

Why Do You Let The Wind and Weather Mar Your Skin?

This is the time when it is necessary to guard against the elements that spoil the complexion.

Penslar Almond and Cucumber Cream Prevents This

This is a liquid cream of refreshing fragrance that softens the skin and leaves it free from irritation.

Apply it to your face and hands and note how refreshing and effective it really is.

TRY "CASCARETS" FOR LIVER AND BOWELS IF SICK OR BILIOUS

TONIGHT! CLEAN YOUR BOWELS AND STOP HEADACHE, COLDS, SOUR STOMACH.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels.

Then you will feel great. A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drugstore means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

HOCKEY

A very interesting game of hockey took place at the Arena rink yesterday afternoon at 3.30. The two teams were Miss Campbell's and Miss Yeo's rooms of West Kent School.

The score was a tie of 3-3 in the first half. Joe Block scored 1 goal for Miss Yeo's class and in the second half R. Turner scored 2 and H. Cox scored 1 for Miss Campbell's class. Joe Block and A. McDonald scored the other two.

Two clean and well-played games of hockey took place on the Tryon Open Air Rink, Thursday, February 24th, between the Allies of Tryon and the Unions of Victoria. The senior game started about 5 p.m. The game was fast and exciting in the first half which ended in 0-0. The second half started at 5.30 p.m. After five minutes of fast play, Pooley scored for the Allies. This woke the Unions up to business and Wesley Clark with a good rush lined in number one for the Unions, followed shortly by a second, also shot by Clark.

After Earle Lord scored a third for the Unions. This ended a fast and hotly contested game, 3-1 in favour of the Unions.

QUARTER POUND OF BUTTER A WEEK GERMAN ALLOWANCE.

BERLIN, Feb. 28.—Committees receiving butter through the so-called Central Purchasing Association, an association founded by the Government and under its control—must, in accordance with the order of the Imperial Chancellor, introduce butter cards before March 5, to limit the supply per person to a maximum of a quarter of a pound of butter weekly.

Children under two years are not considered in this estimate and those between two and fourteen will receive half the stated quantity.

Fat, or lard, may also be introduced with a maximum of 180 grams of butter and margarine together, or a quarter of a pound of all kinds of fat.

Persons receiving butter by post from outside points, must report the amount received and receive their butter cards correspondingly cancelled.

16 POUNDS OF BLOOD

is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are to day taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes.

DR G. B. CUTTEN GOING OVERSEAS WITH THE 219TH.

HALIFAX, Feb. 28.—One of the presidents of a maritime university is dropping his work at the college to go to the front as an officer in Canada's overseas forces.

Dr G. B. Cutten, president of Acadia College, at Wolfville, has been accepted for service and will command a company of the 219th Battalion in the Nova Scotia Highland Brigade.

Dr Cutten going to the front himself, but twenty-five under-graduates of Acadia have enlisted for the company in the 219th to be commanded by their president. During mobilization, this company will be quartered at Wolfville, so that the students may, while training for their future military work, also keep up their studies as far as possible at the university.

The Nova Scotia Highland Brigade will consist of four battalions and a campaign is being started which, it is hoped, will raise the number of men required in a little more than a month.

Best Lintiment Of All Destroys Every pain But Never Burns

"How thankful we are to get hold of such a wonderful household remedy as Nerviline," writes Mrs. E. P. Lamontagne from her home near Westkewin, Alberta. "In this far-away section, far away from a doctor or druggist, every family needs a good supply of lintiment. Nerviline is the best of all. It destroys every pain, but never burns. We use Nerviline in a score of ways. If it's rheumatism, aching back, pain in the side, sciatica or stiff neck—you can laugh at them if you have lots of Nerviline handy. For sarcoptic toothache or neuralgia, I don't think anything could act more quickly. For a general all-round pain remedy I can think of nothing more valuable and speedy to cure than Nerviline."

