

Seeing the Maritimes

(Continued from page 9)

Few Mortgages There

The rural scenery of the Island is a tonic for tired nerves. Its pastoral scenes, dotted with smiling farms, stately trees and luxuriant hedges, probably approximate more closely to those of the British Isles than any other part of the continent...

Charlottetown

Arriving at the capital, further evidences of Island hospitality awaited the party. In the throng which filled the station platforms, the Barriettes found Rev. H. D. Raymond, a former rector of Trinity Church and Mrs. Raymond, both of them looking as though the Island atmosphere agreed with them...

Great Summer Resort

As a summer resort Prince Edward Island has greatly increased in popularity during the last few years, and those spending their first vacation there usually want to repeat their experience. When one considers that its summer climate is delightful and the waters which dip into its bays and coves ideal for bathing, the charm it has for summer tourists is easily appreciated...

History Dates Back to 1534

Prince Edward Island has an interesting history as well as a present reputation. It was visited as early as 1534 by Jacques Cartier, tentatively settled by the French in 1663, but its real settlement began when Acadians, after being expelled from Nova Scotia in 1755, found a resting place on its shores...

Summerside

Breakfast over, the visitors found themselves in automobiles that citizens of Past President Brennan's town had driven over to take us across to Summerside. The drive was one not soon to be forgotten. The atmosphere was wonderfully clear and bracing. Eighteen miles was all too short a drive over this beautiful country...

A Hielan Welcome

At noon the party were guests of the Board of Trade at the Britannia Club, at the entrance of which they were welcomed by Mayor Lidstone and Sandy McGregor the latter in full Hielian costume. Sandy proved himself a versatile chap and acted as general pep-master for the programme. The banquet hall was prettily decorated with an excellent orchestra was generous with its music and the ladies were more than generous with provision for the inner man, served by charming young ladies...

INTRODUCTION.—The Bible runs the gamut of human characters and experiences, from numbers to highest soprano, and numberless combinations included. It is not a storehouse of exhaustless examples for admonition and instruction. One of these characters, with a checked experience, like so many of us, is John Mark.

1. His opportunities. He was brought upon an unusual home of gospel privileges. It was in his mother's house that many were gathered together for prayer when the Lord by an angel delivered Peter from Herod's prison just before he was to be executed, and it was to this house that Peter came, to inform the amazed disciples of his release. What an example this was of God's care and power, tending to give Mark a lifelong assurance of security in divine service. Later on Mark went with Paul and Barnabas from Jerusalem to Antioch, a trip on which he accompanied Paul to have inspired him to burning enthusiasm and daring zeal, and which in a measure it doubtless did. At Antioch he also saw the power of the Spirit manifested in the church and felt the uplift of the call to the consecration of Barnabas and Paul for their evangelistic mission. On that tour he was an attendant of the two great leaders through the island of Cyprus, witnessing the preaching in the synagogue and witnessing the judgment on Elymas the sorcerer and the faith of the Roman proconsul. Thus far the record has no note of disapproval and all appears at least outwardly, to have been well. But unfortunately then came...

2. A change. For some reason, or for various ones, Mark at Antioch turned back and went not with them inland into Asia Minor among the uplands, but sailed away to Jerusalem and home. It seems to have been a plain case of backing out, of virtual desertion. Weariness of toil, fear of peril, shrinking from hardship, possibly a little resentment of Paul's increasing leadership and the retiring to a subordinate position on the part of Mark's relative Barnabas, and the love of home and ease—all these elements may have entered into the case. At least he drew back. And on the next trip Paul refused to allow him to go in spite of the contention of Barnabas to the contrary. The full merits or demerits of the controversy are not defined in the record but it seems quite plain that Paul was at least nearer right than Barnabas, for the one took Mark and sailed away to his native island Cyprus, while Paul chose Silas and returned to Asia Minor, being commended to his work by the church. At least Mark had brought upon himself and others not a little trouble, and separation from the great work of Paul. His defection had brought to himself, if not to others, harm and distress. Men justly disapproved his slacking and surely God can not do less in the prosecution of his supreme war. It does not pay to flunk, at least where one is not obliged to do so. But happily this was not the end.

