

FRUIT

As a Medicine.

Fruit has been used as a medicine for thousands of years. Every one knows its value as a laxative. The pure juice of apples acts on the kidneys and makes more urinary excretion than any other remedy in the world—but the patient must take half a pint three or four times a day. Apple juice is most curative in kidney disease. The juice of four large oranges taken before each meal and on retiring at night has more curative action on the skin than any remedy ever discovered. Orange juice clears and beautifies the complexion. Again, fruit acts on the bowels and makes them move—acts on the liver and makes more bile flow, which is the natural purgative of the body—and thus cures constipation. An Ottawa physician after years of labor has discovered a process of combining and concentrating the juices of apples, oranges, prunes and figs—and by forcing into the united juices one more atom of bitter from the orange peels, a new fruit is obtained which has all the valuable medicinal qualities of fresh ripe fruit and in a more marked degree. The new and stronger fruit is condensed into powder, made into tablets, with the addition of tonics, and sold under the name of "Fruit-a-tives" or "Fruit Liver Tablets." It has been proven in hundreds of cases that "Fruit-a-tives" are a positive cure for constipation, biliousness, headaches, kidney and liver diseases and all blood impurities. "Fruit-a-tives" are fruit, concentrated and made stronger than ordinary fruit. For sale at Druggists on receipt of price by FRUIT-A-TIVES LIMITED, Ottawa.

THE CHARLOTTETOWN GUARDIAN

An Independent Journal, aiming to be JUST, IMPARTIAL, RELIABLE, NEWSY, seeking at all times to further the best interests of the people and Province, and recognized therefore as

Present city deliveries may be changed to any country address for any length of time without extra charge. Orders may be left or sent to head office, Charlottetown.

THE CHARLOTTETOWN GUARDIAN

WEDNESDAY MORNING AUGUST 9, 1905.

THE STATION SITE.

These are the days in which railway companies are paying enormous sums to locate their passenger terminals in the very heart of the cities. Why should the Government be less solicitous in that regard as the owner of the Island Railway than a company would be? These are the days when much is sacrificed to make close connections. All know the convenience and advantage of having the cars take their passengers to and from the side of the boat at Summerside. Why should Charlottetown be deprived of a like advantage and convenience? The adoption of the George Street site would give close connection to those passing from cars to boat and vice versa. It would land passengers coming to the city close beside our leading and excellent hotels, and near to the public offices, the banks, the law offices, the business places of the city. This is where the people of city and country desire the station to be. If it is placed elsewhere the people will feel whether rightly or wrongly that they have been defrauded of their rights, and this merely for the gratification of certain private and selfish interests. We do not believe that that fair-minded Minister of Railways would lend himself for a moment know-

ingly to any such proposal, but we do know that interests other than those of the great body of our citizens are at work to unduly influence the authorities in favor of a more eastern site.

We write strongly because we have been for years in touch with the people on the subject, and because in every public meeting in which the subject has been discussed the sentiment has been either unanimously or overwhelmingly in favor of a site as far west as George Street. It is sometimes possible to thwart the wishes of the people, but it is seldom prudent to do so when their wishes are reasonable, as they certainly are in this case. We have waited long and patiently. Never were the wishes of the people more clearly made known than in this matter. To deny the reasonable expectations of the people after so long delay would be such a defiance of public opinion as would not be forgotten in a generation.

It is needless to say that The Guardian has no axe to grind, no private ends to serve in this matter. We simply stand by the interests of the general public, the great majority of the people, as placed on record at public meetings and by resolutions from time to time unanimously adopted. We may add that we would greatly regret to see the Government make a serious mistake at this juncture by selecting a site which cannot be defended on public grounds, and which can only be interpreted as serving private ends at the sacrifice of the general convenience and welfare of the public good will as well. The influences at work thwart the public will are well understood in Charlottetown.

THE NEW STORAGE BATTERY.

Some two years ago the news was given out that the wizard Edison had perfected a storage battery that would revolutionise the use of electricity as a motive force. The announcement was, however, premature. Mechanical difficulties were found to exist and it has taken years to overcome them. This has now been effected, as we are told on the best authority. The old storage battery was enormously heavy and it "leaked" rapidly whether in use or not when once charged. The new Edison storage battery will weigh but forty pounds per horse power. The leakage is but a fraction of what the loss was with old storage batteries. It is expected that the new batteries will be largely utilized for automobiles, for trucking about cities and for pleasure boats. Mr. Edison gives out that a battery of 400 pounds weight will easily drive an auto car 100 miles without re-charging.

