott's Emulsion of particular value to weak children and very young babies who are in absolute need of a mild yet effective food-medicine.

Pale-faced children show they are not getting what they ought to get from their food. They need Scott's Emulsion to enrich their blood and give them strength to start on the right road to a healthy growth.

If a child is thin, backward in growth, or slow in development it will be found that Scott's Emulsion will quickly help it. There is nothing better for babies and growing children than Scott's Emulsion.

AN ISLANDER WINNING SUCCESS IN UNITED STATES

General Manager of the Virginia Coal and Coke and the Virginian Southern Railway—Now Manager of a Mammoth Ore Mining Company.

The friends of Mr. Daniel Davies, general manager of the Virginia Iron Coal and Coke Co., and the Virginia and Southwestern Railway, knowing that his connection with these organizations ends December 31st, have been hoping that he would find it to his interest to remain a citizen of Bristol. When questioned in regard to this, Mr. Davies said that he and his family had made so many friends amongst Bristol's warm hearted people, and they were so pleased with our perfect climate, that they would gladly make this their permanent home. Mr. Davies has, however, been offered elsewhere such superior opportunities for business advancement, that he cannot remain here even for a brief period of rest.

He has accepted the general management of a mammoth ore mining company in the Lake Superior district. These ore deposits are unequalled anywhere in the world in extent and quality, and will be the chief source of ore supply in this country for many years to come. The owners are among the strongest capitalists of the United States and Canada, and will exploit the properties in the most approved modern style. This means the speedy instalment of a series of great mining plants, the construction of railways, tipples, docks, and equipment for transportation by land and water. These first steps are to be rapid ones, they involve the expenditure of millions, and require skilled and energetic direction. The selection of Mr. Davies for this work shows a confidence in his powers based on past achievement.

Here in Bristol he has made an enviable reputation as an organizer and manager. When he came here as auditor his first task was to evolve some system out of the chaos of multimillion reports, coming from the numerous operations, that had been merged into the big company. This was done rapidly and thoroughly, and then for the first time data could be laid before the management showing unerringly where the properties needed improvement. There after monthly comparisons of all operations, enabled the officers to work toward a higher standard of efficiency. Later when he took charge as general manager the most profitable period in the company's history began. There was an energetic and thorough supervision of all operations and all departments. Every officer was made to feel a strong personal interest in increasing the earnings of the company. As this unity of purpose became general, pervading the whole organization, the company was able to take full advantage of the upward movement in iron, and it made returns to its owners that were more than gratifying.

Mr. Davies realizes the importance of beginning his new duties at once, as he wants to take advantage of the present extraordinary demand for high grade ore. He can be here only a few days after the end of the year.

We are glad to hear that Mr. Davies will remain in Bristol through the winter. She has endeared herself to a large circle of friends, who will suffer in her departure a personal loss. She and her children have always been cheerful workers in the church and in all charitable enterprises, and have entered thoroughly into the inner and better life of Bristol. We trust they may find in their new home, friends as genuine as those they have made here.

KEPT HIS WIFE ABOARD

WASHINGTON, Dec. 27.—Commander John E. Roller, formerly commander of the old gunboat Monocacy, has reached this country from the Asiatic station, having been ordered home by Rear Admiral Evans, commanding the station, for persistent infraction of the rules of the navy which prohibit the commander of a vessel from permitting his wife to make her home on board his ship.

NOBODY IS EXEMPT.

A New Preparation Which Everyone Will need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing that they do for it is to take some one of the many so called blood purifiers, which in many cases are nearly strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and gives the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It's a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—Mrs. E. M. Faith, of Bird's Creek, Wis., says:

"I have taken all the Tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard, Oaslow, Ia., says: "Mr. White of Canton, was telling me of your Dyspepsia Tablets curing him of Dyspepsia from which he suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil Brooks, Detroit, Mich., says: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never have before, I gladly recommend them."

It will cost 50c to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

ALCOHOL AND MORPHINE

From the London, Eng., Times and Opinion.]

A recent remarkable discovery in medicine which has been found to annihilate the appetite for alcoholic drinks and all drugs, even in the most hopeless cases, is attracting a good deal of attention among those interested in temperance works. The medicine is purely vegetable, perfectly harmless and absolutely free from narcotics. It leaves no evil after-effects and can be carried in the pocket and taken in absolute privacy, thus dispensing with the publicity, loss of time and expense of an institute treatment.

The medicine has been tested and is vouched for by the Rev. Father Galloway, Rev. Father Quinlivan, Rev. Joseph Egger, Rev. B. L. Fitzgerald, Rev. Father Stubb, Rev. Father McCallen, Rev. M. Gaughren, Rev. A. M. Coventry, Rev. Father Gaulie, Sister Augustine, Sister William, S. S. H. Sister Ethelburga, and many others.

Full particulars regarding this medicine can be obtained by writing to Mr. Dixon, No. 81 Willcocks Street, Toronto, Canada.

PONCE, Porto Rico, Dec. 25.—Admiral Dewey arrived here yesterday evening, overland from San Juan and received an ovation. He was warmly greeted by a committee of native officials and citizens and was escorted by them from Juana Diaz to Ponce.

DESPAIRED OF BEING CURED.

Mrs. W. E. Jeffries, 44 Hicks Ave., Kingston Ont., states: I suffered, agony with itching piles. I don't believe that any person who has not had the piles can realize what I endured. The first application of Dr. Chase's Ointment brought relief and has since entirely cured me. I hope that the testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment.