3. The saving come-back Mark at last made good. The after record is a bright one. Later on in Paul's life, when in prison at Rome, he wrote a commendatory note regarding Mark to the church at Colossae stating that he had already given commandment to them regarding Mark, and enjoying on them to receive him if he came to them. In his last letter to Timothy, from his last imprisonment he calls on him to bring Mark when he comes, for he is profitable to the apostles for ministry. It is a gracious covering of the past and pledge of restoration. And Peter in writing the "Babylon," which ancient authorities say was Rome speaks of Mark as his son. Tradition says Mark was with Peter at Rome and took his gospel from the reports by Peter of Christ. That gospel has immortalized the memory of Mark and made him a blessing of untold worth to untold multitudes. With God is "merciful remission," what hope there is in the history of Peter and Mark.

4. Paul thought the work was too important for them to risk trusting it to one who had not proved to be trustworthy. Barnabas was ready to give the young man another chance. Verse 39. Though they parted, neither one abandoned the work. Instead of one team, we have two. Would that all of our disagreements as to details might end in doubling the work.

5. Verse 40. Silas was one of the chief men in the church of Jerusalem. 2 Tim. 4: 11. Paul, writing from the Roman prison, asks for Mark. The confidence of Barnabas in the young man has not been misplaced.

PRACTICAL TEACHINGS.—It is the privilege, as well as the duty, of every church to be a missionary church. Mere enthusiasm is not sufficient to constitute a missionary call; Paul took malaria at Perga, but went on; John Mark took it and went home. "It is not the making of mistakes that makes a man, but it is the wise use of mistakes that enables a man to be made."

Signals to Mars (By Dominion News Service.) LONDON, Sept. 6.—Is it possible to send messages to Mars—assuming there are Martians to receive and understand them? An astronomer who has been keeping Mars under observation for a year has been suggesting possible methods of signalling from the earth, under the conviction that the planet is the abode of intelligent life.

Unfortunately the one method suggested as the most favorable—that of light signals—is of all the methods proposed the most impossible; and if there were any chance of its success it would certainly not be when Mars is nearest the earth.

It would at first sight seem that, as Mars is so magnificent an object in the night sky when it is nearest, bigger, ought then to be a much more splendid spectacle in the night sky of the Martians.

But actually at the time our planet is quite invisible to the hypothetical Martians, for it is then broad daylight on the Martian hemisphere turned earthwards, and an observer on Mars could only see the earth if it were artificially illuminated on every square mile of its surface by a light more powerful than sunlight.

If it were possible to make a light, or a mirror to reflect the sunlight, with an area of at least 2,000 square miles, it might just be seen from Mars by means of a very powerful telescope. But these signals would only be possible, when Mars, seen from the earth, is about 90 degrees from the sun, and the earth, seen from Mars, a thin crescent, visible for a few minutes before sunrise and after sunset on Mars.

Assuming it were possible to construct an electric light, or a mirror, three times the size of Greater London, and mount it on a huge axis parallel to the earth's axis, to counteract the eastward rotation of the earth, the experiment might be tried next Easter week, or later, about Christmas Day, when Mars will be 90 degrees from the sun, but over 100,000,000 miles from the earth—three times as distant as when it is nearest the earth next August—and the earth quite invisible to the Martians.

There is more hope of reaching Mars by aeroplane than of getting into communication with its supposed supermen by any method of signalling which depends on light to carry our greetings, for a half-penny 30 miles away would appear bigger than a terrestrial "spot" of light 2,000 square miles in area would to the Martians in a giant telescope, the smallest light signal they could possibly see.

FOX BREEDING ON PRINCE EDWARD ISLAND The following is taken from the Rural New Yorker a suburban country journal of Sept 1st.

BIBLE THOUGHTS MEMORIZED WILL PROVE A PRICELESS HERITAGE IN

SEPTEMBER 9

GOD CREATED:—All things were made by him; and without him was not anything made that was made.—John 1:3.

