

Speaking Of Sports

By GEORGE KIRKSEY  
United Press Staff Correspondent

Strib Has No Alibi  
For Schmeling Fight

"I feel healthy as can be, plenty strong and plenty tough," says W. L. (Young) Stribling of Georgia, in training in Ohio for his heavyweight championship bout with Max Schmeling of Germany at Cleveland, July 3.

Stribling has lost just two decisions since he reached the front ranks of the heavyweights, and both times he had an alibi ready, real or assumed, in advance.

In 1927 Tommy Loughran outpointed Stribling in 10 rounds, and the Georgia boy professed to have been out of shape. In 1929 Jack Sharkey outpointed Stribling at Miami and days before the fight the Southerner complained of trouble with the ligaments in his left shoulder.

"I'm really in first class shape for the first time in years," said Stribling. "The hand I broke 18 months ago in New Orleans is as strong as ever. The ligaments in my shoulder are completely well. The neuritis which hit me in the right shoulder after the Griffith fight is completely cured."

Two of the best fights of Stribling's career came when he was bothered by an injury to his right hand. Before he met Otto Von Forst at Chicago in June, 1930, Stribling had novocaine injected into his right hand. With this first deader to pain Stribling landed it, on the Norwegian's jaw and won by a knockout in the first round.

A month later in London Stribling had the fist doctored up again and knocked out Phil Scott in two rounds without the collapsible Englishman's getting a chance to squawk "Foul!" Stribling has disfigured many of his followers by repeated failures not to fight his best fight. He has had a long rest, medical treatment, a winter in the sun at Miami, and acknowledges that he feels better than ever before in his life.

The southerner will have no excuse this time for not fighting the fight of which he has long had many light fans to believe he has in him. He doesn't have to win to fulfill the hopes of his followers, but few see how he can lose if he cashes in on the fighting equipment which he has at his disposal.

EX-GOVERNOR QUITS GUN

AUSTIN, June 10.—(U.P.)—Former Governor Dan Moody, whose hunting trips caused considerable political criticism when he was governor, has forsown gun, rod and reel. He says as will not go hunting or fishing again until he has paid off all the dues—a considerable bill piled up while he worked for the state six years on a \$4,000 salary.

BARLEY FOR HORSES

Barley can be economically used for feeding horses in grain mixtures up to twenty-five per cent. It gives best results with horses at work and the inclusion of bran or a feed of alfalfa, or alfalfa and timothy hay, will prevent any of the undesirable results attributed to this grain.

When well boiled, with the unabsorbed liquid taken up with bran, with the addition of a cup or so of molasses and a pinch of common salt, or a tablespoon of Glauber's Salts, barley forms one of the best conditioning feeds for a horse, fed two or three nights weekly, or even each night for a period.

Barley is extensively used as a horse feed in other countries, notably in Africa, certain countries of the Orient and in Europe. When the price is right and when fed in a properly balanced ration barley may be economically fed to horses.—Dept. of Agriculture, Ottawa.

Tenders For Score Cards

Sealed tenders for score card privileges in connection with the Provincial Exhibition Horse Races, August 18th to 21st—4 days racing—will be received by the undersigned, one page of the score card to be reserved for the use of the Association. Tenders must be in not later than June 18th. J. W. Boulter, Secy. Charlottetown Driving Park and Exhibition Association. 5186-6-11-61

PROVINCIAL SCHOOL MEET

The Provincial School Meet this year which takes place on the Abegweit Grounds on June 19th, promises to be a big event in the history of school athletics.

The boys of the city schools are practising hard, and are leaving nothing undone so as to be in good shape for the big day.

It is said that Summerside will have a fast lot of athletes this year, who are also putting in hard strenuous work and no doubt will be heard from on the day of the meet.

Montague, too, must not be forgotten as the fellows from this section will have to be reckoned with, and can always be relied upon to do their part when it comes to athletics.

The boys of the rural schools are hard at it these days, running and jumping, and the city boys will have to do their best, as there are many dark horses in these schools who may spring big surprises on the day of the meet.

Mr. E. J. H. Morrissey and Mr. Louis Campbell are working hard to make this school meet a success.