The above letter is convincing—it tells how reliable and trusty this old-time remedy is. Nerviline for forty years has been a household word in Canada. Scarcely a home in Canada you can find without Nerviline. Every community has its living examples of the wonderful curative properties of Nerviline which will cure pains and aches anywhere in the joints or muscles. It's penetrating, soothing, warming and safe for young and old to use. Get the large 60c. family size bottle; it's the most economical. Small size 25c. at any dealer's anywhere.

HE WILL IGNORE WHOLE THING, SAYS MINISTER

HALIFAX, Feb. 28.—A story was current on the streets yesterday that Rev. Hamilton Wigle, minister of Charles Street Methodist Church, had assisted German prisoners at the Citadel to escape a few days ago. It appeared that a rope had been furnished, in some mysterious way, to enable the prisoners to cross the moat, and the yarn went that Rev. Mr. Wigle knew something about this. During the evening the Herald office had a great many telephone calls, asking if there was any truth in the story. In order to set the matter at rest, the Herald called up the reverend gentleman at his residence.

"Have you heard this story about your helping German prisoners to escape?" the Herald asked.

"Oh yes," he said, and his laugh could be distinctly heard over the telephone.

"What have you to say about it?" "Nothing at all. My record is well known. But you can say, if you wish to publish anything, that I am told the yarn has been traced directly to the liquor interests in Halifax, because I have been prominent in the agitation for a prohibition law in this city."

"Are you going to do anything about it?" "Nothing at all. I shall simply ignore the whole thing. People know my position. I have contributed from the first to the Patriotic Fund, my sentiments have been frequently expressed in public and there is absolutely nothing for me to say. The enmity of the liquor interests has been aroused because I am the head of the Nova Scotia Temperance Alliance and of the Halifax branch of that organization, and as I said before, the story is traceable directly to the liquor people. At least so I have been informed by a member of the legislature."

HALIFAX, Feb. 28.—At a meeting of the Belgian Cabinet Saturday it was decided to call up the recruits of the 1917 class at an early date.

URGES TRUCE IN BI-LINGUAL FIGHT UNTIL AFTER WAR

OTTAWA, Feb. 24.—That Ontario French-Canadians are within their rights in opposing regulation 17, and that in view of the common peril of all citizens of Canada steps should be taken to remove the cause of the bi-lingual dispute, are statements made by Sir Joseph Pope, Under Secretary of State for Canada, in a letter given out yesterday for publication.

Sir Joseph Pope describes the proposal to "shackle the French-Canadians in their employment of French lest forsooth they should grow up in ignorance of English" as "amazing effrontery, devised by a humorist of the first water" and speaks of "the insanity of those who have selected this supreme and solemn hour of our country's destiny to rekindle ancient causes of dissension among us."

HUMORIST OF FIRST WATER "If a French-Canadian wishes facilities to educate his children in his own language," says the letter, "what should it signify whether he lives on the left or the right bank of the Ottawa River? One sometimes hears that the action of provincial authorities is dictated by a regard for the best interests of the French-Canadians, who are in danger of growing up in ignorance of English. Who ever devised this reason is undoubtedly a humorist of the first water."

"Now I hold the French-Canadians of Ottawa are the best judges of their requirements. Their attitude strikes me as entirely reasonable. They are not averse to learning English. On the contrary they are keen to acquire both languages and in this respect they put us English-speaking people to shame."

"And yet the French-Canadian children are to be shackled in their employment of French lest forsooth they should grow up in ignorance of English. What amazing effrontery is here."

AN IMPUDENT PLEA. "Even more impudent is the plea sometimes put forward that the French cannot be given any advantage over the languages spoken by Gallicians, Ruthenians, Doukhobors, Poles, and other interesting races which have recently immigrated to Canada. As though the French should enjoy no consideration in the country which they redeemed from savagery and which they have dwelt in for 300 years over the heterogeneous peoples who came to us yesterday from eastern Europe."

"At any rate, let us begin by calling a truce in this wretched school business until the Te Deum ascending from St. Paul's proclaims the triumph of our country's arms. Perhaps by that time the experienced Poles, and other interesting races, together with their brave French comrades in arms, together with the memory of our gallant dead now sleeping in the blood-soaked soil of France, may not be without its effect in bringing about a better understanding between the two main races which compose this Dominion."
