Messages Received On Signals Day

In connection with the observance of Signals Day in Canada on Saturday, messages were received by 5 Infantry Division Signals Regiment here from the following: HRH the Princess Royal Colonel in Chief, Hon. Brooke Claxton, Minister of National Defence, Gen. Spencer B. Akin, Chief Signal Officer, U. S. Army Signal Corps and Lt. Gen. Charles Foulkes, Chief of the General Staff.

From HRH the Princess Royal: "It is with great pleasure that I learn that My Royal Canadian Corps of Signals are holding an Annual Signals Day stop I am happy to think that by this means that spirit of comradeship which was so conspicuous in the units of My Royal Canadian Signals during the war will be fostered and the great tradition kept alive to be handed down to the generations to come."

From the Minister of National Defence: "It is with pleasure that I extend my personal greetings to all members past and present of My Royal Canadian Corps of Signals wherever they are."

From Lt. Gen. Charles Foulkes, Chief of the General Staff: "May I take this opportunity of greeting all those who are keeping alive the traditions of the R.C. Signal Corps by participating in Signals Day stop."

Miss Betty Duff, Windsor, Ontario, formerly of Charlottetown, arrived in the City last evening by plane and is a very welcome guest of Mr. and Mrs. Hubert Strickland, Spring Park Road.

Three Soldiers Plead Guilty To Armed Robbery

COCHRANE, Ont., Nov. 7.—(CP)—Three soldiers, absent without leave from Camp Borden, Ont., today pleaded guilty to charges of armed robbery in the holdup of a North Bay, Ont., taxi driver, Oct. 30.

Edward Hyder, 22, of Jarvis, Alta., was sentenced to 2-1/2 years in penitentiary. Robert Macdonald, 22, of the Lake, Alta., and William Connors of Stellarton, N.S., were given two years, less a day, in reformatory.

Capt. Hynes said the army was willing to take Connors back if he were placed on suspended sentence in Canada. A previous good record, Magistrate E. H. Tucker declined to suspend sentence. He said he saw no reason why Connors should be treated differently from the others.

Record Number Voted In Federal Election

OTTAWA, Nov. 7.—(CP)—A record number of Canadians—3,903,370—voted in the June 27 Federal election, Nelson Castonguay, the chief electoral officer said today. That was roughly 600,000 more than voted in the 1945 election.

There were 7,883,425 eligible voters, about 900,000 more than in 1945. A total of 54,600 ballots were rejected, 4,603 fewer than in 1945. There was an increase, too, in the number of voters who actually voted. Nearly 75 per cent of the eligible voters cast their ballots, roughly one per cent more than in 1945 and slightly higher than the long-term average.

In one Province—Prince Edward Island—there were more ballots cast than there were voters. That is because of Queen's a two-member district, where each voter votes for two candidates.

By Provinces, the number of ballots cast with the number of eligible voters in brackets: Ontario 2,042,294 (2,718,118); Quebec 1,610,510 (2,178,946); Nova Scotia 338,927 (373,383); New Brunswick 225,877 (286,723); Newfoundland 105,189 (182,439); Prince Edward Island 69,388 (85,272).

Still Chance For Sending PEI Potato Seed To India

OTTAWA, Nov. 7.—(Special)—Although W. Chester S. McLure, Progressive Conservative member for Queen's, made special efforts some weeks ago to introduce Prince Edward Island seed potatoes into India, the Dominion Department of Agriculture is applying the potato research institute in India with varieties of potato seed from New Brunswick.

This was revealed today in a letter received by Mr. McLure from P. K. Banerjee, secretary to the high Commissioner for India to Canada. "It looks as though New Brunswick has got in ahead of us," Mr. McLure told The Guardian tonight, "or rather that it has got in ahead of us due to the assistance of the Federal Department of Agriculture. However, I see that there are still our seeds to this prospective new market provided our Island authorities are ready to furnish it."

Most recent letter of the correspondence that Mr. McLure was carrying on with authorities of the Government of India on the subject of introduction of Island seed to India, reads as follows: "Dear Mr. McLure: We have since heard from the director of the central potato research institute, Patna, India, and have been informed that they are already in touch with the Dominion Department of Agriculture at Ottawa regarding the scientific and technical advances in Canada in regard to the improvement of this crop."

