Your Earning Power

How would you like to be able to do more work than you do now, and with less fatigue and nerve strain?

At least one quarter of the workers of today are handicapped by a considerable defect in their vision. A far larger number have lesser defects which, nevertheless, decrease the efficiency and capacity for work.

If you can work better, you can demand the better job, and better pay. Start right and have your eyes examined now. If you do not need glasses we will honestly tell you so. If you do need them we are prepared to give you prompt and efficient service.

MUD DIGGING on Bedeque Bay, which in former years gave employment to a large number of men has not yet been started. It is to be noted that one digger is now at work and is to begin the season on Feb. 15.

COMMENDABLE—J. J. Gaudet, manager of Happyland Theatre, Summerside, returned home on Tuesday night, after a business trip to New York, Boston, Portland, and St. John. While in the larger cities he made booking of some of the most sensational and popular film releases for the Summerside theatre.

FIRE DOES DAMAGE—The Summerside fire department was called on Tuesday about 1 p. m. for a small fire in the Pioneer Office. Slight damage was done to the building, the cause of the fire is known to be caused from the exhaust pipe of one of the engines getting heated and catching, to the side of the building.

IMPROVEMENTS—The gymnasium at the Y. M. C. A. in Summerside has been equipped with shower baths and toilet, an improvement that has been greatly in demand for some time. The work was under the supervision of D. R. Morrison and was a most creditable job.

HOCKEY—Arrangements are being completed for a hockey match to be played in Summerside on Friday night between the school team of Charlottetown and a team representing the High School of Summerside. As many of the Charlottetown players are big boys, and the High School team has made such a good showing against the second Pioneers senior team, it is expected that a very fast and interesting match will be the outcome.

IS SATISFACTORY—The amplifier recently purchased by Harold Gaudet, of Summerside, for use in connection with his radio receiving station, was given a most satisfactory work-out on Monday night when the station received a concert held that night in Roselle Park, New Jersey, with the famous Betty Lane Sheppard as soloist. So well did the amplifier work that the voice of the singer, who was delighting her audience thousands of miles away, was heard in the room clearly without the aid of ear phones. Another concert was heard the same night in Pittsburgh, Pa.

KEEP MURDOCK'S PLACE IN THE HOUSE
Mrs. David P. Murdock passed peacefully away at Murray Harbor on Jan. 24th, and was buried in Beach Point Cemetery, Jan. 26th. After a brief service at the hour her remains were taken to the Baptist Church, where an impressive service was conducted by the Pastor, Rev. Mr. Peacock, assisted by Rev. S. Howard, who frequently visited her in her prolonged illness. The large gathering at the Church evinced the high esteem in which the deceased was held by the people of the community and their deep sympathy for the bereaved. The pastor officiated at the grave.

The late Mrs. Murdock is survived by her father, Joshua Jordan, and three brothers and three sisters. In her own family she had left to mourn her loss, her husband and seven daughters: Florence, Eva, Claire, Constance, Mary, Wilhelmina and Minnie Fern. Her only son, Frank, was called to the heavenly home some years ago at the early age of five. Other papers please copy.

100 Years Old First Birthday

In a week or so Blue Bird Tea will celebrate its first birthday. But it will be one hundred years old then because the firm that blends it has had more than a century of experience in the selection and packaging of tea.

IN MEMORIAM

MR. ALEX. McDONALD.

Caledonia South lost one of its old and most respected citizens on Jan. 26th, 1922, when Alexander McDonald died. Mr. McDonald was 80 years of age. He was born in Skye, Scotland, and came to Caledonia 64 years ago. He is survived by his wife, (nee Margaret Montgomery, Valleyfield,) two sons and four daughters, also one brother, John McDonald, merchant, Murray River. Mr. McDonald, of his sincere Christian character, held the admiration and high regard of all who knew him. He was bedridden and blind for over three years, but uncomplainingly accepted his lot, patiently waiting for the hour when he should be called home. He was buried at Caledonia West, the funeral services being conducted by Rev. J. A. M. Lellan, Valleyfield.

MRS. DAVID P. MURDOCK

A FRENCH WIFE

A Paris newspaper inquired of its readers what attributes a Frenchman regards as most desirable in his wife. The 20,000 replies indicated that health was rated the most desirable quality. Then came courage, frankness, wit, fidelity and cleverness in turn. The majority put wealth about halfway down the list, and beauty was placed last of all.

Had Your Iron Today?

Five Cents Worth of Healthfulness

It's Nature's Candy, Mother—tell your little ones about it

LUSCIOUS little Sun-Maid Raisins—the kind you know—made from tender, juicy, seedless grapes.

In little five-cent packages—just enough to satisfy the children's natural craving for energizing sweets, in the most healthful way.

Delicious and Digestible
Little Sun-Maids are 75 per cent pure, sun-dried, fruit-sugar in practically predigested form. They don't tax digestion. So they're the best of all between-meal foods.

Nothing better for pale, listless little folk. For raisins are

the richest of all fruits in food-iron. You need but a small bit of iron daily, yet that need is vital.

Often it's the one need to restore the bloom of youth to pallid cheeks and the energy that millions lack.

So when they get their nickels, mother, tell them of this natural sweetmeat which is both good and good for them.

January 16, following dismissal of a number of drivers by the management, resumed work today. The mine workers decided last night to work with the drivers, positions filled with other men pending a settlement of the dispute between the company and the drivers.

The output from No. 9 Colliery is to be banked with that of No. 2, which already has 40,000 tons banked. It is said in company circles here that in the event of a favorable settlement of the wage question between the miners and operators, on which a board of conciliation is expected to give a finding, a large amount of coal would be banked so as to provide steady work at the collieries.