To have the bridge placed beyond the eastern border of the town was surely price enough for the people to pay to please a single owner who had property there. It is too much to ask that the station shall follow the bridge on the same account.

We think His Worship the Mayor, with the best intentions, erred in declaring last night's meeting of citizens adjourned without transacting the business for which it was called. The meeting was small, certainly, but those present had a right to be heard and adopt such resolutions as they thought fit in regard to the object for which they were called together.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

Camphorated chalk—Put up in neat 50 packages—nothing better for cleaning the teeth.—A. W. Reddin, Pharm.B. The Square Druggist.

THE COMING EXHIBITION.

The Exhibition of last year was so successful, and we may add was felt to be so useful that the Government only yielded to a strong popular demand in making the grant for another similar event this autumn. And we are led to hope, not without good reason, that the coming fair may be the best of the series. It will be better than that of last year if only for the reason that nature has been this year more bountiful. The favorable season has given to our farmers the promise excellent crops. In some special lines, as in that of fruit culture, our people are developing from year to year, and more and more fruit trees are coming into bearing. Moreover we are learning something from year to year as the result of competition and comparison, so that by all the rules of the game this year's Exhibition ought to be a record-breaker.

We write this, weeks in advance of the show, in order that all who can do so may be stirred up to take part as exhibitors. We know the very human disposition to procrastinate. Many intending exhibitors put off the preparation until it is too late, and their good intentions fail of realization. We trust that this year more than ever before all our farmers, stock-raisers, dairymen and manufacturers will feel impressed with the patriotic idea of bringing each of his best to the show in order that the Exhibition of 1905 may reflect the highest credit possible upon our Island Province. We feel assured that the direction of the fair is in competent hands and that the management will leave nothing to be desired. Over six thousand dollars is set apart for prizes, there are capable judges in the several departments there will be some special attractions, races, etc. particulars of which will be announced later. In the meantime the word is "Get ready for the Exhibition."

We are pleased to learn from the obliging Secretary Mr. Smallwood, that some intending exhibitors are taking time by the forelock and have already filed their entries. This speaks well for the interest taken seven weeks in advance of the opening date.

In the days when the late Hon. D. Farquharson M. P. was energetically supporting the George Street site, and reported that "the citizens were as one man" for that site, The Patriot spoke in the same way. Now that journal thinks 95 per cent of our people are indifferent. We would be glad to have this question of indifference settled by a public meeting while the Ministers are with us. Let the people be heard!

MESSRS. C. C. RICHARDS & CO.

Gentlemen,—In June, 98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT which I began using. The effect was magical, in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Your truly, A. E. Roy, Carriage Maker. St. Antoine, P. Q.

Nothing more healthful than a dose of

Our Aperient Fruit Salts

at this time of year. A little taken on retiring or before breakfast—cools and purifies the blood giving you that buoyant feeling of perfect health. 25c per large bottle.

A. W. Reddin, Pharm.B. The Square Druggist. Sunnyside.

CARPENTERS AND LABORERS WANTED.

Carpenters to work on Georgetown Wharf and Freight Shed; laborers to work on Montague Branch Railway. Apply on work, or at my office, Montague.

WILLARD KITCHEN. 8-9 d tw, wed tw zw.

TENDERS

Sealed Tenders will be received by the undersigned until noon on Saturday, August 19th, from any persons willing to contract for the sheathing, painting, etc., of interior of the Presbyterian Church, Mt. Stewart according to plans and specifications to be seen at the store of H. D. Coffin. The names of two responsible persons willing to become bond for the faithful performance of the contract must accompany each tender. The trustees do not bind themselves to accept the lowest or any tender. Tenders to be marked "Tenders for Church." H. D. COFFIN, Sec. Aug. 9 mwt (11) 1905 Mt. Stewart.

NOTICE

Would you please let us have the amount of that account we sent you last week.