TEST AERONAUTICAL INSTRUMENTS

Some five hundred aeronautical instruments were tested last year for the Royal Canadian Air Force by the Physical Testing Laboratory of the Topographical Survey, Department of the Interior. Included among these instruments were altimeters, air speed indicators, engine revolution indicators, thermometers, pressure gauges, and aeronautical compasses. The tests applied are comprehensive enough to observe what each instrument will do under any condition it might meet—even, if necessary, subjecting it to a temperature as low as 40 degrees below zero.

SEASONS IN THE ROCKIES

To lovers of the Canadian Rockies every season has its own beauty. Spring with its rush of melting snows and brilliant flowers; the long temperate summer with its abundant sunshine; autumn with its windless days and glory of colour; and the shining majesty of winter—each brings its special delight.

PANT-LESS GETS OVERALLS

EAST GREENWICH, R. I., June 9. (U.P.)—Because he didn't want to go to court, Henry Sampson of Providence, alleged burglar, tore his trousers into shreds in a cell at Kent county jail here. But a deputy sheriff promptly purchased some overalls at a nearby store and Sampson was arraigned on schedule.

UNEARTH OLDEST TEXTS

CAIRO, Egypt, June 9.—(British United Press)—What are said to be the world's oldest religious texts have been discovered at Sakkhara. Eight hundred lines of text, inscribed on the walls of the funeral chamber of Queen Neith, daughter of Phep Jo, have been found in good condition. Many relics of the Ptolemaic age have been unearthed during recent excavations.

ELECTRICAL DOG CATCHER COSTS MAN \$10 FINE

EDEN, N. J., June 10.—William Rennegal used an original method to keep dogs off his front lawn, but it cost him \$10.

Rennegal was accused before Justice of the Peace John L. Hammond of causing the death of two dogs by stringing live wires around his lawn. Justice Hammond fined Rennegal \$10 and ordered him to remove the wires.

LEGS ENOUGH

QUINCY, Mass., June 9. (U.P.)—The four kittens of a Spanish angora cat owned by Alfonso Bolsjolly have a total of 16 legs, but the legs are not evenly divided. Two are normal four-legged kittens. One has only three legs. The other has five legs.

COPS MAY NOT HAVE TO DRESS

AUSTIN, June 9.—(U.P.)—Unless the state legislature does something about it pretty quick, speed cops in Texas no longer will have to be "dressed for the occasion" when they make arrests. Twice in the last two months the Court of Criminal Appeals has denied the validity of a law requiring special uniforms for highway traffic officers, ridiculing its provisions.

TRANSPORT PILOT AT 18

PROVIDENCE, R. I., June 9.—(U.P.)—Eighteen years old and a licensed air transport pilot is the record of precocious Donald K. Phillips. He won his transport permit with 265 flying hours to his credit after only 18 months' experience.

NOTICE—ANNUAL MEETING

The annual meeting of the Provincial Ladies Auxiliary of the Protestant Orphanage will be held in the Orphanage at Mt. Herbert on Thursday, June 18th at 3 p. m. Gladys Bruce, Secy. 5190-6-11

CONDITION IMPROVING

The condition of Mr. Louis Berrigan, who is in the City Hospital suffering from injuries sustained in an automobile accident on St. Peter's Road Sunday evening, is reported to be improving. Although unconscious for a considerable time following the accident Mr. Berrigan has now the normal use of his faculties, and it is hoped, will make a speedy recovery.

VON HINDENBERG RECALLS CREATION OF GERMAN EMPIRE

PARIS, June 10.—(U.P.)—General Charles Hitchcock Sherrill, of New York, former Ambassador to Argentina, after visits to President von Hindenburg in Berlin and the former Kaiser Wilhelm, at Doorn, is of the opinion that Hindenburg is as good a Republican as Wilhelm is a Monarchist.

Hindenburg, now 84, keeps as one of the happiest memories of his life his selection, as a young second lieutenant, to witness the creation of the German Empire in the Hall of Mirrors at the Versailles palace. In his opinion that event surpassed in importance his recall to command the German army at 67 and his call to the Presidency of the Reich at 77.

"One of the treasures which Hindenburg cherishes most," General Sherrill says, "is the spiked helmet which he wore as a young second lieutenant of 19. It is bored by a bullet and proves that a scant fraction of an inch saved Germany the greatest of her contemporary soldiers from death as a youth."

