PARIS, Mar. 19—Louis LePine, prefect of the Paris Police and head of the most remarkable police organization in the world, resigned today after twenty years service interrupted only by an absence of two years, when he served as governor general of Algeria from 1897 to 1899.

LePine is 67 years of age and served through the French German war of 1870 as sergeant in the fortress of Belfort.

When the war was ended he was called to the bar and became Prefect of Police of Paris in 1893.

LePine was absolutely fearless and attracted much attention by his aggressive manner in suppressing "Apaches" or rowdies who for a time infested Paris. He also took a prominent part in the capture of the motor bandits. Practically every monarch or head of state in Europe knew LePine for he was present at their arrival and departure from Paris and took sole responsibility for their safety while here.

**To-day's Dinner—
A Hundred Dishes in
a Single Packet.**

Whatever there is for dinner to-day, you can improve it by the aid of Edwards' Soup. First of all, empty a packet of Edwards' into water and let it boil for half an hour, stirring now and then.

If it's a joint, just stir a little of the made soup into the gravy and note the improvement in flavour and savour.

If it's a stew you'll be surprised how much more tempting you can make it by adding Edwards' Soup.

If it's the dreaded "cold dinner" you certainly need Edwards' Soup in the kitchen to-day. Warm those cold pieces up, and add the made Edwards' Soup and you have already made a hash fit for a prince.

If it's a soup, just pop a little Edwards' Soup in the saucepan when you start—you'll never forget to do it again.

EDWARDS' SOUPS

Edwards' Soup is a grand thick nourishing soup in itself—it comes to you in dry granulated form all ready for the saucepan.

5c. per packet. Edwards' Desiccated Soups are made in three varieties—Brown, Tomato, White. The brown variety is a thick nourishing soup prepared from beef and fresh vegetables. The other two are purely vegetable soups.

Lots of dainty new dishes in our new Cook Book. Write for a copy post free.

**A WEAK, ACHING BACK
Caused Her Much Misery.**

Kept Her From Sleeping Nights.

Weak back is caused by weak kidneys, and on the first approach or evidence of kidney trouble Doan's Kidney Pills should be used, and serious trouble avoided.

Doan's Kidney Pills go right to the seat of the trouble, cure the weak aching back, and prevent any further complications arising.

Mrs. W. R. Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For this last year I have been troubled very much with nasty sick headaches, and a weak aching back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at nights. I tried many kinds of pills and medicines, but it seemed almost in vain. I began to give up in despair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a sore back or sick headaches. I will always say Doan's Kidney Pills for mine and can highly recommend them to any sufferer."

LONDON, March 18—The Queen Mother Alexandra received an official bulletin today that her brother, King George of Greece, has been assassinated in the streets of Salonika.

Two men attacked the King from behind and he died in half an hour.

One of his assailants, Alexander Schiras, is supposed to be demented. All measures for the preservation of order have been taken by the Greek authorities.

Constantine the Crown Prince of Greece, who is with the Grecian Army at the front, will succeed to the crown of the Hellenes.

ST. JOHN, March 18—At the quarterly meeting of the Presbytery at St. John in St. Andrew's Presbyterian Church today the Presbytery heartily endorsed the proposal by Geo. Knight, "Stranger Sec." to open a moving picture theatre at Courtney Bay construction works, in connection with the mission there.

In moving his proposal Mr. Knight laid strong emphasis on the fact that it would induce the foreign element and keep them away from the city dives.

He also stated he understood that a moving picture house was contemplating opening a theatre on the grounds and advised the Presbytery to get in first. The idea of being sole owners and proprietors of a house of amusement so caught the fancy of the ministers that the proposal was adopted without argument.

This is the first time in the history of St. John that the Church has gone in for owning a theatre as a momentary proposition.

LONDON, Eng., March 18—Some idea of the actions of the militant suffragettes in prison is furnished by the following letter from Sylvia Pankhurst.

