

PANDORA RANGE

Interchangeable Sections are a Handy Feature

The sections of the top of the Pandora are interchangeable. For instance, you can change the boiler from crosswise to lengthwise (see illustration) by merely switching around the sections, which can be done in less than a minute.

The many advantages of these interchangeable lids will suggest themselves so readily to the home cook that it is not necessary to enumerate them here.

Pandora lids are made extra heavy—practically non-crackable and unbreakable.

The exterior of the building is to be completed by Jan 1st '08 at which time the Contractors take charge of the interior of building and we go out.