"The former Kaiser has sawed about all the spare wood in the vicinity of Doorn. As he grows older his withered arm becomes much more visible, but he sticks his cigar between the fingers of that arm and makes a pretense of using it."

COLLECTS HOTEL ROOM PHOTOS

WORCESTER, Mass., June 9.—(U.P.)—Thor Alfreds has an odd hobby. He is collecting photographs of every hotel room throughout the country where he and his late wife spent one or more nights. Mrs. Alfreds died last October after they had been married nearly a quarter of a century, and Alfreds already has assembled hundreds of pictures of hotel rooms.

ARIZONA AIDS MEXICO

NOGALES, Ariz., June 9.—(U.P.)—Arizona is a better market for Mexican products than Mexico is for Arizona products, judging from import and export figures for a recent 30-day period which showed that exports valued at \$570,582 cleared through this major Arizona port of entry, while imports from Mexico were valued at \$1,368,463.

10,000 GOLDFISH STOLEN

SEATTLE, June 10. (U.P.)—Somebody with an appetite for fish, an eye for making money or a strong desire to go fishing seized the pool of Charles Murray, at Kent, and stole 10,000 goldfish, valued at \$2,500.

SUMMER BOOTS THEFTS

BUFFALO, N. Y., June 10.—(U.P.)—The arrival of warm weather has kept the police department busy. More than 100 bicycles have been stolen. Police records show the thefts rise and fall with the thermometer.

NEW INVENTIONS

Considerable discussion took place at the race track last evening concerning a new type of horseshoe, which has been invented by Mr. William McVey, about whose stable some remarks will be made very shortly. Mr. McVey is quite a mechanic and particularly good with horses who require "adjusting." He did not divulge the particulars of the new type of shoe to the boys last night, but it is understood that Emmett Gallant was working until a late hour last night turning it out.

Mr. Frank McKay also showed an improvement on a driving bit which was greatly admired.

Summerside Races

The three classes selected by the Summerside Driving Club for competition July 1st will no doubt fill well and produce real racing. A lot of horses are getting ready at

YOUR CHILD Not Stupid—Handicapped

The seeming stupidity of many school children, is directly chargeable to faulty vision.

Correctly fitted glasses often work wonders.

F. Gordon Hutcheson  
Optometrists—At your service.

HOOF BEATS

A Few More Steppers

Continuing the write-up on the various stables at the Charlottetown Driving Park, we now come to Pat McKenna. There are two Pats at present at the race track, but the one immediately referred to is young Pat. Although only having reached his majority, he has had lots of experience with race horses. Starting in as a helper when quite young, he later became a very efficient caretaker and two years ago branched out as a trainer, having Marge Direct and Johnny Walker as his pupils. It will not be forgotten how well he managed these two animals, giving Johnny a record of 2.16 1-2 and Marge, 2.13 1-2. This year he has four in his stable, the outstanding one being "Mr. Henley," owned by A. McPherson of this city. This pacer is of the sensational kind; can get away like a runner and come home like a bullet; has good manners and is bred in the purple. We therefore look to see him top a lot of summaries and get a low tab.

Poinsette, is a beautiful brown stallion by Longset of Anna Pratt. Last year it is understood he won first prize at the Exhibition. He is a trotter and is being fitted for the Marie bred brood. He is also owned by Mr. McPherson. Helen is a good little trotter by Longset and this year seems to be going real well. She is owned by Walter Montfeth, City.

Rebecca M., a three-year-old trotter by Longset, is the fourth member of Pat's stable. She shows well for the limited training she's had and is owned by Gordon McMillan, Cornwall.

Tom Clayborn has a three horse stable which is receiving excellent care and attention from him. He has had a lot of experience with horses, having spent several seasons racing the Maine and New Brunswick circuit.

Babysat is a sweet little trotter by Longset and answers to the ownership of Mrs. Fall. She has a nice way of going and should be some trotter, as last year she was up to a mile in 2.21.

Cecelia The Great, 2.14 1-2, has been second in 2.10 or thereabouts in races over U. S. A. tracks. She has had nice wintering and is now ready for trackwork. She is a 2.26 eligible, and the Garden City Stables pays the bills on her.