Miss Pankhurst is one of the suffragettes now in Holloway prison who is on the hunger strike.

The letter says: "I am fighting, fighting, fighting. I am fed through a stomach tube twice a day. Doctors pry open my mouth with a steel gag my teeth but I resist, and fight all the time. I am afraid they will say we submit too easily but my shoulders are sore where I have fought them every time they tried to feed me."

This letter has been issued by the Militant Suffragettes' Union and has caused much excitement.

SALONIKI, Mar. 18—King George of Greece was assassinated this afternoon while walking in the streets of Saloniki. The assassin was a Greek of low mental type. He gave the name of Aleko Schinas. He shot the king through the heart. The king was accompanied only by his aide-camp, Lt. Col. Francoudis.

The assassin came suddenly at him and fired one shot out of a five-chamber revolver. The tragedy caused intense excitement.

The Assassin was at once seized and overpowered, the wounded king lifted into a carriage and taken at once to Papafion Hospital. He was still breathing but died in half an hour.

Prince Nicholas, the King's third son and other officers rushed to the hospital. Arriving first Prince Nicholas summoned the officers and speaking in a voice choked with sobs said "It is my deep regret to announce to you the death of your beloved King and invite you to swear fidelity to the New sovereign King Constantine.

The Crown Prince Constantine, who is at Kanina and who succeeds King George, is expected to arrive here full speed.

The Assassin of the King is an evil looking man of forty years of age. At first he refused to explain his motive for the crime. He declared his name was Aleko Schinas and in reply to an officer who asked him if he had any pity for his country said he was opposed to all governments. He maintained a perfectly impassive demeanor which suggests he is irresponsible for his action. Not the King received attention he was found to be dead, when he reached the hospital.

Precautions were at once taken throughout the city and perfect order is being maintained.

CALGARY, Mar. 17—Crowded with passengers, mostly women coming in to the city to work, a Tuxedo Park special car broke away from the motorman while descending the steep grade at the foot of Fourth Street East and rushing twenty miles an hour over the ridge, at a sharp curve at the bottom of the hill left the track beyond the turn, smashed into a telephone pole, turned on its side and injured thirty persons.

The injuries, however, in nearly every instance, were of a mild character. Immediately following the turning over of the car an oil stove upset setting fire to the woodwork and in a few minutes a brisk blaze was in progress. An alarm of fire was sent in for a while it looked as if some would be severely burned.

SUMMERSIDE, March 17—Walter Jones delivered a very interesting lecture on fur farming in St. Paul's Hall, this evening.

The attention of the audience was held throughout by his delightful way of giving his address and by the lantern slides illustrating the life and habits of the fur bearing animals.

One of the most important things that might be discussed was the conservation of wild life in Canada. Other tries for Prince Edward Island were horticulture and fruit growing. The scenery of the Island is beautiful, but the most impressive sight is a black fox such as has made the Island famous.

The statistics were hard to get concerning the fur trade but the prices for all Canadian valuable furs have advanced 300 per cent during the past twenty years. The reason for this was the demand was greater than the supply. Tables were given showing the rise in price of the furs and the decrease in quantity for the past thirty years. The total value of furs purchased in Europe yearly was about \$84,000,000 worth.

Passing on to the fox he gave slides showing this beautiful animal in several different positions. One of the pictures shown was of the Hon. Chas. Dutton in his ranch with a pair of foxes. Different fox ranches were shown. Some from Quebec, Ontario, Nova Scotia and Prince Edward Island. Other slides were pictures of pelts in the London markets. A map of North America was shown on which were marked places where the climate was suitable for the breeding of foxes. Interesting facts and features were given about other fur bearing animals such as the mink, weasel, Otter and Ermine. A vote of thanks to the lecturer, moved by Mr. J. H. Bell and seconded by Mr. A. C. Saunders, was tendered Mr. Jones to which he suitably responded.