Tonight Mr. McLure expressed the hope that either Provincial Government officials or growers will endeavor to have some P. E. I. seeds shipped to India for trial either through the Dominion Department of Agriculture or independent channels. "I have no doubt whatever of the high quality of New Brunswick potatoes," Mr. McLure said, "except from my own observation. They are just in Prince Edward Island are just a little finer, a little healthier and a little more uniform as to grade. I am glad in any case that the potato industry is branching out and seeking new foreign markets and still has hopes that we in our Province will be able to have a share in those new markets."

Fisheries Problems In Limelight Today

Today is fisheries day in Charlottetown. In the afternoon, a five-man panel with Prof. Frank MacKinnon as chairman, will discuss Prince Edward Island's fisheries problems at the Legion Hall and seek the answers to some thirteen questions dealing with the adjustments required to meet the changing markets for Island fish products.

The Charlottetown Board of Trade has invited the members of the P. E. Island Fisheries Association to hear Mr. Alex Skilton, assistant Deputy Minister of Department of Trade and Commerce speak on the fishing industry at its dinner meeting this evening at the Charlottetown.

Guests at the head table will include the speakers at the afternoon panel discussion: Mr. Clive Planta, manager of the Fisheries Council of Canada and Mr. Burke McInerney with the Marketing Division of the Department of Fisheries, Ottawa.

Panel speakers at the afternoon meeting are Messrs. Howard McKichan, manager of the United Maritime Fishermen, Halifax, Gens. Norman chairman of the Provincial Fishermen's Loan Board; John B. Myrick, Tignish, director, Fisheries Council of Canada and Alban MacAdam, Morell, representative fisherman.

It is expected that attendance will include all those interested in the fishing industry from all parts of the Island.

Dr. H. M. Godfrey Dies In England

Word of the sudden death in Hinckley, Leicestershire, England, on Saturday, November 5, of Dr. Harry Mann Godfrey, F.R.C.S., in his 59th year was received with great regret by his friends and relatives here.

Born at Suffolk, P.E.I., on January 3, 1891, eldest son of the late William Henry Godfrey, and the late Elizabeth Mann Godfrey, he moved to Marshfield, and attended school there until 1902. He received his early education at school in Suffolk and at the University of Prince of Wales College. He attended Dalhousie University, graduating in medicine in 1914. The same year he received his commission in the (British) Royal Army Medical Corps and proceeded overseas with the rank of Captain and served with distinction in Italy, Belgium and France.

On furlough in 1917 he married Nursing Lieutenant Margaret Watson Hawley, daughter of the late Reverend and late Mrs. Hawley of Marshfield. Dr. and Mrs. Godfrey returned overseas where he again served until severely wounded in October 1918 shortly before the Armistice.

He used his long convalescence for intensive medical studies and graduated from the University of Edinburgh with his highest degree in Surgery. Dr. Godfrey served on the staff of several hospitals in the British Isles, and later, his recovery complete, entered private practice at Hinckley, Leicestershire, where he specialized in surgery until his sudden death.

Well known in Prince Edward Island as "Harry" visited his old home a number of times and spent a month with his late mother at Marshfield in 1945. Of a kindly and sentimental nature he derived great pleasure from chatting with boyhood friends and in strolling with his thoughts amid the scenes of his childhood, and was looking forward to another visit next year. His sudden demise is sincerely regretted by all who knew him.

He leaves to mourn besides his wife, two brothers, Clifford, manager of the Royal Bank, Summerside, and Arthur, on the old home at Marshfield, and one sister Jean (Mrs. A. A. MacBeath) of Halifax, N. S., passed away in February last.

Mantoba 324,079 (451,882); British Columbia 464,78 (673,782); Saskatchewan 375,471 (472,888); Alberta 341,229 (422,222).