Peter Wilten Junior, 2.13 1-2, who astonished the boys three years ago by winning the 2.26 trot in the fastest time of the Exhibition meeting, is a graduate of the MacKinnon Stables, but is now owned by John McDonald, Southport. John is famous for his "comeback cures," and has been exercising his skill on Peter. Yesterday he looked a 3 year old and our advice to the chaps that have to meet him in battle array, is to look out as he is a real tough horse when he feels good and that's the way he is right now.

The latest addition to the training colony is a two horse stable that will be handled by the popular caterer of the Green Lantern, Mr. Pat McKenna. Early last winter Mr. Wm. Trainer turned over Watts Edition to this gentleman and he made a real job of getting him ready for the ice races and many think that for the fact that "Willard" forgot to have his shoes sharpened, he would have won the trotting championship. Mr. McKenna has Watts Edition again under his tuition and that good trotter will surely be right when the bell rings.

His other horse is Dillingwood Earl, 2.14 1-4, eligible to the 2.28 pace. "Dilly" has been caught lots of times better than 2.10 and shows up like a good pacer should. Yesterday he received a very light workout from Mr. McKenna's hands, but next week it is expected he will be allowed to brush a bit.

Colonel Aubrey—Reg. No. 3940—leaves home on Thursday, June 11th, for Portage, noon; thence to Romanus McDougall's, Grand River overnight, leaving at noon Friday, June 12th to night; thence to J. P. Keough's, Cape Traverse over Sunday, Monday, June 15th to B. McArthur's, Kensington, overnight; Tuesday, to John McKinnon's, New Annan Race Track overnight; Wednesday to Summerside night; thence via ferry to James McFarlane's, Bayside over night, Thursday, June 15th to Edgar Milligan's, Northern overnight, Friday, to James Palmer's, Inverness, noon; thence to George Skerry's, Goff's Bridge overnight, Saturday, to Vernon Metherow's stables, Elmsdale, leaving Monday, June 22nd to Michael Murphy's, Greenmount overnight; Tuesday to owner's stables. This route will be continued fortnightly till close of season.

This horse needs no recommendation in this Province, for by his own performances, also that of his colts such as Major Aubrey 2.11, Lucky Lindy 2.12, Aubrianna 2.19, Raymond Aubrey 2.22 and a number of others he has been proven a wonderful speed sire. He has also a number of other promising colts training at present on the different tracks. Col. Aubrey has won two first prizes in succession at the Alberton Exhibition as a carriage stallion, any age.

J. W. O'BRIEN, Owner.  
WM. MATTHEWS, Howse, in Charge.

Two Islanders Burned To Death

The following is from the Great Falls, Montana Tribune:—Jack Bruce and Cephas Carver, ranchers, living 16 miles southwest of Choteau, are thought to have been burned to death when Bruce's home was destroyed by fire Friday night, May 29th. The fact that the home was destroyed was discovered by a shepherd in the neighborhood. He reported the matter to a neighbor of Bruce, Oesie Hodgkins, who informed the sheriff.

Undersheriff "Shell" Billings and Coroner Roberts went to the ranch to investigate and found the charred bones of two men among the ashes. Identification was impossible, but it was presumed that they were those of Bruce and Carver, as it is known that Carver left Choteau at 5 o'clock Friday afternoon to visit at the Bruce ranch.

Bruce and Carver were old-time friends. They came to the Choteau country together 35 or 40 years ago from Prince Edward Island, Canada, and had lived in the vicinity since. Neither were married. The remains were brought to Choteau by the officials and are at the Chas. R. Roberts undertaking establishment.

(The Messrs. Bruce and Carver referred to above were born in Lyndale, P. E. I., Mr. Bruce having one brother, Mr. Daniel R. Bruce and sister, Miss Jessie, also one sister in U. S. Mr. Carver also leaves one brother, Mr. Mark Carver, Lyndale and one sister, Mrs. Katherine Greene, Los Angeles, California. Much sympathy is extended to the sorrowing relatives.

Y. M. C. A. CAMP PLANNED

SPRINGFIELD, Mass., June 10.—(U.P.)—Development of a 70-acre tract of land fronting on Massachusetts Lake, near here, to be used as a summer training camp by the International Young Men's Christian Association College is under way. Several buildings will be erected for accommodation of students and instructors.