NEW YORK, March 17—Dr. Friedman is ready to treat, without charge, all sufferers from tuberculosis, according to his brother Dr. Arthur Friedman, who today declared it a crime not to permit him to do so.

Dr. Friedman has been refused permission to treat except in connection with certain hospitals by the medical authorities of the city. Since his arrival here hundreds of sufferers have begged him to aid them.

One man who came from a distance and who laid daily siege to Dr. Friedman at his hotel has a temperature of 104 and 105 and is walking about the streets.

He may drop dead in the streets. We cannot help him.

Dr. Friedman can only treat cases in hospitals and those under care of government physicians.

There are hundreds of persons in New York to whom he wants to give treatment for the sake of humanity but his hands are tied.

He is eager to treat these patients, rich and poor alike, without charge. It is a crime not to allow him to do so. Friedman today treated a dozen persons suffering from pulmonary tuberculosis at Bellevue hospital. All are in advance stages of the disease.

TORONTO, March 17—Heading a delegation of prominent eastern Odd-fellows, D. Nicholson, M. P., Charlottetown; A. F. Cox, Truro; W. E. Brokenshire, Halifax, arrived in the city today to attend a unique fraternal function.

During the meeting of the Grand Encampment at Winnipeg last Sept. Fred Sellers of Charlottetown was a member of the party including Mrs. Sellers, Mr. and Mrs. J. A. McDonald, Mr. and Mrs. Wm. Brooks, Toronto. On leaving Winnipeg Sellers was taken ill. Under the direction of Brooks he was brought to Toronto and taken to the General Hospital here.

Mrs. Sellers going to Brook's home a few days later. Sellers died. Brooks taking full charge of the remains, had them sent home for burial.

Far east members of the order were so pleased at the brotherly kindness on the part of Brooks that the Grand Officers in the Maritime Provinces determined to show their appreciation. Tonight at the function attended by upwards of 500 members of the Order Brooks attended and was presented with a solid gold watch and chain. Mrs. Brooks received a gold watch and locket. Mayor Hocken presided.

**Rheumatism
Crippled Arms**

So stiffened up by rheumatism that he could not dress himself without help was the condition of Mr. Clarke, who tells in this letter how he was entirely cured by Dr. Chase's Kidney-Liver Pills.

The kidneys must be got right before rheumatism can be really cured, and hence the success of this great medicine.

Mr. James Clarke, Maidstone, Sask., writes:—"I can honestly say that Dr. Chase's Kidney-Liver Pills have done me a world of good, and cured me of rheumatism. For two years I suffered from rheumatism in the shoulders, and could not raise my arms above the head. I could not dress or undress myself without help, and was obliged to hire help to do my work. No medicines that I could find did me any good."

"A friend wrote from England and begged me to try Dr. Chase's Kidney-Liver Pills. This treatment soon brought relief, and in six months I was entirely free of rheumatism. That was four years ago. I am now 60 years of age, and can do a day's work with any man."

**Child Almost
Strangled**

You never know what minute a child will develop a bad cold or be seized by croup. For this reason it takes a great burden off every mother's mind to have at hand Dr. Chase's Syrup of Limesed and Turpentine.

Mrs. E. W. Silver, South Milford, Annapolis County, N. S., writes:—"I have used Dr. Chase's Syrup of Limesed and Turpentine for my little boy, with most satisfactory results. His throat would fill up with phlegm so bad that he could scarcely make a sound, and I thought he would surely strangle. He grew worse, and had frequent bad attacks, so I began using Dr. Chase's Syrup of Limesed and Turpentine. Scarcely half a bottle was used when the strangling ceased. This medicine had a wonderfully soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment, with equally good results. It is a grand medicine for salt rheum."

There are imitations, but the genuine Dr. Chase's Syrup of Limesed and Turpentine bears the portrait and signature of A. W. Chase, M. D., the famous Receipt Book author.