SEPTEMBER 10

JUST AND RIGHT:—A God of truth and without iniquity just and right is he.—Deuteronomy 32:4.

SEPTEMBER 11

CHOOSE YOUR ASSOCIATES:—Be ye not unequally yoked together with unbelievers: for what fellowship hath light with darkness.—2 Corinthians 6:14.

SEPTEMBER 12

HUMBLE YOURSELVES:—Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time. Casting all your care upon him for he careth for you.—1 Peter 5:6,7.

SEPTEMBER 13

HEAR, O ISRAEL:—The Lord our God is one Lord. And thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might.—Deuteronomy 6:4,5.

SEPTEMBER 14

WHY NOT?—O ye simple understand wisdom: and ye fools be ye of an understanding heart.—Proverbs 8:5.

SEPTEMBER 15

VERY GOOD:—And God saw every thing that he had made and behold it was very good.—Genesis 1:31.

the conversation heard that about every business man had a fox or two farmed out somewhere to make a little money on the side. The number of foxes in each ranch runs all the way from ten to one hundred and in a few instances even higher. The pens are located in well wooded groves and surrounded with special wire fencing. In weight the animals run from eight to fifteen pounds, and in color from light silver to jet black. For breeding purposes as high as \$30,000 a pair was obtained in the early days of the industry, while as high as \$2,628.98 has been secured for a single pair, the highest figure ever paid on any fur market. Several ranch owners have made fortunes out of their enterprise, and well established companies are said to pay dividends, running in some instances to 15 per cent. The animal value of the fur farms of the province is estimated at about two million dollars.

Banquetted Again After a pleasant couple of hours sightseeing the party were guests of the citizens of Charlottetown at a banquet served in the Technical School where a delectable repast was spread by the Ladies' Aid of the P. E. I. Hospital. Addresses of welcome were given by Mayor Jenkinson and Lieutenant Governor Macdonald, with replies by J. A. M. Gorge of Deloraine, Man, and E. Roy Sayles. Interspersing these were delightful solos by local talent.

At this function, the writer had the pleasure of meeting Mr. Cotton, a veteran newspaperman who was editor of the Charlottetown Examiner for many years. This paper unfortunately fell a victim to the increased costs of publication a couple of years ago.

That the city does not want for education which comes through the press is evident from the fact that it contains no fewer than three daily newspapers. Quite ample, newspapermen will agree, for a city with a population of twelve thousand. One of these the Guardian, carries the unique motto, "Covers P. E. I. like the dew."

Nine o'clock found the travellers once more aboard the train. It had been a long day, packed full of enjoyment—a day in which the Press folk had been glad to learn so much concerning the resources of this splendid little province, to enjoy some of its many charms and to appreciate the wonderful hospitality of its people.

J. A. M.

On the 14th of August Peter Ranahan a respected citizen of Charlottetown passed away at the advanced age of 81 years. Deceased had been a patient sufferer for a year previous to his death and before his illness with that resignation that marked the fine spirit of the Christian. For 46 years he was employed as light house keeper at Ferwood and on his retirement six years ago was presented by His Majesty with the Faithful service medal. No public employee earned more deservedly than Mr. Ranahan this mark of appreciation of services rendered. Mr. Ranahan was a gentleman in every sense of the word during his life time and enjoyed the respect of all classes and creeds. He leaves to mourn a sorrowing widow, two sons Thomas who succeeds him as Light house keeper Ferwood, Emmett of White Hall, New York, and Mrs Rhodes of New Hampshire.

His funeral which was one of the largest ever held on the Island took place on the 16th of August at St. Peter's Church, Seven Mile Bay, Father Monaghan officiating with the following friends of the deceased as pall bearers, Messrs Michael McCarvill, Michael Mulligan, Thomas McCarvill, Patrick Mulligan, James Murray and Michael Moan.

To his sorrowing widow and children the sympathy of the community is extended.