Chief Executive Commissioner Of Scouts At Rotary

Major General Dan Spry, Chief Executive Commissioner of Boy Scouts of Canada was the speaker at the Charlottetown Rotary Club yesterday. The speaker was introduced by Rotarian Robert C. Parson, Provincial Commissioner of Boy Scouts in Prince Edward Island.

The Boy Scouts organization is the largest international movement of the present time, and said Commissioner Spry, and any claim to education and culture should be ashamed to admit he knows little or nothing about Scouting.

Stressing the international nature of the movement, the speaker said that every two years an international conference was held and he had greatly enjoyed the privilege of attending the last conference which had been held in Norway. This was very much like the General Assembly of the United Nations Organization, and it had been attended by 140 men from different countries of the world. From it was elected a committee of 12 members which was the real world authority for Scouting. Although they all wore different clothes, and spoke different languages, yet the members were united in that they all had the same scout law and promise.

There is a great unity in the Scout movement, said the Commissioner. This has been achieved through courses in training starting at the international level. In Canada the National Jamboree held last year debunked three myths which were believed to prevent unity in Scouting. Boys of eleven different denominations of three different languages, and coming from widely separated geographical areas, lived together and worked harmoniously in the development of their scouting ability.

In addition to the 10,000 scouts in Canada all whom are volunteers, there are at least 25,000 men who spend some part of their time on committees. This represents about one million hours a year devoted to making better Canadians. The Boy Scouts help the home, church and school, in training boys to become good men.

Guests included Rotarians A. H. Brittain, Montreal, Rev. Dr. F. W. Patterson, Wolfville, and Messrs. J. O. Egan, R. S. Jardine, C. H. Black, Dr. J. A. Davidson, W. A. Gaudet, and Gordon Kerr.

Meeting Registered Nurses Association

The quarterly meeting of the Prince Edward Island Registered Nurses Association was held in Epworth Hall, Summerside, yesterday afternoon and evening, Mrs. M. A. Macdonald, president of the Association presided. There were 39 members in attendance.

The three committees, public health, private duty and institutional met before the general meeting. Routine business was transacted and plans were discussed for the opening of the provincial office of nursing in the latter part of November.

The guest dinner speaker was Dr. A. R. Grant, Summerside, who discussed the scope and objectives of nursing and its future. Musical numbers included a vocal solo by Miss Muriel Simont and a piano solo by Mrs. Roy Silliphant.

Manufacturing Had Biggest Year In History

OTTAWA, Nov. 7.—(CP)—Canada's growing manufacturing industries had their biggest year in history in 1948. They added out products with a gross value of \$1,900,887,000—nearly \$900 for every man, woman and child in the country.

The value of production was 17 per cent higher than in 1947, itself a record year. The Dominion Bureau of Statistics, reporting the figures today, said the increases were shown by all nine groups of non-metallic minerals, the largest annual increase was in the iron and steel industry, which showed the biggest percentage increase.

During the year, iron and iron products replaced wood and paper as the biggest group of manufacturing products. The total value of the iron group—comprising 18 individual industries—was \$2,261,392,000, an increase of 21.4 per cent. The biggest increase was shown in iron pipes, machinery, automobiles, machinery, primary iron and steel, railway rolling stock and sheet metal products.

The wood and paper group had a gross production value of \$2,207,361,000, compared with \$1,933,243,000 a year earlier. There was higher output in all but one—the copperage industry—of the 27 individual industries in the group.

The vegetable products group, the largest, had a production value of \$1,903,778,000, a nine-per-cent increase. Gross value of the animal products group was \$1,560,761,000, up 24 per cent with increases in slaughtering and meat packing, butter and cheese, and fish curing and packing.

Non-ferrous metals were 21.9 per cent higher at \$1,261,284,000. The total value of the iron group—comprising 18 individual industries—was \$2,261,392,000, an increase of 21.4 per cent. The biggest increase was shown in iron pipes, machinery, automobiles, machinery, primary iron and steel, railway rolling stock and sheet metal products.

With labour high-priced and with increased demands on the time of the farmer, desiring to cut their production costs, any steps taken this fall to improve next year's pasture planning forethoughtness good planning the article concluded.

