The rain which fell about noon had the effect of delaying the judging classes and Andrew Elliott had to leave on the train at five o'clock to the regret of all those present. His few remarks were much appreciated and everyone felt that he thoroughly understood his subject. He will be welcomed when he again returns to the Province. FINE CUT GLASS

Purchasers of cut glass need to make sure that they are getting the genuine article. We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.

Our Cut Glass is fully cut. When the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.

We control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.
