The entire staff of Prowse Bros. is vaccinated yesterday. This is certainly commendable and very thoughtful on the part of the management and the example should be followed by every business house in the city.

The marriage took place at New Westminister, B. C. on Feb. 18th, 1907, of Elsie Owep, daughter of D. Hodgson Macgowan, to William Garland McQuarrie. Mrs. McQuarrie has a large circle of friends in Prince Edward Island, her father Mr. Macgowan having occupied for years a prominent position on the P.E. I.R.

The Halifax Chronicle says: "The alliance between the C. B. U. and M. P. A. A. has been signed, and the North Sydney team, winners of the Cape Breton League, have been notified that their challenge for the Starr trophy has been accepted. North Sydney will play Crescents here next Thursday and Friday nights. These were the dates offered the Charlottetown Abegweits, but nothing has been heard from them, and it is presumed that in consequence of some difficulty in reaching here, owing to the ice conditions, that they have abandoned their intentions of coming to Halifax."

A MEETING of Lots 29 and 33 Farmers' Institute was held in the Cepanod Orange Hall on the 6th inst., the President H. B. Achin in the chair. Professor Ross was called upon and took up the subject of the Dairy Cow. He very ably discussed the advantages of feeding the cow well and having good warm stables. He also stated how the soil of Prince Edward Island was becoming poor for the want of manure, and that when milk is being sold off the farm, nothing is being taken away from the soil that is of value to it. Some questions were asked by Dr. Boyer and others which were satisfactorily explained by Prof. Ross, who was then given a vote of thanks and the meeting adjourned after singing God Save the King.

It is a great disappointment to the Temperance people of the city that Rev. Tennyson Smith's meetings have been stopped on account of the outbreak of small pox as the interest in the campaign has increased with every meeting and it is evident from the large audience which gathered Tuesday night in the Market Hall, notwithstanding the storm that was raging, that the building would have been crowded last night if the weather had been favorable. Reports have appeared in the New Brunswick and Nova Scotia Press of the crowds which have been drawn to hear this popular speaker elsewhere, and it is said that in almost every town visited, the largest buildings have not only been packed to excess long before the time announced for commencing the meeting, but, literally hundreds have been turned from the doors night after night. Those who have heard Rev. Tennyson Smith in Charlottetown would readily believe that this would be the case and there is no doubt that the same result would have attended his work here, and that even the Market Hall would have been taxed to its utmost capacity to accommodate the crowds who would have gathered to hear him.

On Feb. 25th, at the home of Gordon Pickett, of Sherbrooke, the death occurred of his bright little three year old daughter, Zettie. The child had been ill for only a few days, and her death was entirely unexpected. The bereaved father and mother have the sincere sympathy of all.

Jack Fraser of Centreville and Patrick McDonald are scheduled to race at Alexander's rink tonight between the first and second halves of the league Hockey match. The race should be a good one. The following telegram was received by Dr. Conroy last night: "Dr. Conroy, Quarantine officer, Charlottetown. A GLORIOUS day dawned yesterday, with a clear sky, and an atmosphere that was perfect. Under the genial warmth of the sun the sleighing on the streets and roads appealed irresistibly to all owners of horses, and in the afternoon the streets presented an animated sight. A stranger in the city remarked on the number of harnesses being driven and said that very few cities in Canada afforded him such a gratifying sight. He noticed too, that the fine horses were not all owned by townspeople, but that many fine animals were being driven by visitors from the country, who came to market yesterday in fair numbers.

The Fort Augustus Board of Health passed an active day yesterday, and adopted measures which appear likely to place the sickness in that district under complete control. The Corridor Post office was closed, this making the fourth office to have been shut up and the church at Fort Augustus, as well as all the schools in the district will also be closed till further orders. As a result of energetic work all the houses where the disease is suspected to have been flagged and the patients are all doing well. The board of Health meets nightly, and there are two messengers who daily go to and fro through the settlement and keep the members of the Board thoroughly informed of all that is taking place.

An entertainment and supper was held at Stanley Bridge on Tuesday evening, the former being held in the Church and the latter in the hall. Rev. Mr. Belyea presided, and the following program was rendered:—Instrumental music Summerside band; chorals, "Hear the Angels" recitations by Mrs. Lewis Taylor, Miss L. M. Montgomery, and George Green; solos by Mr. McSweeney, R. Lamont, Gladys Bell, Mr. Hill and Mr. Buck; duet by Mr. and Mrs. H. P. Found; grandiose selection by Captain Sutherland. The numbers were all excellently rendered and listened to by an appreciative audience. After the entertainment everybody repaired to the hall where a bounteous repast was satisfactorily disposed of.

Great Annual Sale of Wall Paper Remnants

Continued all Day To-Day

STOCK-TAKING brings to light all the odd lots and remnants, and as usual this year we are closing them all out to make room for the finest stock of new wall papers in our town.

As in the past, we have taken every pattern of which we have only a limited quantity remaining, and have made all up into lots, each of which contains enough for an average room. In most cases we have a lot to match every pattern, and in all cases we have marked the price from one third to half the price of the border, and are making no charge for the borders at all.

There Are in All About 250 Lots

including some of the handsomest papers we have ever shown, and as we have said, all are marked at prices that are merely a joke on the regular values. To give an idea of the method of marking, we will describe a few of the lots.

- 25c, 45c, 68c, 80c, 95c, \$1.20, \$1.45, \$1.85, \$1.95, \$2.45

Please bear in mind that we have in describing the above, only mentioned ten lots - there are 240 more and every one in its way is as attractive as the ones mentioned.

Quick comers buy best

In most cases there is only one lot of each pattern, and in order to ensure your getting just what you want, we advise an early call Wednesday morning—the sooner the better.