Baptist Laymen's Association Meets

Dr. F. W. Patterson, former President of Acadia University, Wolfville, N.S., was guest speaker at the season's first meeting of the Laymen's Association of the Baptist Church held last night in the church hall by the President, Lt. Col. D.N. Bell, E.D., presided over the supper gathering.

Dr. Patterson related interesting reminiscences of active living over a 50 year period. He told many amusing anecdotes as he drew on a fund of knowledge amassed from his experiences in contacting men in all walks of life throughout Canada and the United States.

The guest speaker was introduced by Mr. J. P. Gordon, as a great educator, executive and preacher. Dr. J. A. Clark moved a vote of thanks to Dr. Patterson at the conclusion of the meeting.

LITTLE NEW

Continued from page 1

He declared at the same time that the "force of the fighters for peace are growing," and that the existence of a "peace-loving, democratic Germany," side by side with the existing "peace-loving Soviet Union" would exclude the possibility of war.

The Moscow celebration was accompanied by the playing of the national anthems of Bulgaria, Romania, Czechoslovakia, Berlin, Albania and elsewhere in the Soviet sphere.

ISLAND EXHIBITORS

Continued from page 1

Winter Fair today. He took top honors in both male and female sections. In market classes, John Carter of Aulac, N. B., placed first for steers over 701 pounds. Mr. Wells was second, James O'Brien of Amherst, P.E.I., third, and Willie Mitchell of East Amherst, fourth.

Mr. Wells took top spot in the under-700-pound class for market steers. Ron Fort of Fort Lawrence, N. S., was second. Competition was keenest in Shorthorn and Hereford divisions. H. H. Horne of Enfield, N. S., took the grand championship in Herefords. Hazel Call of Fort Lawrence won first place with her exhibit in the senior bull yearling class.

O'Brien captured several sections of the male Herefords division and C. C. Barteaux and Sons of Clarence, N. S., walked off with the most of the male championships. Barteaux's Ethel Heilress II took the grand championship. Grand champion bull of the show—Marie, Lead Resolution—was owned by H. F. Carter and Son, Aulac. The bull also took the reserve grand championship.

Cyrus Eaton's Deep Brook, N. S., entry won the grand title and C. R. Trenholm of Fort Lawrence captured the reserve title. Ayrshires, Guernseys and swine will be judged tomorrow.

DIEFENBAKER

Continued from page 1

The report charged the 11 principal firms of the four-man industry with combining to fix prices at a high level and with threatening small millers with reprisals unless they co-operated in the price-fixing activities.

The flour-milling industry also was alleged to be combining to submit inflated bids on tenders called by Federal or Provincial Governments or other large buyers.

Now Is The Time

Never put off to tomorrow what you can do today. Be smart and have your lawn mower checked and sharpened now for use next spring and before storing it away for the winter months.

Put in a phone call to The Bike Shop—941—and we will pick up your lawn mower for checking. We have the skilled workmen and equipment to provide the utmost in satisfaction in repairing this type of machinery.

Remember that tomorrow is always the busiest day and it pays to keep equipment such as lawn mowers in tip top condition ready for use when needed. In the Spring there is always a rush for needed repairs and snap conditioning. Avoid this by phoning the BIKE SHOP today.

We will appreciate your co-operation now and you too will appreciate later the fact that your lawn mower is in good shape when you first tackle the lawn early next Spring. In the words of the Boy Scouts "Be Prepared"—phone 941 today.—The Bike Shop.

flour-milling would never have been made public. Both Mr. Diefenbaker and Solon Low, Social Credit leader, charged that the motive behind withholding this report was that it might have influenced the Government's chances in the June 27 Federal election if it had been made public before that time.

Prime Minister St. Laurent said the Government had undertaken to counteract in prosecution of the Combines Act as a result of their wartime co-operation. Mr. Gordon said one reason the report was withheld was that the Government wanted to bring in legislation to plug loopholes in the Combines Act first.

He said he had been advised that if the report had been made public earlier, the Government would have immediately been challenged to prosecute. In view of the difficulties encountered in prosecution, the case would have been placed in a similar position.
