Sir Herbert Holt, already said to be the wealthiest man in Canada owning a million dollars for every one of his 72 years, came once more into the financial limelight when, in conjunction with his younger and not less aggressive partner, J. H. Gundy of Toronto, he became an active force behind the reorganization of the British Empire Steel Corporation, an unwieldly and badly financed but potentially great amalgamation of coal, iron and steel interests. The retirement of President Roy M. Wolvin coincided with the entrance of the Holt-Gundy interests. ABOVE is shown a recent portrait of Sir Herbert Holt.

Mt. Carmel, Roll Call was answered by the sixteen members of the institute which met at the home of Mrs. Joseph J. T. Richard committees were appointed to visit the schools. Beautiful musical selections were given by the president and Mr. Henry Richard.

Cowell Cove At the January meeting a large number of members met at the home of Mrs. D. R. McDonald when Roll Call was answered by "a New Years resolution. Bills were requested paid. It was decided to hold a Valentine party in the hall on the 14 th. Lunch was served and a social hour was spent. Roll Call at the next meeting is to be answered by "My favourite book and Author".

..*EASTERN AGENT—Mr. J. W. Murdock is Guardian Agent in Montague and will be pleased to receive news items, advertising, new and renewal subscriptions.

Striped Tulips Coming Back

There is a decided revival of interest in the striped tulips. Both from an historical standpoint and in the real beauty and oddity of the flowers they are deserving of wide planting. It was the striped tulip that formed the basis of Holland's tulipomania, a wild speculative era in bulbs. The striped tulips are regarded by some authorities as the mature form of the plant which starts out in life as a self color with no definite variegations, although it may shade into two-color tones. Breaking does not occur in the yellow or white tulips or in the species. It is confined to the garden tulips, which are a hybrid race.

Since the tulipomania time a new class of striped tulips has been added known as the Rembrandts. These are broken forms of the Darwin with the same soft coloring in rose, red and lavender and purple on white grounds. They have the Darwin height and shape and are usually fascinating tulips. These stripes may well be planted in mixed colors.

The two principal classes are known as the by-blooms and bizarros and are striped forms of the cottage tulips. The by-blooms have white grounds marked with shades of red or purple, being subdivided into roses and tulips, and the bizarres have yellow grounds variously marked with red, purple and brown tones. To these must be added the strange parrot tulips, with huge flowers and slashed petals in various markings of red and yellow and sometimes with green stripings.

The last two classes are shorter stemmed than the Rembrandts. They also have smaller bulbs than the Darwin, Cottage or Breeder types. They should be planted by themselves as they do not seem to harmonize with the self-colored tulips. A planting of these strange-ly striped bulbs always attracts attention and interest. They are at their best against a background of shrubbery or with a white background such as is offered by Deutzia Lemoinei.

The finest types have been named and are the most desirable, but this is one tulip class where mixed bulbs are satisfactory. If you are unfamiliar with these striped tulips a small planting will prove of unusual interest. The Rembrandts are the most striking of the lot and the Bizzares show the most unusual colorings. They require the same treatment as the other tulips.

George W. Russell of Ireland, poet, painter, economist, political publicist, editor of the Irish Statesman. This versatile resident of the Emerald Isle is to lecture in Canada.

P. E. Islander Is Honored

BOSTON, Feb. 14—C. S. Ching supervisor of industrial relations of the United States Rubber Company was elected president of the American Management Association at the annual convention of that organization in New York yesterday.

Mr. Ching was born in East Point Prince Edward Island and for many years was connected with the Boston Elevated Railway Company. Since 1919 he has been on the staff of the president of the United States Rubber Company.

He made his address as president of the Management Association at a luncheon yesterday at the Roosevelt Hotel, New York, and in conclusion of that speech spoke of "Management Thinking in Broader Terms." He said in part:

"As in all its problems, American management today is thinking in broader terms. It carries as never before greater responsibilities to our whole society and is keenly aware of these new duties. It likewise holds the greater confidence of the public and should leave nothing undone to merit and improve that faith.

"If the action and words of any misguided members of management tend to weaken this goodwill and destroy this confidence, then it is the responsibility of those who more truly represent our great group to counteract this influence. The success of busines as a whole, as with an individual concern, is dependent upon public good will. In the last analysis, the Great American Public is our final boss."

Minard's Liniment for sick animals.

Woman's Wisdom

Kingston, Ont.—"Dr. Pierce's Favorite Prescription is such a great help to nature in motherhood, I marvel that every prospective mother does not take it. I had two children before I knew that there was such a tonic. My former experiences caused me dread. By chance I read that Dr. Pierce's Favorite Prescription quieted the nerves and strengthened the body of the expectant mother and I proved that statement to be true, also I had comparatively no suffering and did not lose any of my strength or vitality. My baby is now 2 years old and weighs 20 lbs., is the picture of health."—Mrs. Olive Brown, 12 Markland St.

Stuart Brown

Lord Strathcona Trust Committee Meets

A meeting of the Lord Strathcona Trust Committee was held Thursday night in the Canadian Legion home with Col. Commandent Powell in the chair.

Col. Sparling, District Staff Officer, was present, as was also Captain Logan, District Cadet officer, together with the local members.

