This Province has long groaned under the burden of triple freight rates and defective communication with the railway system of the mainland involving the frequent handling of goods in transit.

That my Government has succeeded in completing such arrangements as will give to this Province the same power of leasing such areas and receiving the rents therefrom for the public use, it would be hard to over-estimate the advantages which will accrue to this Province from the development of this great fishery which otherwise would soon have been destroyed.

Before entering upon other business Premier Mathieson introduced the usual formal bill, then on motion of Mr. Myers, seconded by Mr. Gallant it was resolved that the Governor's speech be taken into consideration on Thursday—today.