FATHER OF EIGHT HONORED

SYRACUSE, N. Y., June 10.—(U.P.)—Mrs. P. Augustus Hopkins and her eight children were present to see Hopkins receive an LL.B. degree from Syracuse University recently. The degree was granted Hopkins, who is proprietor of the Syracuse Spring Works, 18 years after he was first graduated from the university.

TURTLE LIKES OLD HAUNTS

IOLA, Wis., June 10. (U.P.)—Jim Sharp carved his initials on the shell of a mud turtle one day back in 1890. Today the turtle may still be seen frequenting its old haunts about the Iola mill pond.

FOOT PEDDLERS ON HORSES

AUSTIN, June 9.—(U.P.)—Foot peddlers include those who ride horseback under terms of an occupation law that will take effect in Texas on August 22.

Mary Get Acquainted With Each Other?

Mrs. Cumso: "How did Charlie and Mary get acquainted with each other?"  
Mrs. Fangle: "They sang in the same church choir."  
Mrs. Cumso: "Oh, I see! They met by chants."  
"Have you heard that our friend Meyer has become rich at a single stroke?"  
"No. How did it come about?"  
"His wealthy uncle had the stroke."

BOBBY JONES SPECTATOR FROM NOW ON

Bobby Jones, after three months' labors at Hollywood, has turned away from the City of Make-Believe, and will never appear in the movies again. The Atlanta golf wizard found his task an arduous one, but the pictures in which he figures have served the purpose of giving valuable hints to would-be golfers and others who have had a world of experience.

Provincial Exhibition Notes

A meeting of the Directors of the Exhibition was held Wednesday morning, and several matters in connection with the prize list were discussed and the following was decided upon:  
That prize poultry be added to the prize list, the same as last year. This was done at the request of several breeders.

A new departure this year will be the provision in the judging ring of an official who will check the registration certificates, which must be presented as the animal enters the ring. No person will in future be allowed in the ring during the judging except the officials and signs will be put up, asking that audible comments be restricted while the judges are performing their tasks.

It was also decided that an additional section be added to the prize list for each dairy breed, allowing an entry for the best three animals, owned by an exhibitor, the get of one sire.

SALT LAKE CITY, Utah, June 10.—(U.P.)—Madeleine Hansen is probably one of the most cosmopolitan students in the United States. The 17-year-old daughter of Lieutenant and Mrs. Harry Hansen has attended 25 different schools in this country, Hawaii and Guam.  
"If you want to attend lots of schools," she remarked, "just be the daughter, or son, of a navy man."

Empire's Reply To The Russian Five Year Plan

(Special to The Guardian)

LONDON, June 10.—The Empire's reply to the Russian five year plan, is the description Sir William Wayland, Conservative member of the House of Commons and chairman of the Empire Dairy Council applies to the increase in imports of Empire butter to Great Britain this year.

During the next few weeks no fewer than 46 vessels from New Zealand and Australia will bring more than a million boxes of butter to British shores. Canadian butter is once more entering the British market too, after being absent for five or six years.

To Carry Freight On Regular Passenger Trains

(Canadian Press)

OTTAWA, Ont., June 10.—The two railway companies in Canada have under consideration a plan to carry freight on regular passenger trains at freight rates. Sir Henry Thornton explained this before the railway committee of the Commons today when discussing the broadens on traffic by motor trucks.

BATES ARMOUR WITH GOLF'S GREATEST

Bob Stedler, Buffalo sports writer, says the following tribute to Tommy Armour, who recently won the British golf title.  
Tommy Armour's victory in the British open golf championship gives the Detroit star a position among international open champions that neither Bobby Jones nor Walter Hagen have equalled. Nor for that matter now has any other golfer. For Armour is now the American open, the British open, and the Canadian open titles. Jones was tied runner-up with J. Douglas Edgar in Canada in 1919, in the open event.

A review of the record of the major achievements of these three great stars is interesting. These are the national titles each has won:  
Armour—American open, Canadian open, French amateur, British open, United States P.G.A. championship.  
Hagen—American open, French open, British open, United States P.G.A. championship.  
Jones—American open, American amateur, British open, British amateur.