Considerable discussion took place in connection with the exercising of public interest in physical training in the Public Schools! Prizes will be offered to the schools showing the greater proficiency in each Inspectoral District. A gold annd silver medal will also be given to the two best candidates attending the P. T. Class in Prince of Wales College.

Prizes will also be given to the three cadet corps making the best showing at the annual inspection.

A sum of $25.00 was voted to the Provincial Rifle Association as prizes for Cadet Matches. A resolution of sympathy was passed to the family of the late Doctor James Warburton, who for many years was a member of the local committee.

Department Of Colonization For P. E. I.

AN OPTIMISTIC AND INSPIRING ADDRESS GIVEN IN SUMMERSIDE LAST NIGHT. THE GREAT POSSIBILITIES OF PRINCE EDWARD ISLAND POINTED OUT AND WHAT WE SHOULD DO.

A decidedly enlightening and inspiring address was delivered before the Summerside Board of Trade, says the Agriculturist.

Mr. H. T. Begg, the new president, presided.

Mr. Hyndman had before him a wonderful amount of correspondence and other information relative to the requirements of this Province and efforts made on its behalf from a number of sources.

The main thing stressed by the speaker, however, was Prince Edward Island's need of a greater population of the right kind of settlers and as a means towards this end the urgent necessity of the establishment of a Colonization and Publicity Department like they have in the other Provinces of Canada. He showed conclusively that it was of little use having settlers come here if there was no organization to look after them. Every immigrant brought here and not looked after was nothing more than giving a black eye to the Province.

Mr. Hyndman showed how in the past lack of transportation facilities had been the great draw back to this Province and had been responsible for many of our people going elsewhere to live. He showed that before the advent of the car ferry our farmers were only getting fifty per cent of the value of their products, the home market was glutted and there was no prospect of a farmer making a worth-while living. Under such conditions the population decreased at an appalling rate and our people went abroad to enrich other lands with their labor.

Mr. Hyndman outlined rapidly the steps taken in desperation to overcome the conditions sapping the life-blood of this Province. He told of the work of the Boards of Trade, the efforts for closer co-operation between the business meetings which lead to the organization of the Potato Growers Association and the various resolutions passed and efforts leading up to the Duncan Commission report. He referred to the course of agricultural addresses now being featured before the Rotary Club in Charlottetown and the great interest that has been aroused. The people are only beginning to realize the immense possibilities of this Province, and showed that it is imperative that this Island be granted the same consideration on the part of the Government with reference to immigration as other Provinces receive. But it is of the utmost necessity that we have proper organization to look after such immigrants when we do get them. He instanced the case of a Mr. Machin already referred to in the local press, an intelligent farmer who came to this Province from England with the intention of settling here and who wandered around without any assistance or direction from anybody and was about to make his departure in disgust when somebody wrote to Mr. Hyndman about the case. He got in touch with him, and was able to be of assistance in getting Mr. Machin properly looked after. The outcome was that this man purchased a farm at Southport and is making a wonderful success and is an enthusiastic booster for the Island. He declares it to be the finest place he ever saw and that he never saw such growth and production as our soil affords in such a short time. He consented to speak before the Charlottetown Rotary Club recently and inspired everyone. Mr. Hyndman considered he would make a splendid immigration agent for P. E. Island.

Mr. Hyndman also referred to the many Danes and Norwegians coming to Canada who are proving splendid settlers and who would be an asset to this province. He also emphasized the necessity of endeavoring to get the thousands of Islanders located in the New England States back home. Conditions in the States have undergone a change and there is a great deal of unemployment, whereas in contrast conditions here are vastly improved over the days when these people left us. There is a great amount of room here for men who are willing to work. It was pitiable to go through the Province and see the many vacant farms which might be bringing good returns with the right kind of settlers in charge. As Mr. Machin, the settler referred to above had said, if many of the settlers who go to the prairies knew the possibilities which exist here they would not hesitate about coming. That gentleman had been to the West and knew.

In conclusion Mr. Hyndman stated that it was hoped that during Farmers' Week in Charlottetown to have another joint meeting of farmers and business men and go further into these problems and urge upon the Provincial Government the imperative necessity of taking action towards establishing a Colonization and Publicity Department.

Remarks followed from Senator MacArthur who expressed great pleasure at hearing the address and emphasized the need of immediate action, Mr. Charles R. Rogers, who strongly endorsed the remarks of Mr. Hyndman, declaring it would be only right to send a delegation down to support the project for a colonization department, Mr. H. T. Holman and Ex-Mayor Lidstone, who both expressed their approval of the address.

On motion of Mr. Rogers, seconded by Mr. Holman, the unanimous thanks of the Board was tendered Mr. Hyndman at the close.

Moore & McLeod Limited

THE BIG DIFFERENCE

You can find any number of used cars that appear to be in about the same condition.

The paint may look the same; the tires may show the same amount of wear. The general appearances may be about equal.

But what do they show inside? How do they compare at the vital points? There's the big difference.

To know *that*, you must rely entirely upon the used cars dealer from whom you buy.

Countless owners who have bought used cars from us will gladly tell you that we have never misrepresented any car we have sold.

W. B. PROWSE & SONS
Charlottetown P. E. I.

A USED CAR IS ONLY AS DEPENDABLE AS THE DEALER WHO SELLS IT