To Make a Proper Selection of House Paints

Keep in mind the fact that the cost of labor of spreading the paint is the greatest item in the cost of re-painting. The price of house paints is therefore of no moment provided you will take durability in consideration. It costs just as much to spread poor paint as it does to spread the best paint, consequently the article which preserves your building for the longest period is the cheapest. The best paint is a

Pure Linseed Oil Paint

for Linseed Oil is the life-giving preserving element, and combined with pigments which the manufacturer knows to be best adapted and most durable makes the ideal paint.

Crown and Anchor

is the ideal liquid paint. Wholesale and Retail.

The Rogers Hardware Co. Ltd.

ROGERS' CORNER.

Charlottetown Business College

And Institute of Shorthand and Typewriting

"An institution known throughout Canada and the United States for the excellence of its course of training."

Re-opens Tuesday, August 15th, 1905.

While students may enter at any time, yet, they will find it to their advantage to enter as early in the term as possible, the least being to place themselves in the best possible position to compete for the valuable prizes (gold and silver medals, scholarships etc.) which our patrons—including the Government—have enabled us to offer.

If students will enter early in the term, they not only give us a fair chance to put them through the three courses—Book-keeping, with actual business practice, Shorthand and Typewriting, but greatly enhance their chances of getting into remunerative employ.

All our graduates who went west have done well. You should not go until you have taken a course with us. The home demand has been and is being kept well supplied by our students. See "Recorder".

ELECTRICAL FORCES

The services of Messrs Doull, Winfield and Morrison, electricians, have been retained for a series of lectures on Electricity and its application to machinery—as a motive power—the Telephone and the Telegraph. The Marconi system of wireless telegraphy explained.

Our English course is in the hands of a specialist, and the C. B. C. "Recorder" affords an excellent medium for intellectual thought.

Our Business course will bring the student in direct contact with many New Sets of books not to be found in text-books. These must be properly filled by daily business transactions with his fellow students, compared, checked, audited and passed.

Our success in preparing students for the Amanuensis certificate of the Phonographic Institute of Cincinnati last term was not equalled by any one College in Canada or the United States, and it was the only institution in this Province last year to successfully prepare candidates for the same.

We refer the public to creditable witnesses of our work. Educationalists, business men and our students.

Any person sending us a copy of this advertisement with name of paper from which clipped will be amply repaid.

L. B. MILLER, Principal.

USE ONLY THE BEST

Is the STANDARD article READY FOR USE IN ANY QUANTITY.

For making soap, softening water, removing old paint, disinfecting sinks, closets, drains and for many other purposes. A can equals 20 pounds SAL SODA.

SOLD EVERYWHERE.

E. W. GILLETT COMPANY LIMITED TORONTO, ONT.

Hints for August Comfort

1st—On rising, don a suit of our medium-weight, wool or half-wool underwear, 25c to \$2.00 per garment for our reliable kinds.

2nd—Take a negligee shirt (our sort), with delicate figures or stripes, or plain white with small pleats, 75c to \$1.75.

3rd—Add socks, cuffs, collars, neckwear, handkerchiefs, etc., from our attractive stock.

4th—Get into a summer weight sack suit of blue or black Serge, Cheviot or Homespun fabric, striped outing effect or quiet overplaid; such as cost here \$10 to \$12 with satisfaction guaranteed.

5th—You must have a showerproof coat, even if you wear it on your arm at times; here they are \$5 to \$18; short, medium or long styles.

6th—Put on one of our swell Derby or Soft Hats, \$1, \$2, or \$3.

Now you're fixed and ought to feel good all this Season.

Clothes for Boys' And Young Men

- Sailor Suits 75c to \$3.00. Russian Blouse Suits, \$2 to \$4. Norfolk Suits, \$2 to \$6. Wash Suits, 75c to \$1.50. Boys' Suits, without Vests, \$1 to \$6. Boys' Suits, with Vests \$2.50 to \$8.50. Young Men's Suits \$3 to \$12.

What a pity we can't sell all the clothing in town! We'd like to, first-rate, but some people want more show than quality. Other people have their friends; and friends are nice, too, if they are in the way at times. And others are hypnotized by higher prices—"must be better"—or lower prices—"it is nice to save money", if you really save it.

And yet we are growing every year.

If you don't know what this means, bring your little or grown-up boy here and see.

Prowse Bros.,

The Wonderful Cheap Men.