Armour was born in Edinburgh in 1895, which makes him 36 years old. This indomitable Scottish-born American can be classed as one of the greatest players the game ever is likely to see. A veteran of the World War in which the sight of one eye was virtually lost, and his general health was affected, he is endowed with tremendous courage. Seldom is Armour out of the money in any of the big tournaments. Tommy stands around six feet tall, and is rawnboned but wiry.

"Oh, it's all right, sir," said the youngster, earnestly, "I've got measles."  
Redd: "I see Browne's got a motor car."  
Green: "Yes his rich uncle gave it to him."  
Redd: "Why, he told me he put all the money he had into it."  
Green: "So he did. He bought two gallons of gasoline for it."

OVERGROWN CATFISH CAUGHT

J. O. Hager caught the largest fish ever taken from the Forth River here recently. It weighed 26 pounds. His companion on the boat caught a "little cat" that weighed only 26 pounds. They brought home to prove it, too.

GARDEN HEDGES

Garden hedges should be strong, neat and trim and happy looking. Never ragged and forlorn. Broken down or grappy looking. Well-kept hedges keep in the who delight you and inspire you. Broken hedges can't keep you. People who annoy and tire you.

Therefore every garden hedge it it every perform its duty. To be useful should have been. To be pleasing should have been.

Minard's Liniment for Stiffness.

Looking 'Em Over

(By "TEC")

The newly organized Canadian National Recreation Club ball team will play their inaugural tilt with the Stars tonight, game starting at 6 o'clock. This fixture is an exhibition affair and will enable Manager Sam Hood to do some picking for his regular lineup. The seventeen players, whose names appeared in Monday's Guardian, are requested to be on hand for tonight's clash. Manager Hood of the C. R. C.'s is optimistic over his chances in the regular league schedule. He has a smart lot of ball players to choose from, and after this evening's game, he will not doubt be ready for the fray. It is expected that the revised schedule of games will be drawn up tonight after the game, and Monday evening will see the official opening of the City Baseball League. Tonight's game should draw well, as the Stars have an excellent and well-balanced team this season and will naturally endeavor to give Hood's clan a tough game of ball.

Ed. "Strangler" Lewis, hailed as world's heavyweight champion, has posted forfeit with the California Commission to back his claim. Henri Deglane and Jim Lewis will give the \$5,000 to the commission ruled that he accepts by July 15 Lewis should have declared world's champion.

Three new Interscholastic and field records were made Dominion Championships Cornwall, Ontario, the other. The new record of Ollie Hill, negro youth, who leaped 23 feet in the running broad jump. Hamilton took 3 1-5 seconds mile mark, running the distance in 4 minutes, 34 4-5 seconds. Frank Shayer, another of the Iilton team, cut 3 seconds in 880-yard run, being clocked to establish a new record.

EVERETT, Wash., June 10.—Chiford Jannie felt sorry for a bird dog that appeared at the here. She fed it and let it in indoors. In the early morning the dog's barking awakened the house was in flames. The house was in flames. The house was in flames.

TO MAKE SAN MATEO SAFE FOR SLEEPS  
SAN MATEO, Calif., June 10.—City intends to be one of the towns in which to sleep. A proposed ordinance would prohibit radio loud speakers near windows, in yards or on front porches after 11 p. m.

HAVERHILL, Mass., June 10.—Boy Scouts here no longer wear badges for meritorious manship. Examiners of the Council have voted to abolish insignia on the ground that handling of firearms is dangerous and should not be encouraged.

"LITTLE COUNTRY PLACE" HAS NEARLY 11,000  
VISALIA, Cal., June 9.—Captain John S. Dickerson, York, decided to buy "a little country place," he came here and the farm once owned by Harry W. Jackson and the Frank B. estate.

It consists of 10,900 acres of land and foothill land within the Sequoia National Park and the Grant National Park.

DYESBURG, Tenn., June 9.—J. O. Hager caught the largest fish ever taken from the Forth River here recently. It weighed 26 pounds. His companion on the boat caught a "little cat" that weighed only 26 pounds. They brought home to prove it, too.

Garden hedges should be strong, neat and trim and happy looking. Never ragged and forlorn. Broken down or grappy looking. Well-kept hedges keep in the who delight you and inspire you. Broken hedges can't keep you. People who annoy and tire you.

Therefore every garden hedge it it every perform its duty. To be useful should have been. To be pleasing should have been.
